About TUO Solutions Ltd

We are a people first company.

At TUO, we are a collective team of capable, driven and empathic team members who deploy a combination of data and world class technology to fuel our customer growth. Our agile mindset allows us to handle unique business needs worldwide by providing digital services at an extraordinary speed and quality

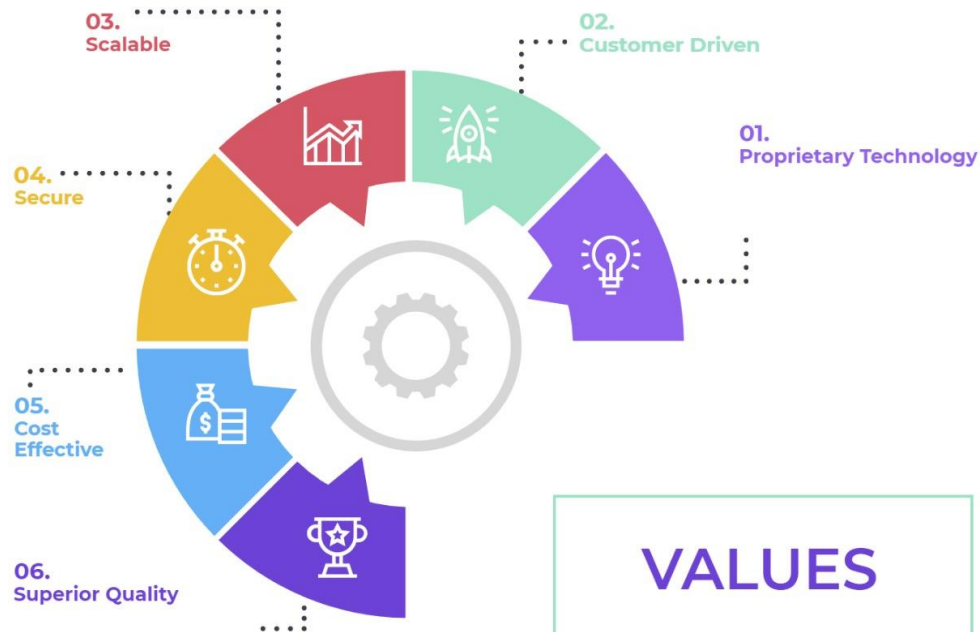

Our Mission

To make a positive impact on the world's best brands, our team members and our communities.

Our Vision

To help global businesses perform better, think faster and achieve growth – by combining class leading technologies and a team of highly capable team members.

Our Values:

Proprietary Technology: Our R&D team constantly develops, perfects and customizes tools to streamline our processes. Which enables us to successfully tackle projects and deliver with customer satisfaction.

Customer Driven: Our approach towards our work and services are very much customer centric and to achieve a satisfied customer each time.

Scalable: Quick results with high throughput. More manpower is committed when needed. Team size can be scaled up development of skilled workforce is a constant.

Secure: We follow strict standards and always keep the data and information confidential and secure by applying necessary measures such as encryption, data expiration and vpn's, and more.

Cost Effective: Save money! We offer the most competitive pricing by providing a cost-efficient alternative to an in-house team and also providing volume-based discounts.

Superior Quality: In order to ensure quality, we maintain multiple QC / check points in order to root out any quality issues and deliver as per customer requirements.

Service Process:

Market Research: Based on ICP our team of analysts conducts market research to find prospects that matches our ideal clients.

Company Listing: Once market research is complete, we finalize the list of potential clients to whom TUUO will reach out.

Business Proposal: We prepare a proposal deck for potential clients covering such areas as, our services, benefits and advantages.

Trial: Once the Business proposal is accepted clients provides TUUO with trial to see our capability and for us to judge complexity of work for costing purposes.

Negotiation: Upon approval of trial work, prices are quoted and mutually agreed in order to receive actual bulk work.

Final Production: After Trial and Prices are settled then the actual bulk work is received and TUUO proceeds to complete the project.
