About Us

We are a team of techno passion enraged Brains, have started our brain work with a simple vision to enhance accessibility and usefulness of technology to businesses and organizations.

Mission statement

Nifty IT Solution LTD. mission is to provide exceptional outsourcing services mainly focused on app development and professional services on accounting for small businesses. Most of them are unable hire professionals team of their own, with the highest levels of integrity and professionalism. Furthermore, the delivery of service is consistently accomplished at a level superior to the abilities of most “in-house” team. And, at a fraction of the cost!

We take pride to meet the current and future needs of our reputed clients and help them to cultivate long-term success. We aim to build trust and loyalty between staff members, partners, and the business clients, creating a dynamic, creative, and harmonious balance between work and life.

So, you may ask, what is our motivation for exclusively serving the small business segment? Well, a lot of it has to do with my own personal experiences over a number of years.

Vision Statement

We aim to be regionally recognized BPO firm of choice, offering one-stop solution for comprehensive app development and professional accounting services to businesses and individuals alike. We also want to take the lead in delivering cost-effective solution, providing our clients with smartest and innovative solution to day-to-day complex business issues.

Moreover, we also want to create a culture of pride and state-of-the-art working environment, enabling us to attract best and brightest professionals who will be rewarded, respected, and recognized for their contribution, and can grow to succeed in the industry.

OUR CORE VALUES

PROFESSIONALISM

Our international expertise combined with local flavors completely align us with our clients' expectations.

CUSTOMER-FIRST
