The waresun provides a one-stop automated solution for your trade and industry. Depending on the size and field of your organization, we have different products and services to meet your requirements. We provide the optimum and customized solutions made for your organization.

The waresun company has been formed by a group of professionals having vivid experience and wide exposure to Information Technology. People involved here are young qualified business graduates and qualified engineers from renowned universities across the globe. The resource personnel working in the company have been consistently providing reliable support services and consultancy to a wide variety of corporate houses either in the capacity of executive or as business partners or consultants. The bottom line of the company philosophy is building a long-term business partnership with its clients where interpersonal relationships, reliability, assured quality, and target-oriented modern technology are the major building blocks. It is a company where professionals from both technical and functional field group together with the objective of providing appropriate business solutions. It realizes the importance of functional knowledge and its impact in developing business solutions. We constantly strive to be a leading technology firm with profound business and functional knowledge. The key to the company's success is the maintenance of a close working relationship with the clients through ensuring the best possible solutions to their needs; establishing and maintaining a thorough knowledge and understanding of client's objectives and helping them maximize the benefits. We want to establish ourselves as the best choice in Computing and Information Technology Services, Consultancy, and Development by offering the full spectrum of services.

Our mission & vision:

Our Mission is to achieve the reputation of a quality, high-standard & reliable solution & service Provider Company in the ICT industry. Our Vision is to achieve 100% customer satisfaction by delivering quality products and services at an affordable cost. Our forward vision is to strive to become an entity in technology-based corporate solutions, capable of demanding unconditional response from the targeted niche. We also believe that for our scope of improvisation – the sky is the limit and we are always ready to take our achievements to the next level. We are growing and would always like to remain on the growing streak.

1. Providing free training in various IT related among the poor.
2. Creating employment through skill training.
3. Creating skilled freelancers through ICT training who will contribute to the economy of the family, society, and country.
4. Our keys to development.
5. Desire for Excellence.
6. Trust and confidence build up.
7. Innovation.
8. Transparency.
9. Teamwork.

We believe in:

1. Motivation.
2. Collective responsibility and leadership.
3. Professionalism and ethics.
4. Adding value to our client needs.
5. Application support.
6. Application integration migration transformation.
7. Application management.

System analysis & design:

The system analysis and design team combine both functional and technical analysts. We believe to develop a proper system in which functional analysis is equally important as technical analysis. Our system analysis and design team specialize in software like Microsoft Visio, Rational Rose, and Microsoft Visual Modeler.

Source code repository and administration:

For source code version control and multiple programmer interaction management, we use Visual Source Safe as our source. We have database expertise ranging from SQL, MySQL, or flat database systems like Microsoft Access, and Visual FoxPro to robust commercial database engines like Oracle and Microsoft.

Our program and products:

1. Data Manage.
2. Programming & Tech.
3. Freelance Services.
4. Video & Animation.
5. Writing & Translation.
