

WAZDI
SOLUTIONS LTD

About Us

Wazdi Solutions Ltd. commenced its journey with the help of a group of aspiring entrepreneurs who have excelled in their own fields. Their target is to provide embedded financial infrastructure and act as a reliable tech layer between Banks, Fintechs, Financial Institutions and other businesses.

Our vision is to help companies and businesses build and embed custom APIs, So that they can focus on their customer journeys while we take care of the backend integrations and tech-infrastructure. Our robust, secure, and customizable API tech-stack enable them to go to the market at remarkable speed with greater efficiency, highest level of security and compliance, boost business agility and customer lifetime value.

We help to build networks for businesses to achieve successful distribution channel for banks, financial institutions and other businesses. We also help them to enable the formation of Fintechs and act as Fintech accelerators, expanding financial inclusion. Our goal is to create a new dimension in financial aspects in order to ensure Digital Bangladesh.
