

TECH BLUE OCEAN

Delivering Performance, Unlocking Revenues

About Us

What We Do:

We deliver performance and unlock revenues.

We base our success on our customer's success and take great pride in playing a key part in the journey. In the process, we build value for the entire ecosystem.

Fast paced and agile environment is our natural setting. We excel in it and produce great results.

How We Do It:

- We have great people
- Journey starts with discovery where we utilize our wide range of expertise and rich global experience to deep dive into customer's needs, objectives & challenges
- Map out the phases, iterations, establish purpose fit technology stack
- Give the project a great start by laying strong foundation
- Power the project with the right skillset
- Establish continuous improvement program and roadmap

Collaborations:

We have strong collaborations with key players in various fields. It enables us to deliver tailored solution for our customers.

TECH PARTNER

TURN KEY SOLUTION

Client remains focused on the business/market opportunity and we, as Technology Partner plan the purpose fit technology roadmap and delivery plan all the way to the rollout phase and post production support and continuous improvement.

ENGAGEMENT MODEL

TECH PROVIDER

DELIVERY ASSURED

Client plans the roadmap and we, as Tech Provider, build the delivery team of top notch professionals equipped with the right skill set. The work is either project managed and tracked by the customer or by us.

FASTEST 500

CASE STUDY 1

BOIT powers Ascendant be the top 500 fastest growing company in Canada. Ranked 366th in the list below.

<https://www.theglobeandmail.com/business/rob-magazine/top-growing-companies/article-canadas-top-growing-companies-2021/>

BOIT powers Ascendant's (www.ascendant.world) technology and digital transformation journey through rapid product development and technology adoption. This helps AFX stay ahead of the competition and acquire new customers. BOIT also provides a stable environment for AFX to operate their business and prevent customer attrition.
