March 26, 2022

Our journey started from 2016. Interest in software from a young age. I started the business in 2016; then I started using accounting software. I thought I would set up my own software firm. First I started with digital marketing. Now in 2021 I have started the work of making software with the developer team with local license.

MD.JASIM UDDIN NIZAMI

Chairmen
