

Omnixima was founded in January 2022. We believe our products and services can make life easier for our customers along with our promise of easy to access support.

Who We Are

Omnixima currently focuses on Web Application Development based on WordPress, soon to be exploring more areas of the web and technologies. We build products to make the web easier for our customers along with services and support for our customers.

Our services are web application development, web design, brand development, social media marketing etc. We are also developing software/modules for SME and web applications platform like WordPress and Shopify.

We believe we can provide services that will solve problems and initiate growth for our customers. Our team consists smart & creative talents to make sure that we can be best what we do.

Our Mission

To develop our company constantly while enhancing the growth of our customers with up-to-date technology. Delivering best solutions that create value and competitive advantage for our customers around the world.

Our Vision

To be one of the leading technology company by providing quality services and product solutions in the industry.

Our Team

Omnixima is led by Al-Mamun Talukder, Founder and CEO of the company. While having a team of experts to provide top quality services and products, we are still looking for creative individuals to join our team. We are currently a team of 10 people both working in office and remote.
