

Grit Technologies Limited

Company Profile

About Us

Grit Technologies Limited has started its journey from June 2020. Founded by two BUET graduate engineers, Grit has been working in the frontier hardware and software technology field from its inception. We provide full-fledged Enterprise Resource Planning Solution (ERP) for institutions, Point of Sales (PoS) solution, remote solar energy monitoring and maintenance solutions etc.

Grit is a leading software firm, system integrator, and technology provider located in Bangladesh. We provide a challenging environment that encourages initiatives and promotes commitment to our clients.

We strive for perfection: perform to excellence, assess and evolve.

Passion for Innovation: We are continuously innovating and reinventing ourselves.

Teamwork: We foster teamwork and collaboration.

Grit's core motto is to provide reliable and secure hardware and software solutions to clients

We are a team of 12 engineers having expertise in full-stack development, digital marketing, website development, machine learning, artificial intelligence, Internet of Things, Artificial Intelligence, Augmented and Virtual Reality.

We focus on IT consulting and custom software engineering services for Bangladeshi and foreign markets leveraging our global resources.

We employ some of the most talented IT professionals and continually invest into skills and know-how development to ensure our clients enjoy the world-class solutions and service in the most cost-effective way. Our commitment in every client engagement is to ensure success of customer's innovations in IT-process and software systems.
