## Company Overview

# Our Introduction

About us

---

Headquartered in Dhaka, Bangladesh, **InResource International Limited** provides a fully managed on-demand data annotation service to train and validate your machine learning models.

With a team of annotation experts who understand the value of quality, accuracy, and timeliness of project deliveries, we focus on providing accurate datasets at the most competitive rate in the industry.

# Our Introduction

Why choose us?

1

## **Accuracy**

We maintain the best in class accuracy through continuous training and a rigorous review process

2

## **Competitive Pricing**

We pledge to provide the most competitive pricing in the industry

3

## **Secured**

We ensure data security through strict data sharing policies in the workplace

4

## **Fully Managed**

We provide a dedicated project manager who works with you throughout the project life cycle

5

## **Scalable**

Our team sizes can be scaled up or down as per your needs

6

## **Transparent**

We allow access to real-time project tracking so you can monitor the progress and quality

## Our Mission & Vision

We strive to improve the quality of life by sharing information with machines to help enterprises redefine their business. Our focus starts from Impact sourcing, then build powerful applications where human and machine work in harmony and achieve sustainable excellence.

Take a little step and win a mile

# Our Management Team

Our values guide how we make decisions, treat each other, and serve our clients.

# Industries We Work With

Extensive Experience Working in Various Industries Across the Board. The Future is in AI, and We Are in the Front Lines

Autonomous Vehicles

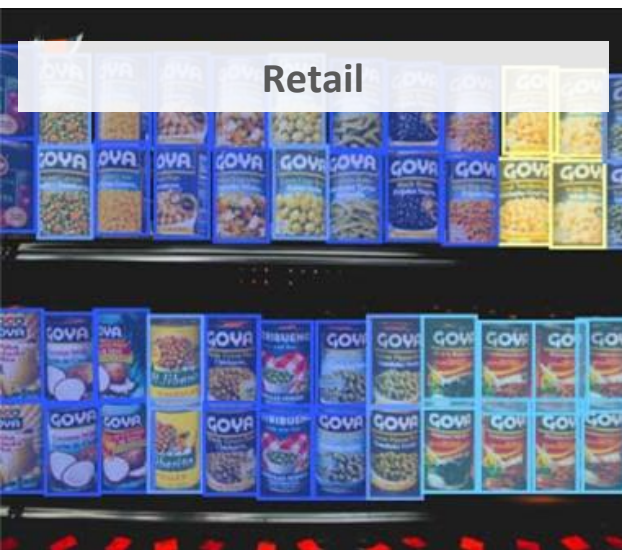

Geospatial

Construction

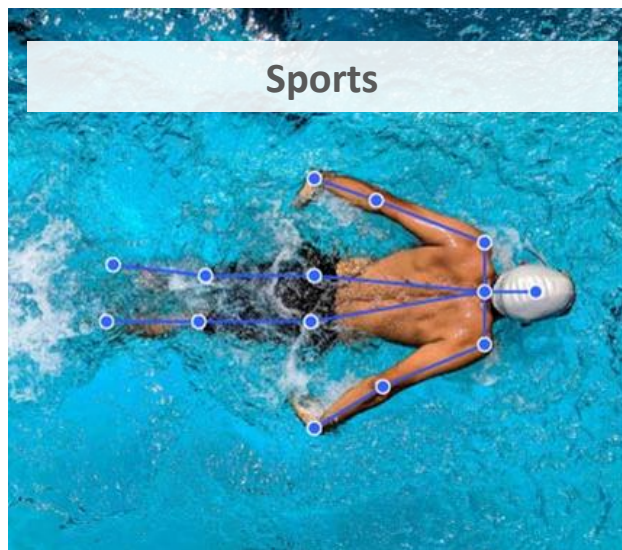

Retail

Agriculture

Sports

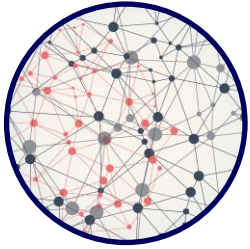

Security

# Solutions Overview

What can we do for you?

## Training data solution

Turnkey solution for CV models

## Managed Workforce

Trained workforce that can handle complex needs

## DevOps Support

Customized support to ensure your success

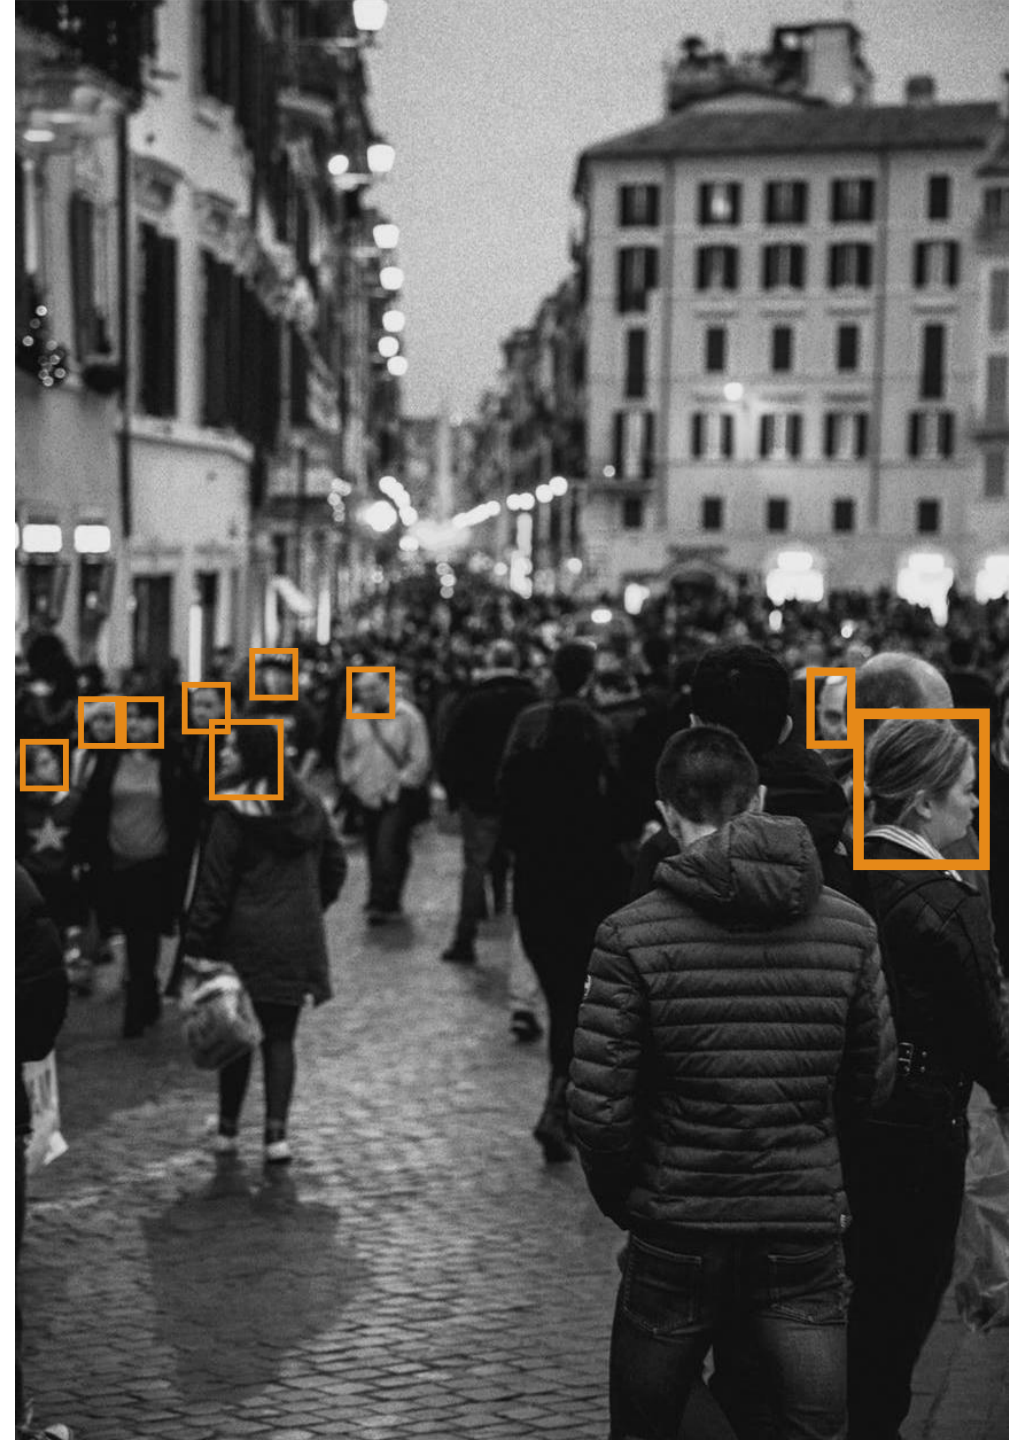

# Specializations

- **Image annotation**
  - Bounding Boxes (2D & 3D)
  - Polygonal Annotation
  - Semantic Segmentation
  - Keypoint Annotation
  - Line Annotation
  - Point Annotation
  - Text recognition/OCR
- **Video annotation**
  - Frame-by-frame Annotation
  - Multi object tracking
  - Auto-label Validation & Correction

# Specializations

- **Point Cloud Annotation**
- **Text Annotation**
  - Entity Recognition
  - Entity Relationship Recognition
  - Classification and Taxonomy Creation
  - Intent Recognition
  - Sentiment Analysis
  - Search Relevance
  - Document Transcription

# Specializations

- **Other Services**
  - Data Collection
  - Data Cleaning
  - Content Moderation
  - DevOps
  - Data Processing
  - And more!

# Specializations

- **Other Services**
