## **Company Profile**

### **Renegades Art**

Renegades Art is a game art outsourcing startup based in Dhaka, the capital of Bangladesh. Renegades Art is continuously evolving working closely with some of the top game development vendors on AAA titles and other major platforms. We specialize in AAA quality 3D assets for your next-gen game, AR/VR, Metaverse, or anything that will enter through a game engine.

### **What distinguishes us apart?**

Renegades Art focuses on building long-term relations with clients by providing immense flexibility as per the need and requirements of the project. Our teams' extensive experience with AAA game titles makes us the best outsourcing partner you are looking for in art development. Let's make great games together.\

### **Art Production Management**

We ensure the security of the clients using only secured measures for deliverables, documents, and communication. Our project managers are pro to use all the management tools Slack, Miro, Trello to name a few. The production team ensures to keep all the stakeholders minutely updated on projects.

### **QC support - last line of defense**

Renegades Art offers QC support as we certainly do not compromise when it comes to precision; thus, our QC team makes sure the projects are delivered with utmost quality and accuracy.

## **Our services**

Renegades Art is helping its clients to produce 3d content, from high resolution to in-game 3d models ready for engine integration. We specialize in various art styles ranging from hand-painted stylized to physically based rendering, which includes

- Characters
- Props
- Weapons
- Vehicles
- Environments

## **Partners and Collaborations**

We believe that the gaming industry is our big extended family so why not join our hands with each other. We are always open to potential partners and collaborations on projects.

## **Our Client**

As we are a new start up company, we are trying to create new relationship with more clients around the world. Currently we are working with two clients.

- Wonderstorm Inc, USA
- Arcware GMBH, Germany
