

Company Name: DG Scan

Founded: 2024

Headquarters: Flat 1B, House 208, Road 1, Block K, Basundhara R/A, Dhaka, BD.

Company Overview:

DG Scan is a forward-thinking tech startup specializing in product authentication and e-warranty solutions, empowering brands to protect their reputation and helping consumers buy with confidence. Our technology combines QR code and holograms label to verify product authenticity, prevent counterfeiting, and manage warranties seamlessly. Our solutions reduce the risk of counterfeit goods, simplify the warranty process, and ultimately create a trusted, transparent purchasing experience for both businesses and customers.

Core Services:

1. **Product Authentication:** DG Scan's advanced QR and hologram label technology allows consumers to instantly verify the authenticity of products, right from their smartphones. With our platform, businesses can protect their products against counterfeiting while building brand trust.
2. **E-Warranty Services:** Our digital warranty management system enables brands to offer customers a hassle-free, paperless experience. Customers can register products and manage warranties with ease, and businesses gain valuable insights through the entire product lifecycle. This technology helps reduce support costs, enhances customer satisfaction, and builds loyalty.

Industry Focus:

DG Scan serves industries where authenticity and warranty reliability are critical, including:

- Electronics
- Fashion & Luxury Goods
- Pharmaceuticals
- Automotive Parts
- Consumer Goods

Mission:

To build a safer and more transparent global marketplace by empowering brands and consumers with secure, reliable product authentication and simplified warranty solutions.

Vision:

To be the leader in product authenticity and digital warranty solutions, helping brands worldwide eliminate counterfeits, streamline support, and enhance customer trust.
