## 5. Social Citizenship-

Racssoft commits to make a positive impact globally through ensuring human basic demands- availability of food, clothes, roof over the head, education and medicine as well as to establish all rights. We believe that human can strongly face the global crisis and challenges together.

## 6. RacsFoundation-

RacsFoundation is focused to ensure human basic demands-availability of food, cloth, roof over the head, education and medicine as well as to establish all rights.

## 7. Kirod-

A service Platform that performs virtually to assure work availability and remuneration for laborers in accordance with labor legislation and make peoples daily life easier.

## 8. Thungaa-

Thungaa follows the strategy to plant organic food production, sustainable farming practices in order to provide a safe and healthy environment for people.

## 9. Make A Global Impact

### 9.1 Software development-

Racssoft develops dedicated software solutions for companies around the world. Team Racssoft specialize in modern web technologies. Programmers create the software from scratch, including the MVP phase, but we also extend existing digital products. We focus on understanding business and technology needs.

### 9.2 SaaS-

Racssoft is going to host SaaS apps to users! You don't need to purchase, install, update, or maintain any hardware, middleware, or software. SaaS makes even sophisticated enterprise applications, such as ERP and CRM, affordable for organizations that lack the resources to buy, deploy, and manage the required infrastructure and software themselves.

### 9.3 API Integration-

Racssoft provides integration services through API for web services. Team Racssoft provide full support and implementation and take care of proper performance and security of the connections between services.

### 9.4 System Integration-

Knowledge, experience and tools empower us with the capability to design, create and deliver smarter solutions that suit your needs. We are your trusted partner to deliver your technology projects on time and on budget with exceptional post-implementation services.

## 9.5 Mobile Application-

Racssoft provides dedicated mobile application development across different mobile platforms. This hybrid approach to software development is often a go-to strategy for many businesses that aim to create a mobile solution compatible with all operating systems – both web and mobile.

## 9.6 Web Application-

From the perspective of end-users, nothing contributes to the overall success of a web app as much as design, graphics, usability and user-friendliness do. At ASPER BROTHERS, intuitiveness, ease of use and great customer experience are always in the first place.

## 9.7 UI/UX-

Our UX/UI specialists understand the importance of making software memorable, and that experience is all about how we feel. The synergy of design and technology translating into attractive appearance and robust architecture is what we always focus on, and that's what sets our projects apart.
