BITE HIVE SOLUTIONS LIMITED

Nature of Business & Brief History

1. Design and Development: We offer top-notch design and development services for computer software, computer technology, and information technology products. Our experienced team of designers and developers create tailor-made solutions to meet the unique requirements of our clients.	2. IT Enabled Services: We specialize in providing IT enabled services (ITES) in software and hardware development. Our services encompass system integration projects, cloud solutions, and consultancy services in information technology. We offer a wide range of infrastructural and industry-specific IT solutions, as well as comprehensive support for information system creation, optimization, and development.
3. Software and Hardware Services: Bite Hive Solutions Limited establishes, maintains, and manages computer software and hardware services. Our offerings include commercial, financial, statistical, accountancy, management, educational, and engineering services. We operate computer training and educational centers, technical support centers, business and information technology centers, and computer audit and quality assurance services. Additionally, we engage in research and development activities in the field of information technology.	4. Consultancy and Advisory: With our extensive knowledge and experience, we provide consultancy services for software and information technology projects. We assist clients in designing, installing, implementing, and operating projects, offering technical expertise and business transformation solutions. We also act as software development consultants both in Bangladesh and abroad, undertaking turnkey projects and providing comprehensive services.

BITE HIVE SOLUTIONS LIMITED

5. Marketing and Manufacturing: We engage in the marketing, manufacturing, assembling, installation, repair, buying, and selling of computer software, computer technology, and information technology products. Our expertise covers cloud hosted business platforms, computer application products, systems, peripherals, and related materials.	6. Trading and Indenting: Bite Hive Solutions Limited conducts trading and indenting activities, acting as principals or agents. We engage in import, export, buying, selling, and dealing with various products and services. Our business network extends both within Bangladesh and internationally, allowing us to provide efficient trade solutions.
7. Property Management: The company has the capability to acquire, buy, sell, transfer, or dispose of movable and immovable property. We manage and develop lands, buildings, and other assets, ensuring their optimal utilization. Additionally, we may provide guarantees for sister concerns, associate companies, or third parties to support their business activities.	

At Bite Hive Solutions Limited, we prioritize delivering innovative and cost-effective solutions to our clients. Our team of dedicated professionals is committed to understanding our clients' needs and providing them with the best possible technology solutions. We continually strive to stay ahead of the curve by keeping up with the latest industry trends and advancements. With a focus on quality, reliability, and customer satisfaction, we aim to forge long-term partnerships with our clients and contribute to their success.
