Software Lighthouse is a one-stop solution for all your outsource software development needs. We have a team of experts who are dedicated to delivering high-quality work. Our team has many years of experience in software development, and we are always adding to our expertise. We offer a variety of services, including web and mobile app development, and more. We are committed to providing the best service to our clients by listening to their needs and understanding their vision. We provide an end-to-end service that saves our clients time and money. We strive to make sure that our client's vision is always aligned with what we're working on.

Software Lighthouse was founded in 2011. Since then, We have served 8 countries. We have 7 software developers, and 3 designers and the total number of team members is 14.

Our Focus

From an idea to a finished App based service, it is a long journey. Software Lighthouse breaks this journey into smaller milestones and takes input every step of the way. Each milestone is visible to our clients. After each milestone, we keep our projects and clients' vision in line.

History

The team of software lighthouse has been working since 2011 together. We worked as a team to build different software companies and startups. We have developed, a large number of websites and apps for different clients. We love to work with challenging projects. In 2018, we registered our company and started working on different government and renowned NGO projects. Since 2011, we have been working with different fresh graduates in different fields. Those fresh graduates are working in different IT companies around the world. After starting the company in 2018, we have also hired some fresh and talented developers to our team, they have now become experienced developers in their respective fields. We proudly build our development team in-house.

Our Client's Reviews

Software Lighthouse is the place to be, they are professional and worked very hard to get me what I needed. Although the project shifted from its original Idea, this team came through with dynamic new approaches to solve my problem.

- Cameron Macpherson

Software Lighthouse is awesome! They are easy to communicate with and are my go-to place for tech-related anything.

- Aron Wright @yellowskyactions

We are impressed by the quality of Team Lighthouse's work. they know what they are doing. Our Team has future work plans with them. Also, thanks go to Aron White, who recommended Software Lighthouse. Job really well done. :D

- Tom Linus @lineofcode
