C. Company Organogram

D. Experience

E. Available Services

F. Contact Information

Because every client's project poses its own set of unique challenges, it is impossible to compose one document that completely addresses everyone's specific needs. What we have attempted to do in the following pages is simply providing a glimpse into some of our capabilities. RESDA Software is a fully customized services firm. As such, it's our business to quickly adapt to meet our clients' diverse needs... and we have a proven track record of doing just that. We are always interested in exploring new projects, so if you're interested in discussing your particular development challenges with us, please contact us at: info@RESDA.com.

We're confident that our staff of experienced professionals can be a valuable addition to your team.

Sincerely,

Dr. Ishtiak Al Mamoon,
Chief Operating Officer

RESDA

CORPORATE OVERVIEW

Who We Are... RESDA is a customized software service firm located in Dhaka, Bangladesh. We have extensive experience in many diverse areas of software development. Our experienced staff of professionals has worked with a wide array of platforms, languages, and tools in the course of our various projects.

What We do... Quite simply: we write code. However, unlike most software companies, we realize that's only part of the job. We don't just write code... We develop professional software. This is why our clients choose RESDA. Many companies can find programmers to generate code. However, few have the experience to produce professional quality software programmers.

Our ability to develop code is only the beginning of our capabilities. Being a customization based firm, RESDA is able to provide our clients a variety of services. **A few of the services available from RESDA include:**

- **System Architecture and Design**
- **Software Development**
- **Project Management**
- **Testing and Quality Assurance**
- **Technical Documentation and Training Services**
- **Placement and Recruiting Services**

RESDA's services are available on both a fixed and variable cost basis.

Partnerships...Our goal at RESDA is to become our client's first choice for software services. To accomplish this, we strive to exceed our client's expectations. RESDA clients cannot simply be satisfied with the job we do... they must be impressed. In this manner, RESDA strives to build lasting partnerships and to ensure client satisfaction. It is upon this foundation that our clients are confident in returning for future development needs.

Experience... Providing quality software services begins with experience and ends with dedication. RESDA's professionals have years of experience in designing, development, and testing of countless software projects. It is this experience, along with our dedication to providing clients the best quality service possible, which sets RESDA apart from other firms.

Track Record... RESDA has a proven track record of providing high quality, customized software and project management services. Our experience is broad and spans the complete software development cycle.

COMPANY ORGANOGRAM

EXPERIENCE

Dynamic...As a custom software development firm, RESDA has amassed an impressive resume of projects. It's the custom nature of our development projects that has enabled RESDA to acquire vast experience in many diverse areas of software development. Our experience, in conjunction with our quality personnel, enables RESDA to be dynamic enough to tackle almost any software development project.

RESDA has a proud history of utilizing experience to provide their clients with the best services possible. This difficult task is accomplished by applying experienced personnel to every project. RESDA was founded on the principle of gathering an elite group of software engineers and professionals, and leveraging their collective abilities. Naturally, each of these "producers" bring their own particular specialization and experience to the table. Once they join the RESDA team, we cross-train our consultants to diversify and increase their overall skills. The result for our clients, is a group of individuals that can genuinely contribute and have a positive impact on development projects. The works which are basically conducted by RESDA are

- System Analysis & Design, Development and Testing
- Java Application Development
- Java, Spring MVC Web Project
- Mobile, Desktop and Web Applications
- Static and Dynamic Website Development (Internet/Intranet)
- ERP, Point-of-Sale and Inventory Management System Applications
- System Architecture and Implementation
- Object-Oriented Design and Analysis
- Requirement & Business Analysis

No matter what your development challenge is! , RESDA consultants are a valuable resource to handle it.
