Choosing JA Station means choosing a partner that is vested in your success, armed with expertise, innovation, and a dedication to turning your business dreams into reality.

SOLUTIONS, SCOPE OF WORK AND DELIVERABLES

The primary purpose of this project at **JA Station** is to develop a software or website using the latest technologies and trends designed to portray aims and objectives. The process includes building a visual representation and integration with the technologies.

For this project, **JA Station's** work process will follow with several steps for delivering the web solution.

These steps are:

- Getting Requirements
- Strategic Planning
- Database design
- Web application design as well as graphic design works
- Front end programming
- Quality assurance that is, testing, bug fixing etc.
- Implementation

Responsive Application

Responsive web application (RWA) is an approach to web design aimed at crafting sites to provide an optimal viewing and interaction experience—easy reading and navigation with a minimum of resizing, panning, and scrolling—across a wide range of devices (from desktop computer monitors to mobile phones)

Security System

JA Station integrates the security system on client's web application. We are dedicated to get client satisfaction through spamming free web application. It protects the application or solution from hacking.

Requirements for the development of the Website and Software:

The overall configuration to run the proposed web application is given below:

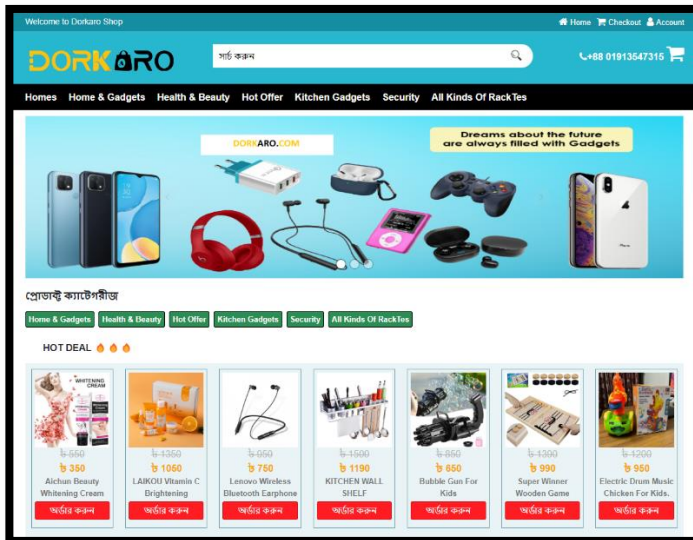

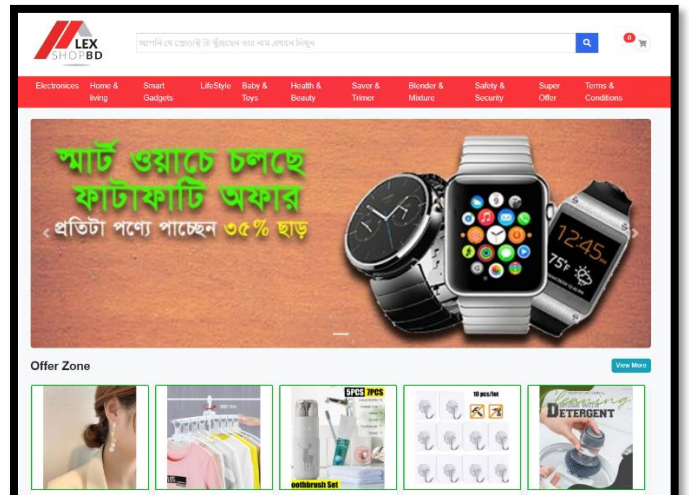

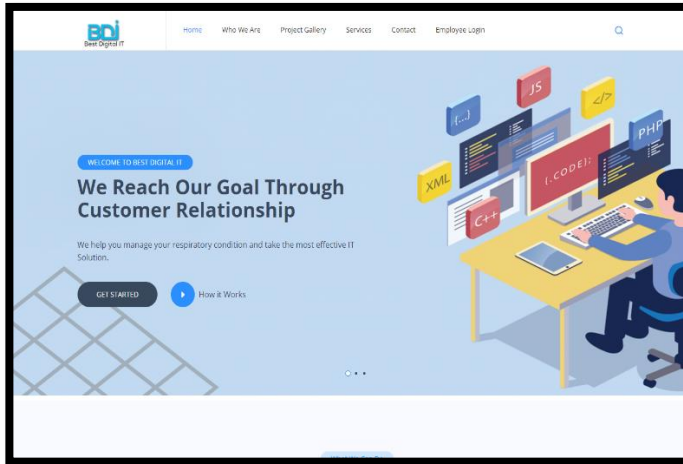

Serial No	Preparations	Minimum Requirements
01	Project Server, Content Server or Hosting	Windows/Linux Server
02	Domain	Domain (if required)
03	Database	MySQL
04	Client PC	Browser supported computer, tab, smart phone etc.

Software Development Charges:

The following cost summary has been developed as an estimate of the costs associated with the proposed solution. These costs are an estimate only. Based on acceptance of this proposal, our team will work with you to develop a detailed list of requirements, develop your tailored solution, and provide a more focused and applicable cost estimate

SL	Name	Online	Offline
01	School Management System	25000 Tk	18000 Tk
02	Hospital Management System	35000 Tk	25000 Tk
03	Office Management System	23000 Tk	17000 Tk
04	Stock Management System	19000 Tk	15000 Tk
05	Super Shop Management System	30000 Tk	22000 Tk

Valuable Clients:

Maintenance:

Based on the details of the system specifications, we recommend a maintenance plan based on every two months retainer that will include all necessary maintenance/update needs of the web application. We can scope out the maintenance budget upon completion of the project or prior to getting started with the development.

24/7 Customer Support

Every solution we develop is customized to the specifications of each individual client. We work closely with our clients to build their software or web application just as they envision it and provide solutions to assure that they are getting the most out of their application. Never the less, JA Station will provide additional two months free services for any updates after the delivery.
