

HASAN IT

HASAN IT IS A TECH COMPANY. THE VISION OF HASAN IT IS TO MAKE SPORTS TECH READY. WE LAUNCHED OUR FIRST APP/PRODUCT KHELAHOBE. WE HAVE SOME MORE PRODUCTS IN PIPELINE

Your Sports Network

About Us

KhelaHobe is sports community app (register under HASAN IT) in the country to help citizen be a part of sports activity in everyday lives. The idea is to establish connection with residents across the city to make new teammates, organize games, connect with oppositions, share achievements and discover sporting venues/activities.

How & Why we started KhelaHobe

Bangladesh is a country that loves its sports. Cricket, Football, Kabaddi, Badminton- you name it
Be it watching it on TV in a tea stall or playing it across a remote location, we Bangladeshi's are equally passionate about it.

The idea of **HASAN IT** is to reignite the hunger of the 90's kids as well as this generations kids who would take their friends to play the desired sport with another team. Now that times have evolved and we are going digital, this challenge will require the friends a **smartphone** and **connect** with their opposition, select game mode, select playing arena- GAME ON!
