Linking up the present with the future, Link-Up Technology is paving a path towards excellence by projecting a new image of innovative, efficient, flexible and sustainable development in the software industry. We take pride in having a proficient and dedicated team of professionals, who are capable of delivering quality services by working within a time frame. Link-Up Technology is committed to assist its esteemed clients by providing their desired services 24/7.

Link-Up Technology delivers state of the art Software Automation Solutions & Support that help businesses flourish, increase profits and operate in a more efficient and sustainable fashion. The predominant strength of our company is accomplished software engineers, who are professional individuals and are very much efficient at what they do. Throughout our short history, over 3000 companies have chosen Link-Up Technology to transform their Software Automation, Websites & other IT related sector within their established organizations. We cater not only for the domestic clients but also for the foreign multinational companies. We offer the following services:

Our Technical Specialization:

Link-Up Technology is devoted to make businesses thrive by providing cost productive and tailored services that suits their business style today and tomorrow. Our unique heritage, years of combined experience, financial infrastructure and agile team ensure to deliver software & website services to wholesale distributors, third-party logistics companies, retail businesses, tourism industry, cargo and freight forwarding companies, hospitality industry and media moguls. In this fast paced age, businesses depend on digitalization and automation alike. To make your business known to your targeted clients, you will need to make it look more appealing and easily accessible.

Therefore, to introduce your business to the world at large you have to choose the right medium to get your desired attention. In the age of digitization, the only and the most effective way to attract people is through the World Wide Web. This is where we step in to assist you by designing and developing the most optimized, commercial or personal websites. Apart from that, **Link-Up Technology** also serves aspiring programmers by offering them different kinds of Programming Training. We are determined to serve you in every possible way we can, so that you can keep up with the contemporary IT generation. The motto of our business is to give people a taste and benefit of the advancement of technology. Since the very inception of **Link-Up Technology**, our whole team has been working hard to achieve the goal of “**Digital Bangladesh**”. From the beginning, our sole motive has been to comply with the needs of our respected clients. We serve our clients with utmost sincerity and due respect and are always ready to fulfil all their demands. By joining our long list of valued customer, you can expect nothing less than the optimum quality of services. And on our part, we would feel privileged if we can serve your organization
