Our Products

Care - Hospital Management & Information System

Care is a Hospital Management & Information System for hospital's Indoor, Outdoor, Laboratory, Operation Theatre, Pharmacy, Nurse Station etc. management. Its auto generate report will handle all manual reporting procedure by only one click which is very time efficient and reliable.

Smart Sales - Sales Management with POS

Smart Sales

is complete sale management software. It is designed to maintain every section of your retail business by order, purchase, sale, billing and account management.

Its business intelligence reporting tool will help entrepreneur to understand the business statics properly thus enhance productivity. Therefore, it's simple and user-friendly GUI (Graphical user interface) will help end users work comfortably.

Silo - HRM, Payroll Software

Silo-HRM is a combination of employee profile, attendance, leave, allowance, salary and PF management software. This is a cloud based solution and suitable for multiple branches. Flexible for different salary policies like, hourly, weekly and monthly salary.

mERP (Enterprise Resource Planning) Software

The mERP application offers an affordable way to manage customer's entire business – from sales and customer relationships to financials and operations. It is designed specifically for managing medium & large businesses entities. It helps the organization to streamline processes, act on timely information, and drive profitable growth.

Ray Factor - Online Reporting Panel

On this era of digitalization, hospital management is going through revolutionary changes. To support this challenge, Code Spiders Limited is working on a project to digitalize patient diagnosis reporting system. This is a system which will support PACS (Picture Archiving & Communication System) to store medical images for archiving, retrieving, distribution and presentation.

Get Analyzer - Clinical Analyser Data Receiver

Get Analyzer is a data receiving software which retrieves data from pathology machines by LIS (Laboratory Information System) protocol.
