Mission statement

ITX limited fundamentally believed in the progress of economic development of Bangladesh. We are on a mission to prolonged the business and to take part in the Bangladeshi international business revolution by adding more revenues in our country's macro and micro economy. We are destined to create more employment opportunities for Bangladeshis and make them skilled and potential for micro economy growth.

We believe in “not giving up on youth”. Part of that motivation one of our major targets is to spread positive managerial and leadership knowledge. We have trust on our thinking of making more potential entrepreneur in coming days who will lead the employment program for our nation.
