About Leadcraft IT Solutions

LeadCraft IT Solutions is an IT Enabled Service (ITES) based BPO company, a trustable name for business's offshore and onshore operations. It was founded in 2020. We are specialized in helping business owners and companies complete a wide variety of tasks related to asset management which includes data analysis, vendor management, virtual office support, administrative duties, reporting and research in the US banking sector and real estate industry. We have partnered with asset management companies in US and became the pillar on their operational support. LeadCraft IT Solutions has its office located in Dhaka, Bangladesh. Having a broad and ambitious vision on crafting our clients need, we are endeavoring to lead the BPO market. We are implementing IT Enabled Services, through which we are earning foreign currency for Bangladesh. We are moving forward to be one of the largest US based IT Enabled Service provider in the country that is aligned with the government's goals of a Digital Bangladesh.

We are focusing on attracting a part of the Global ITeS business into Bangladesh and help enable the country to reach its goals of Fourth Industrial Revolution sustainability. We will continue to bring in foreign currency revenue for Bangladesh in the IT sector. Through an entrepreneurial and fun work culture in an innovation & learning focused environment LeadCraft IT Solutions attracts the best talents of the country to join our growing team. Leadcraft IT Solutions is founded with an intention to utilize the local talents and myriads of global opportunities to catapult the global advancement of technology to a new height. While we leverage the perfect blending of the talented local workforce with all the powerful and super-functional resources, we aim to shine through our state-of-the-art services to bring about are evolutionary change to the perception of how modern technology can be used in various ways.

Our Services

Asset Management - We hire and train vendors (local contractors in US) to maintain the inside and outside of a foreclosed vacant property. We directly work with US banks and asset management companies to provide services such as repair, inspection, insurance claim management, and maintenance with the help of our vendors.

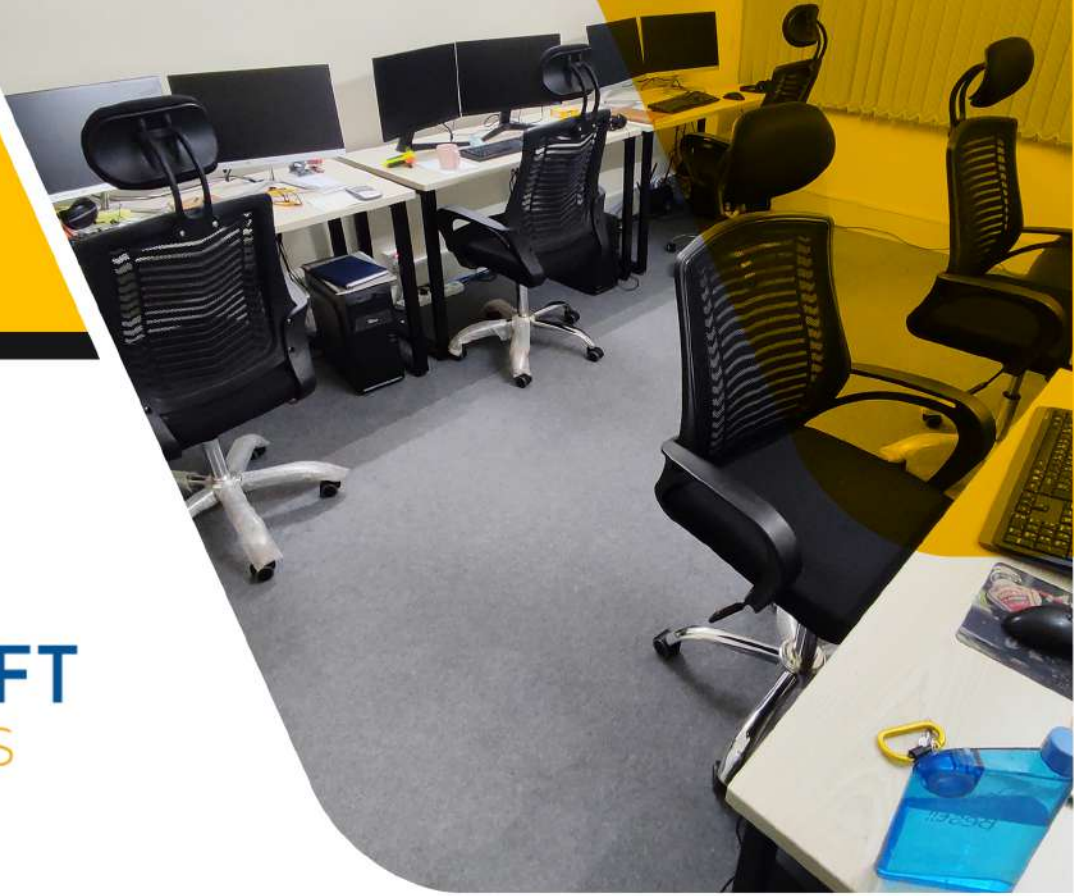

Data Analysis - Once we receive the data (photos, damage report, estimates, property details) from our contractors for a particular property, we analyse, recheck and then make detailed reports of property condition, estimates to fix the damages and submit these results in the client's website.

Vendor management - We have a skilled team to recruit, train and manage the US local contractors who are responsible for securing and maintaining vacant properties. Our vendor management team constantly be in communication with them over the phone and email, to get results from in-field to be submitted on time and then ensure they get the job right the very first trip to the property. Our dedicated assistants manage contractors to ensure that they provide results on time and complete work accurately.

Administrative duties - We provide administrative services such as accounting, contractor payroll, tax filing and more.

Reporting and Research of the US banking sector and real estate industry to analyses the market, market growth, new opportunities.
