OUR MISSION

We are committed to Pushing the boundaries of innovation to maintain our position as a leader in the IT industry and make the world a more connected and efficient place through technology.

OUR VISION

Our vision is to simplify your daily life with cutting-edge digital solutions

Message from the CEO

“ **The world** is moving forward, along with the world of technology. Easital started its journey in 2019 with the aim of elevating future technology. We are constantly looking out for innovative Solutions. It has come to symbolize our dedication to facilitating our client's willingness to learn from each other and innovate together.

Your choice of an IT services partner is a significant strategic move that will have far-reaching effects for future years. Easital is committed to provide the easiest digital solutions possible to address each individual client's demands. The company's culture encourages and rewards Experimentation.

Putting our faith in employees is our prime concern. We have trust in our young, ambitious colleagues and encourage them to follow their passions and mutual learning environment is the core thing we believe in.

Easital is continually attempting to simplify the global technological Ecosystem. Each client and staff is fundamental to our continued growth and prosperity as we continue forward into the future. We comply that every interaction is an opportunity to demonstrate our commitment to our clients and further establish the trust that underpins our business. ”

HOW WE WORK

FULL CYCLE DEVELOPMENT SERVICES

BUSINESS ANALYSIS

We analyze business needs and offer the best solution for our Clients.

UX/UI DEVELOPMENT

We create seamless and efficient user flows.

DEVELOPMENT

We hire only highly experienced IT professionals.

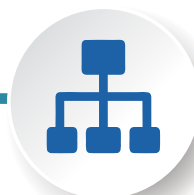

TESTING AND QA

Our goal is to make our products work without fails.

DEPLOYMENT

We assist companies in deployment, scaling and maintenance of applications.

DATA MANAGEMENT

We help to manage all the business data in the system the right way.

BLOCKCHAIN

If you talk about the latest technology of the world, Blockchain must be in the top three. It helps businesses to get the secured system to grow. For that, we have a team of blockchain developers who can create NFT marketplace, dApps, Hyperledger Development services, and more. If you need some technical support, we can give you that as well.

Our Blockchain team is always doing those work and serving our customers. If you want to grow your business and utilize this technology to expand and grow your business, Easital has the resources and expertise to give you that. Come with your problems, leave with the solutions.

WEB DEVELOPMENT

Every business deserves a better visual present, and web application is one of the best ways. Easital has an experienced web Development team responsible for building excellent user-friendly web applications for our customers.

From creating scratch to writing codes, we check everything. Whenever we find any bugs or issues, we sort that out. Thus we maintain quality and provide the best possible outcome-driven website.

APP DEVELOPMENT

We have an experienced and highly-skilled app development team. They build both iOS and Android apps. That means you can avail of our app development services and get the app for both platforms.

Our team will bring your thoughts into reality and build your app. It will be easy to use and integrated with your business and other services. Our QA team continuously reviews the app and tries to find bugs and other issues. Based on their findings, our app developers solve the issues and offer you a bug-free and ready-to-use app.

DIGITAL MARKETING

Digital marketing services are one of the most crucial factors for every business. It helps to grow and reach your target audience within the shortest possible time. Easital has a dedicated digital marketing team who can bring success to you.

Our expert team knows how to get the most out of your social platforms, Google and other search engines to increase sales and create brand awareness to reach your audience easier than before.

GRAPHIC DESIGN

Easital also has graphic design services, and we have a creative team. They design the brand icon, UI/UX for different apps and websites, company profiles, animation, and more. Their creative minds build strong brand identities.

The entire graphic design team is experienced enough to creatively solve your problems and bring the best visual present you have ever seen. It could be your simple UI/UX design for the app or the website.

SOFTWARE QUALITY ASSURANCE

If you already have the software, and you look to get a QA service, Easital can provide that. Our software quality assurance team is top-class. They can go find out the bugs and give you the solutions accordingly. We don't stop unless your software is 100% bug-free and ready to use.

If you get the software or apps from us, we will look after this entire process. Our QA service is one of the best. Since we have already built hundreds of different softwares, we know where the bugs are and how to fix them.

CYBER SECURITY

Whether you are looking for security checking, Virtual CISO Administrations, or Infiltration Testing, Easital Cyber Security services will never disappoint you. We have one of the best cyber security teams in the world. They are highly skilled and know how to protect your software from cyber attacks.

If you ever look for the top-notch cyber security services, look no where else than Easital. Our expert team can mitigate the risk of cyber attack and other threats. It's a fact that we can give the most secure environment and can face the challenges that no one dare to do.
