

## Profile of Servify Tech Solutions BD

### About Servify Tech Solutions BD

Servify Tech Solutions BD, founded in 2021, is a startup partnership IT firm based in Dhaka, Bangladesh. Our main area of business is IT enabled services (ITeS). We also provide software development, web development, app development and digital marketing services. We facilitate business process outsourcing (BPO) and other IT enabled services (ITeS) to the Real Estate, Banking, Education and other industries of the USA, Canada, Europe, Australia, Bangladesh, and other leading countries around the world.

### Our Services

#### *Back-Office Management*

Servify offers a wide range of Back Office Management Services, with the help of latest technology and state of the art infrastructure. We provide superior Business Process Outsourcing services for enhancing efficiency to non-core functions of our clients. Our ITeS solutions include Customer Management, HR Services, Offsite Vendor Management, Payroll Management, Complaint Management etc.

#### *Software and App Development*

We have focus in developing new software products. We are working on developing an off the shelf CRM software for serving our customers. We provide different app development services for the Android platform.

### Our Clients

Presently, we provide Back-Office Support to several USA based companies from real estate & IT industry. Since we are a new firm, we are exerting our endeavor for expanding our business.

### Key Personnel

There are 10 employees working in our organization at this moment. List of our key employees along with academic qualification is provided below:
