

INSIGHTS AUTOMATA

Building the future with tech, gear, and software

About us

Insights Automata is an automation solution company in Chittagong, Bangladesh. We provide plc based automated solutions focused on IoT, AI, Big Data, etc. Our activity ensures the optimization of the industrial process and also enrich the controllability of the industry. Thus the industry can ensure the corner to corner connectivity. We also provide smart solutions to residential purposes that make the life of human being smarter and comfortable.

Industry 4.0

Our Vision

The vision of the company is to invest our knowledge to help the development of the ICT roadmap set by the Bangladesh government. Thus, Bangladesh can enter the era of the 4th industrial revolution.

Mission

1. Customer: We always think the customer is a core team member of our company. We always listen carefully to customers and provide the best support to the customer.

2. Manufacturing Excellence: We always serve to the customer a solution that enhances productivity, product quality, industrial safety, etc. State-of-the-art technology that we use to design automation systems makes the manufacturing process excellent.

3. Right solution: We always supply the appropriate solutions for our clients.

4. Project management: Inside the company, we develop through proper project management procedure. We generally prefer Agile project management.

5. Young researchers: To extend our research capabilities and continue our journey as a successful automation company, we always enjoy to work with young professional. To encourage researchers from academics, we do research closely with different universities' faculty and senior students of engineering faculty.

Services
