

About Us

AppDevs is a most rapidly growing, innovative IT services & Consulting company, Providing consulting, Development & maintenance covering information technology, System integration & custom applications development. We are selling scripts in partnership with Envato, the world's largest software marketplace. Also develop and sell software licenses for entrepreneurs and start-ups. Our main goal was to provide software to entrepreneurs at a low cost.

Our Mission

We want to be the leverage for creating an entrepreneur's success story around the world by strengthening our country's economy.

Our Vision

To reach every country through our innovative IT services to create opportunities for those who want to start their own business

Journey of Us

In 2018, I started my carrier as freelancer in different market place like Fiverr, Upwork and in freelancer platform from when I dreamed for starting my own company. In late 2021, I started selling my scripts on CodeCanyon from where many of the clients wanted customize products. At the starting of 2022, I started my journey as start-ups company through AppDevs. Now we have a team of 17 members and Our project portfolio includes over 85+ success stories.
