

Avid Tech Solutions Ltd.

Innovation, Excellence, Solution

Company Profile

About Us

Avid Tech Solutions is a business process outsourcing firm specializing in offshore Real Estate management and other IT-enabled services. We have successfully run multi-state operations and worked with all of the largest national clients in the United States to be an essential element of the property preservation industry. The company was founded by a group of professionals with extensive experience and exposure to information technology. Young qualified business graduates and qualified engineers from renowned universities around the world are involved here. Aside from BPO, we also offer website design, software development, mobile app development, information systems security solutions, and network security.

Mission & Vision

Mission

To carry on the business of establishing and setting up a Software and Hardware Development Zone, Special Economic Zone, or Industrial State individually or as a joint venture with both local and foreign companies and to own, develop, operate, manage and provide all kinds of utility services required for the IT & Technology oriented companies.

Vision

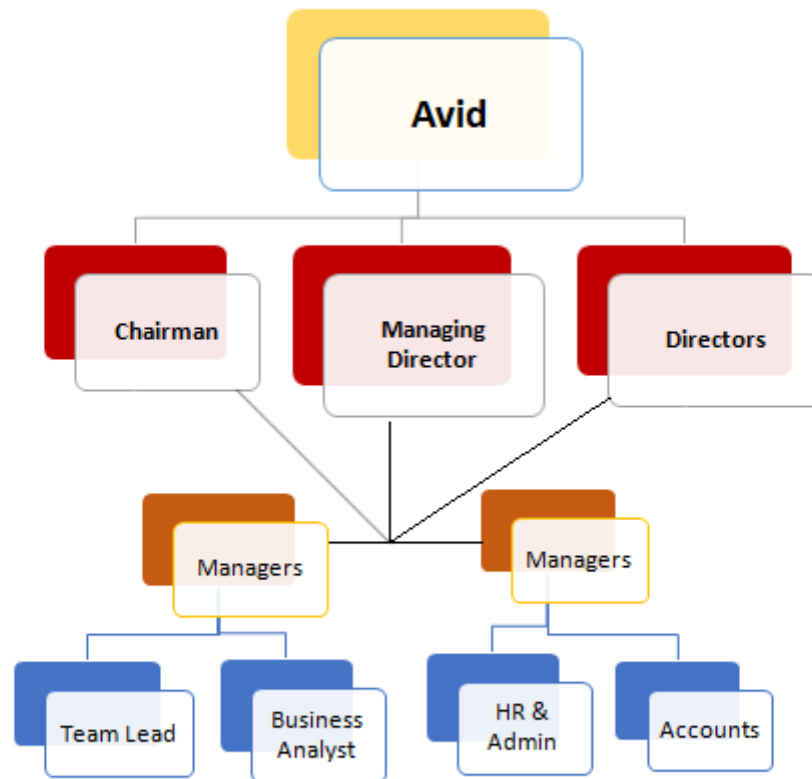

To develop a world-class business environment for national & multinational entrepreneurs and create employment opportunities in IT/ITES, BPO, Software development, and E-commerce sector and significantly contribute to the national economy.
