

Company Profile:

Sentinel Technologies Ltd. is a tech conglomerate, currently at the forefront of building innovative and effective solutions that address the most complex digital transformation and analytical needs of businesses through technology services, data, and consulting. Our core objective is to help business become more intelligent, efficient, and eventually sustainable. Our products and services are tailored for both manufacturing and service industry, positioned on a base constructed with automated and intelligent tech, business optimization, and data driven decision-making process.

We are also working on automating repetitive processes in software handling, which now requires human actions. This means in near future our applications will be run entirely by software bots. Through RPA (Robotic Process Automation) our software bots will use a combination of automation, computer vision, and machine learning to automate repetitive, high-volume tasks that are rule-based and trigger-driven.

Mission, Vision and Core Values:

Mission: Our mission is to leverage our portfolio of capabilities in tracking, management, optimization, controls, process-automation, artificial intelligence, finance, analytics, and emerging technologies to help businesses become sustainable and ready for the future. Hence, our tech architecture is laid on the foundation of intelligence, learning and continuous improvement so that our clients can find it easy to adopt to everchanging business and technological environment. Finally, we aspire to automate our entire system through RPA services and eventually establish HPA. This will help businesses free up employees for more meaningful work that will advance their organization's digital transformation efforts.

Vision: Using intelligent and adaptive technologies to make business smart, efficient and sustainable; facilitating industries thrive in an everchanging world

Core Values: Both our mission and vision stand firmly on our company core values. Our company is built on value as well as faith. Every singly member of team Sentinel keeps each of the following values very close to his/her heart. It is our values that will help us evolve and sustain.
