Overview

The Design Park is a photo editing company that was established in 2014 as a subsidiary of The Design Park, a reputable design agency. With an office located at House-18, Avenue-01, Block-C, Mirpur-02, Dhaka-1216, Bangladesh. The Design Park has a team of **24 skilled designers** who provide high-quality photo editing services to clients all over the world.

The Design Park specializes in providing all types of photo editing services, including image retouching, background removal, color correction, ecommerce photo editing, ghost mannequin, image resizing, image masking, image manipulation, and more. Their team works closely with clients to ensure that their needs are met and that their images look their best.

The company has served over 350 clients worldwide and has established a reputation for delivering high-quality work within tight deadlines. The team at The Design Park understands the importance of timely and efficient service and works diligently to meet their clients' expectations.

The Design Park has an impressive image processing capacity of **2000-3000** images per day. This high level of capacity is made possible by the company's advanced technology and skilled team of designers who are trained to work efficiently and quickly without sacrificing quality.

This high processing capacity enables The Design Park to handle large volumes of work and deliver projects within tight deadlines. Whether it's a small project or a large-scale assignment, The Design Park has the resources and expertise to meet their clients' needs.

With a focus on delivering high-quality work and excellent customer service, The Design Park has built a reputation as a reliable and efficient photo editing company. Clients can be confident that their projects will be completed on time and to their satisfaction with The Design Park's impressive image processing capacity.

The Design Park takes great pride in providing exceptional customer support to their clients. To ensure that their clients receive the support they need, the company **operates in three shifts, offering 24/7 support.**

This means that clients can reach out to The Design Park at any time of the day or night and receive prompt assistance with their photo editing needs. The company's dedicated support team is always available to answer questions, provide updates on ongoing projects, and address any concerns that clients may have.

This commitment to round-the-clock support is a testament to The Design Park's focus on delivering excellent customer service. By offering 24/7 support, the company demonstrates their dedication to meeting the needs of their clients and ensuring their satisfaction.

The three owners of The Design Park, Sultan Rajia, Zahangir Alam, and Tanjila Akter are highly experienced professionals who bring a wealth of knowledge and expertise to the company.

Sultana Rajia, one of the owners of The Design Park, has over 10 years of experience in the design industry and specializes in photo editing and retouching. He is passionate about helping clients transform their images and has a keen eye for detail.

Zahangir Alam, another owner of The Design Park, is a skilled designer with expertise in photo editing, retouching, and restoration. With over 8 years of experience in the industry, he has worked on a wide range of projects for clients all over the world.

Tanjila Akter, the third owner of The Design Park, is a seasoned entrepreneur with over 8 years of experience in the business world. He has a strong track record of building successful companies and is committed to growing The Design Park into a leading provider of photo editing services.

Together, these three owners bring a diverse set of skills and experience to The Design Park, enabling the company to offer a wide range of high-quality photo editing services to clients worldwide. Their leadership, expertise, and commitment to excellence are key factors in the company's success and growth.

Overall, The Design Park is a reliable and professional photo editing company that offers a wide range of services to clients worldwide. With its experienced team, commitment to quality, and dedication to meeting client needs, The Design Park is an excellent choice for anyone looking for high-quality photo editing services.

The services we provide

Photo editing services are professional services that involve enhancing and modifying digital images to achieve desired results. These services are typically offered by skilled photo editors or specialized companies. Here are some common types of photo editing services:

- 1. Color Correction:** Adjusting the colors, tones, and contrasts of an image to improve its overall appearance or achieve a specific mood.
- 2. Retouching:** Removing blemishes, wrinkles, or other imperfections from a photo to create a more polished and flawless look.
- 3. Background Removal:** Isolating the main subject in an image by removing the background or replacing it with a different background.
- 4. Image Manipulation:** Combining multiple images, adding or removing objects, or altering the composition of a photo to create unique and visually appealing results.
- 5. Portrait Enhancement:** Enhancing facial features, smoothing skin tones, adjusting lighting, and improving overall quality in portrait photographs.
- 6. Photo Restoration:** Repairing old or damaged photographs by removing scratches, stains, or tears and restoring them to their original condition.
- 7. Product Photo Editing:** Optimizing product images for e-commerce platforms by adjusting colors, removing distractions, or enhancing details to attract customers.
- 8. Photo Resizing and Cropping:** Adjusting the dimensions and proportions of an image or cropping it to remove unwanted elements or create a specific composition.
- 9. Special Effects:** Adding creative effects, filters, or artistic elements to an image to give it a unique and artistic appearance.
- 10. Batch Editing:** Processing a large number of images simultaneously, applying similar edits or adjustments to maintain consistency across a photo collection.

These services can be useful for professional photographers, businesses, e-commerce platforms, graphic designers, or anyone looking to enhance the quality or visual appeal of their images. Many photo editing service providers offer online platforms or software applications where users can upload their images, specify their requirements, and receive the edited versions digitally.

A description of The Design Park image editing process, including any proprietary technology or software used:

The Design Park has a comprehensive image editing process that ensures high-quality results for their clients. The company uses a range of proprietary technology and software to streamline their workflow and optimize the editing process.

The primary software used by The Design Park for image editing is Adobe Photoshop **CC 2023, CS6, CS5, and CS3**. These versions of Photoshop offer a range of advanced features and tools that enable the company's designers to perform a wide variety of editing tasks, from basic adjustments to complex retouching and compositing.

In addition to Photoshop, The Design Park also uses **Adobe Bridge, Illustrator and Lightroom** to manage their workflow and streamline their editing process. These software applications provide a range of organizational and management tools that enable the company's designers to work efficiently and effectively, even when dealing with large volumes of images.

The company's editing process typically involves a series of steps, starting with an initial review and assessment of the client's images. The designers then work to make basic adjustments, such as color and exposure corrections, before moving on to more complex retouching and compositing tasks.

Throughout the editing process, The Design Park's designers work closely with clients to ensure that their specific needs and requirements are met. The company's proprietary software and advanced editing techniques enable them to deliver high-quality results quickly and efficiently, while maintaining a focus on quality and attention to detail.

Specification for the input we require from you to produce the desired outcome, item image, resolution, size, and color contrast, or any other relevant specifications needed for optimal results.

To produce the desired outcome for your images, The Design Park will require specific input from you. This input will vary depending on the nature of the project, but some of the key inputs we may require include:

Image files: We will need access to the images that you would like us to edit. These can be provided to us in a variety of formats, such as JPEG, PNG, or TIFF.

Resolution: We will need to know the desired resolution of the final edited images. This is typically measured in pixels per inch (PPI) and can vary depending on the intended use of the images.

Size: We will need to know the desired size of the final edited images. This can be specified in a number of ways, such as in pixels, inches, or centimeters.

Color contrast: We may require information on the desired color contrast for the edited images. This can be particularly important for projects where color accuracy is critical, such as product photography.

Any other relevant specifications: Depending on the specific project, there may be other relevant specifications that we require from you. This could include things like file format, background removal, or specific retouching requirements.

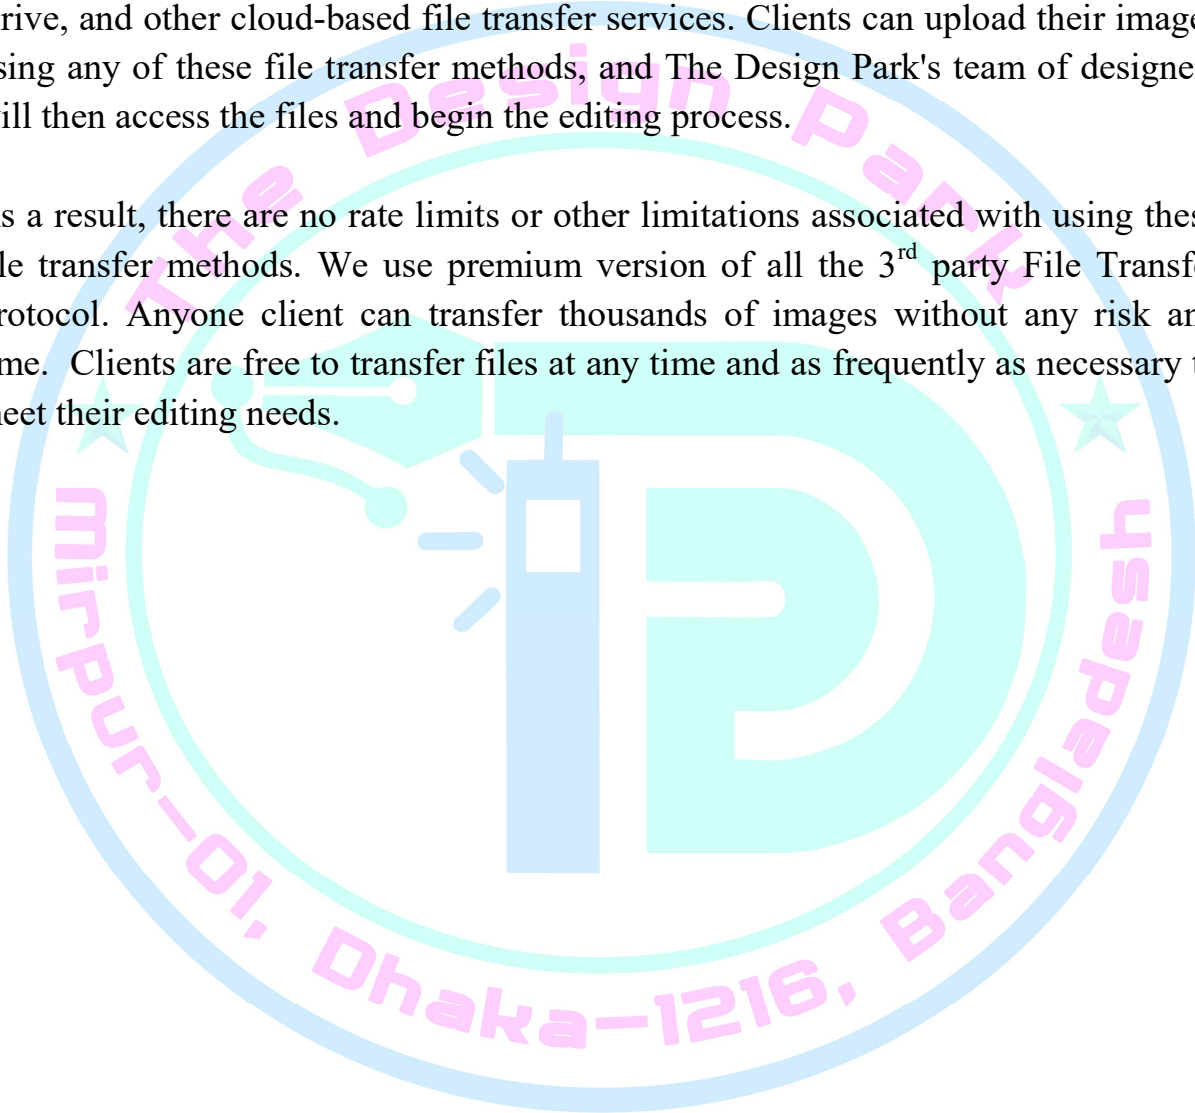

By providing us with these inputs, we can ensure that we deliver the desired outcome for your images with optimal results. Our team of expert designers will work closely with you to ensure that all specifications are met and that the final edited images meet your expectations.

File transfer

The Design Park offers a range of file transfer options to facilitate the transfer of images from clients to the company's servers.

These file transfer options include FTP (File Transfer Protocol), Dropbox, Google Drive, and other cloud-based file transfer services. Clients can upload their images using any of these file transfer methods, and The Design Park's team of designers will then access the files and begin the editing process.

As a result, there are no rate limits or other limitations associated with using these file transfer methods. We use premium version of all the 3rd party File Transfer Protocol. Anyone client can transfer thousands of images without any risk any time. Clients are free to transfer files at any time and as frequently as necessary to meet their editing needs.

Pricing structure

The Design Park offers a competitive pricing structure for its photo editing services. Our pricing is based on the complexity of the editing work required, the number of images to be edited, and the desired turnaround time.

For basic photo editing services such as Background Remove and clipping path, our pricing starts at \$0.40 per image. For more complex editing work such as Retouching, or advanced retouching, photo restoration, Ghost Mannequin, Color correction etc, our pricing may vary depending on the scope of work.

We also offer volume discounts and tiered pricing options for clients with large editing projects. Clients who have more than 1000 images to be edited can enjoy discounted prices, and we offer special rates for ongoing projects.

Our pricing structure is transparent and straightforward, with no hidden fees or charges. We are committed to providing our clients with high-quality editing services at competitive prices, ensuring that they receive the best possible value for their investment.

If you have a specific editing project and would like to receive a quote, please contact us with the details of your project, and we will provide you with a customized quote based on your specific needs.

Estimated turnaround time

The estimated turnaround time for processing will depend on the complexity of the editing work required and the desired level of quality. However, The Design Park typically offers fast turnaround times to meet the needs of our clients. we can typically complete the work within 24-48 hours. For more complex editing work such as background removal for complex images, photo restoration, or advanced retouching, the turnaround time may be longer, typically ranging from 2-3 business days.

To ensure timely delivery of edited images, we communicate closely with our clients throughout the editing process, providing regular updates on the progress of the project and any issues or concerns that may arise. Our goal is to provide our clients with high-quality editing services while meeting their deadlines and exceeding their expectations.

Customer support and communication:

At The Design Park, we are committed to providing excellent customer support and communication channels for our clients. We understand the importance of clear and prompt communication to ensure the success of our clients' projects.

Our customer support team is available 24/7 and can be reached through multiple communication channels, including email, WhatsApp, Skype, Zoom meeting, and live chat on our website.

In addition to our customer support team, we assign a dedicated project manager to each project to ensure clear and effective communication throughout the editing process. The project manager is responsible for communicating with the client, providing updates on the progress of the project, and addressing any issues or concerns that may arise.

At The Design Park, we are committed to building strong relationships with our clients by providing exceptional customer support and communication channels. We strive to exceed our clients' expectations and deliver high-quality editing services that meet their specific needs and requirements.

How we provide information:

At The Design Park, we have a robust quality control process in place to ensure the accuracy and quality of the edited images before delivering them to the client. Our quality control process involves multiple levels of checks and reviews to ensure that the edited images meet our clients' specific needs and requirements.

Once our team of designers completes the editing work, the images are then reviewed by our quality control team. The quality control team checks the edited images for any errors or discrepancies and makes sure that the images meet the client's requirements.

After the quality control team has reviewed the edited images, they are then sent to the project manager for a final review. The project manager is responsible for reviewing the images to ensure that they meet the client's requirements and that there are no errors or discrepancies.

Once the project manager approves the edited images, they are then delivered to the client for review. The client has the opportunity to review the edited images and provide feedback if necessary. If the client is not satisfied with the quality of the edited images, we offer a revision process to make any necessary changes until the client is fully satisfied with the results.

During the revision process, our team of designers will make any necessary changes based on the client's feedback. Once the revisions are completed, the images are then sent back to the quality control team for a final review. If the quality control team approves the edited images, they are then sent to the project manager for final approval and delivered to the client.

Our image approval process includes multiple internal review mechanisms and opportunities for client feedback and revisions to ensure that the edited images meet the client's specific needs and requirements. We are committed to delivering high-quality editing services that exceed our clients' expectations.

Clarification our company's policy regarding intellectual property rights for the edited images:

At The Design Park, **we value and respect our clients' intellectual property rights.** We understand that the edited images we produce are the property of our clients, and you retain full ownership and control over the images and their use, including any alterations or modifications made by our services.

As such, our company policy is to maintain the confidentiality of all client information and images. We do not share, distribute, or use any client images for any purpose other than the specific editing services requested by the client.

Furthermore, we do not claim any ownership or intellectual property rights over the edited images produced by our services. You retain full ownership and control over the images, and we do not use them for any other purpose without the client's express permission.

In summary, our company policy is to respect and protect our clients' intellectual property rights. We maintain the confidentiality of all client information and images and do not claim any ownership or intellectual property rights over the edited images produced by our services.

Conclusion:

The Design Park is a professional photo editing service that offers a wide range of image editing services to individuals, businesses, and organizations worldwide.

The company has a strict quality control process to ensure that all edited images meet the highest standards. They also offer revision and feedback opportunities to clients to ensure that the final product meets their expectations.

The company values the privacy of their clients and has a strict privacy policy in place. Overall, The Design Park is a reliable and professional photo editing service that offers high-quality services and excellent customer support.
