

About Inovi

Inovi Solutions was founded in 2015 by Faiz Mannan, who had a vision for creating a Salesforce Development consulting business that could serve as an agile and strategic partner for companies of all sizes that need help migrating to Salesforce or building custom solutions within the platform.

We are proud to be recognized as a Salesforce Partner. Our team includes Certified Salesforce Consultants who have decades of collective experience, advanced skills and specialized training across the Salesforce platform.

Inovi Solutions has worked on numerous large multi-phase, multi-million dollar Salesforce projects, and our sweet spots are in Sales Cloud, Service Cloud, Field Service Lightning and custom development.

Our Partners

WHAT WE DO

Salesforce Consulting

Inovi provides bespoke Salesforce Consulting services to create custom environments, functionality & applications that support your exact business needs.

Data Migration

Preserving and protecting your most valuable financial, operational and customer data.

Salesforce Development

Inovi Solutions is your trusted partner in custom Salesforce Development that will help your business grow.

Salesforce Integration

Make all those legacy systems play together nicely with Salesforce Integration services from Inovi Solutions.

Salesforce Resources

A dedicated team of Certified Salesforce Consultants for businesses who want to get it right.

Customer Stories

"Inovi Solutions helped us solve complex challenges that were holding Arcadia back. We have a single source of truth for data, and teams can work more effectively and provide even better service and products to customers. Inovi Solutions was a valuable advocate and business partner throughout the entire project."

Fareha Ahmed, Solution Consultant, Arcadia
