OUR PROJECT

01 Navidium Shipping Protection

Navidium Shipping Protection: Navidium is a self-service platform designed to give you the tools to create a self-funded shipping protection plan and manage incoming claims from your customers. (We are not an insurance company, and do NOT underwrite plans.) You keep 100% of what is collected, and route shipping protection premiums to yourself instead of having a shipping insurance provider in the middle. What is left becomes profit. Upsell digital products, order protection, upsell cart checkout including subscriptions.

- Offset the cost of lost & damaged shipments with digital products cart upsell.
- Keep all the shipping protection fees, and add margin when claims are low.
- Includes reporting, control on pricing, claims portal, 1 click refunds/reorders.
- Route insurance protection fees back to you & increase your conversion rate.

02 Dynamic

Dynamic Personalized Upsells: Unlock the power of personalization with a fully customizable natively built slide out cart and enable dozens of widgets to increase conversions, increase sales, and provide an enhanced customer experience. Collect birthdays, add upsells, trusted badges, express payment methods, bundles, subscriptions, and so much more. Segment your user base to show different widgets to specific audiences in real time. Let customers rebuy products with this smarter cart.

04 Maxify - Pre Order

Maxify - Pre Order: Keep your customer service free of "where's my order?" when inventory is gone but you still want to continue selling while new inventory arrives.

- Conditionally decide what items are available for pre order or backorder.
- Never worry about going out-of-stock or having to send back-in-stock orders.
- Increase sales and conversion rate when inventory is low, so you can boost sales

05 Maxify Product & Cart Options

Maxify Product & Cart Options: Empower your customers to choose product options effortlessly using dropdown menus, color and variant image swatches, and radio buttons.

- Limitless options in your products page
- Create additional dropdown for your product
- Easy color swatches
