

Profile of Bullet Platforms Limited

Background

Bullet Platforms Limited is one of the registered companies with Joint Stock Companies & Firms, Bangladesh and is a new initiative for a convenient and cost-effective ride-sharing and parcel delivery in Bangladesh. This is a digital platform for entrepreneurs, based of Dhaka initially, with a vision of moving Bangladesh forward. We are utilizing data and technology to improve everything in the transportation and service sector/s for more than 166 million people in Bangladesh. Working with governments, riders, users, and the community, our target is to bring out the true potential of the region by solving transportation and unemployment problems that will lead further progress of the country's overall service sector including the economy. We are focused on pioneering new commuting and payment alternatives for drivers and users emphasizing on expense, time and convenience.

This is a technology driven company. We believe in furnishing solutions that are viable today and open for upgrade in future. Our solutions are cost-effective and immediate result oriented. In next couple of years, we target the market segment that is already experienced in using business solutions as well as the niche that is freshly aiming at entering Information Technology (IT) usage arena. We resolve to add value to our clients' businesses irrespective of their current exposure to IT service usage.

We are specialized in customized business application/software development. We also offer consultation on business system analysis and MIS related activities. Our development and consulting team comprises expert system architects, system analysts and programmers with dozens of years of experience among them. Our targeted clients are major industrial concerns (Telecom, Pharmaceuticals, Electronics, Garments, Tobacco, Food and Beverage etc.), trading houses, banks and other financial services, international organizations, donor agencies, organs of the defense sector. We also provide financial management systems, sales & distribution systems, HR & payroll systems, decision support systems, management information systems, business automation systems and state of art B2B and B2C solutions.

Mission and Vision

Building scalable on demand technology to meet the growing needs for the consumers of Bangladesh. To be the most trusted partner in the ICT sector with the goal for increasing the company efficiency, enhance overall productivity, reduce operating cost,

boost ultimate satisfaction and generates a significant return on the IT specially internet investment by our dedicated and quality support in each and every instance, on time.

Initially, vision of the company is to transform the livelihoods and the society through technology including establishing a brand image in customer mind as their most reliable and trusted analyst, consultant and partner for achieving their organizational goal with our innovative, efficient and effective solution/s.

Client Focusing

Our clients' success is our only priority. We are passionately focused on driving customer success and eagerly place our creativity and knowledge into this direction. We do everything for our capabilities to coincide with our customers' wants. That's why we always work a little bit harder, a little bit longer, and a little bit smarter. Our values allow us no excuses and no compromises. And above all, we provide total accountability. We are committed to develop a system exactly meeting our client's business requirements with guaranteed quality at a reasonable cost.

Fast Communication

In depth discussions of all project-related issues with the client guarantee that the project will meet specified requirements and estimated time frames. We understand the importance of communication and client support, and maintain a faster feedback policy. Our attention also goes to keeping the clients up-to-date of the status of their project, providing the relevant scheduled reports and updates.

After Sale Support Service

Our technical support and quick response are provided to all of our clients timely. We are confident in the quality of our work and back it up with a 6-12 months warranty/support. Within 6-12 months, we will promptly correct any problem at no charge. Also, the warranty term may be extended and we are available for system support and maintenance at any time if required.

A Skilled and Dedicated Team

"Great work comes from a great team". We have a strong team which is a blend of programmers, designers, and analyst and visualizes. We are a group of highly qualified young professionals. Our team believes in pushing the limits while exploring, innovating and creating. We go with you step by step from conceptualization to content development and functionality issues. At every step we focus on your goals, and how best to materialize them through utilization of technology.
