ABOUT US

We design & develop digital communication
that speaks value.

ProSystem Limited, based in Bangladesh and operating globally, has been providing IT-enabled services (ITeS) since 2020. We excel in advancing business value by providing custom solutions to each client's unique needs, along with ready-to-use products, ensuring measurable and market growth.

ABOUT US

D. M Adnan Ahmed Protul

Managing Director & Chief Executive Officer

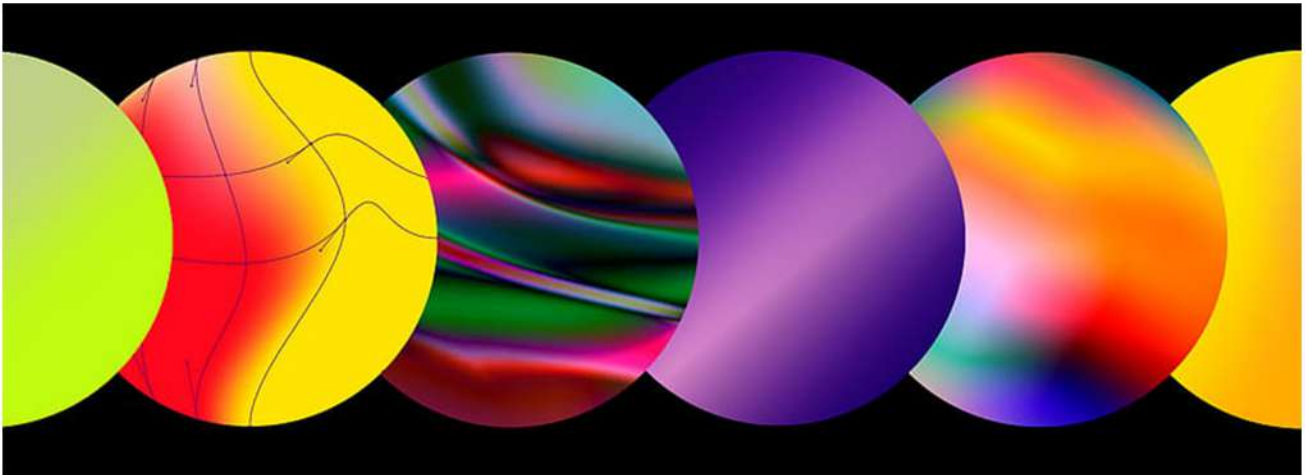

With a proven track record of optimizing over 30 projects, Adnan delivers innovative tech solutions that develop both backend and frontend processes, driving efficiency, productivity, and growth across diverse industries. His ability to identify investment opportunities opens new possibilities, while his expertise in brand communication and exceptional customer experiences sets industry standards.

Adnan's educational background forms the foundation of his professional success. He earned a Bachelor of Business Administration in Marketing from North South University (2016–2021), completed his IGCSE and IAL qualifications through the British Council Bangladesh (2013–2015), and attended Mastermind School from playgroup through Class IX (1999–2011).

A results-driven professional passionate about technology, Adnan is dedicated to solving complex business challenges. Under his leadership, ProSystem Limited has become a trusted partner for organizations leveraging technology to achieve strategic objectives and set new industry benchmarks.

ACTIVITY

We are active with
40+ businesses and 200,000+ users
worldwide.

ProSystem Limited has been helping people connect better with digital platforms across all industries. By developing both front-end and back-end systems, we create simplified solutions, ensuring users enjoy an improved and engaging experience at every touchpoint.

Our optimized servers and databases are competitive and scalable.

VISION & MISSION

We believe the way we advance digital today is imperative to ensuring a more open, resilient, and optimistic world.

Our mission is to deliver exceptional design, development, and services that enhance usability, communication, and performance.

PRODUCTS & SERVICES

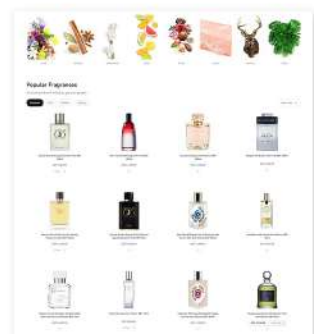

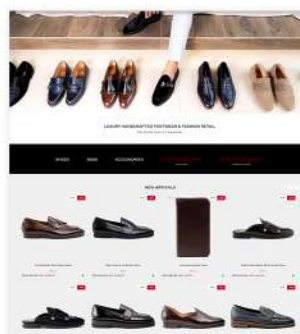

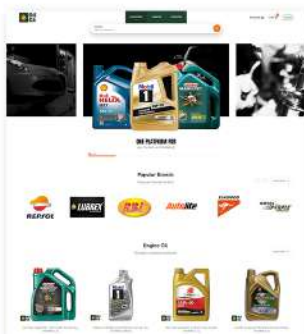

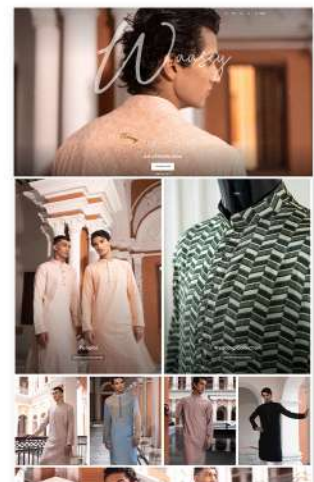

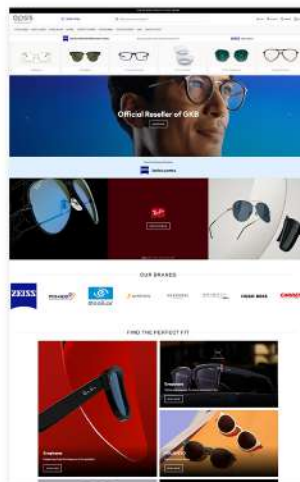

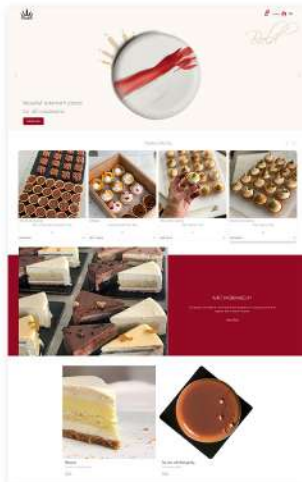

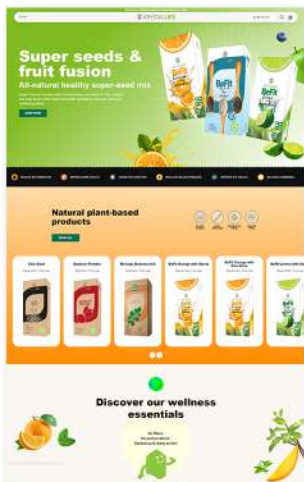

1.

eCommerce Solutions

With an e-commerce website, you can break geographical boundaries to reach a global audience 24/7, provide customers the convenience of browsing and purchasing anytime, reduce operational costs, gain valuable data-driven insights, leverage powerful digital marketing tools and deliver an enhanced shopping experience through seamless navigation and secure payment options.

✔ Fast Loading ✔ Quick Search ✔ Easy Shopping ✔ Customer Oriented ✔ Secured

2.

Retail Management System

Boost efficiency by automating inventory, sales tracking, and customer relationships.

RMS provides real-time inventory control, enhances customer experience with faster checkouts and loyalty programs, and offers valuable sales insights for smarter decisions.

It reduces costs, minimizes errors, and integrates seamlessly with other systems, supporting business growth and scalability.
