1. INTRODUCTION

Founded in 2014, with capabilities to service Clients across the world, is a rapidly growing Website Design, Development and custom software development company.

We deliver Custom Application Development solutions within the context of your business objectives and strategies.

We specialize in everything 'digital' – from Website designing, Custom Software and Web Application Development to 3D Design, 3D Modeling, 3D Video, SEO, e-commerce sites and many more.

Our highly experienced IT professionals produce an impressive, high performance application that will fulfill your every requirement.

2. AGILE-BYTES: YOUR AUTOMATION PARTNER

The company has been formed by a group of professionals having vivid experience and wide exposure in Information Technology. People involved here are young qualified business graduates and qualified engineers from the renowned universities across the country.

The resource personnel working in the company have been consistently providing reliable support services and consultancy to a wide variety of corporate houses either in the capacity of executive or as business partner or consultant. Bottom line of the company philosophy is building a long-term business partnership with its clients where interpersonal relationship, reliability, assured quality and target oriented modern technology are the major building blocks.

It is a company where professionals from both technical and functional field group together with an objective of providing appropriate business solutions. It realizes the importance of functional knowledge and its impact in developing business solutions. We constantly strive to be a leading technology firm with profound business and functional knowledge. The key to the company's success is the maintenance of a close working relationship with the clients through ensuring the best possible solutions to their needs; to establish and maintain a thorough knowledge and understanding of client's objective and help them maximize the benefits.

We want to establish ourselves as the best choice in Computing and Information Technology Services, Consultancy and Development by offering the full spectrum of services.

3. OUR MISSION & VISION

Our Mission is to achieve the reputation of a quality, high standard & reliable solution & service Provider Company in the ICT industry.

Our Vision is to achieve 100% customer satisfaction by delivering quality products and services at an affordable cost. Our forward vision is to strive to become an entity in technology based corporate solutions, capable of demanding unconditional response from the targeted niche. We also believe that for our scope of improvisation – sky is the limit and we are always ready to take our achievements to the next level. We are growing and would always like to remain on the growing streak.

Our keys for development:

- Desire for Excellence
- Trust and confidence build-up
- Innovation
- Transparency
- Teamwork

We believe in

- Motivation
- Collective responsibility and leadership
- Professionalism and ethics
- Adding values to our client needs

- Utility Services Integration, ex: RJSC, NESCO, DESCO, TITAS, DHAKA WASA, CTG WASA, RBEB, WZPDCL etc.

CUSTOM SOFTWARE & WEB APPLICATION DEVELOPMENT

Whether you are a start-up or an established business, we are ready to assist you at every stage of the software development life cycle — from conceptualization and consulting to development and support.

- **APPLICATION DEVELOPMENT** – Providing end-to-end development from requirement analysis to deployment and integration.
- **APPLICATION SUPPORT** – Providing first, second, third line support and on-call support. On-call support further includes Gold (24x7), Silver and Bronze support.

- **APPLICATION INTEGRATION/MIGRATION/TRANSFORMATION** – Replacing, migrating and integrating legacy or bespoke systems with COTS products.
- **APPLICATION MANAGEMENT** – The application management layer cuts across all software engineering activities listed above. Agile-Bytes takes complete ownership of the outsourced suite of applications as per the agreed scope and manages the support. This typically involves transition management, project management, proactive risk and scope change management, quality management, SLA management etc.

■ **MOBILE APPLICATION DEVELOPMENT** iOS, Android & Cross Platform

Develop powerful, highly usable mobile apps that solve business problems, attract users, and reinforce your brand. We build native, hybrid, and cross-platform apps that run on all major operating systems such as iOS and Android. We identify what exactly your requirements are and customize the Mobile Applications according to your needs and your company's expectations.

■ **WEBSITE DESIGN & DEVELOPMENT** Company Portfolio to e-commerce

We craft website for your audience with latest technology. You have a business and that is the reason you are creating a website? Don't do for that. A website is powerful than you could ever imagine. A good user experienced website can improve your online sell & conversion.

Our developers have a wealth of experience in building web applications. We are also experts in many verticals and business domains, including e-Commerce, Education, Real-Estate, Finance and more.

■ **SEARCH ENGINE OPTIMIZATION**

There has never been a more a crucial time for a business to maximize its online presence in the savviest, most effective way possible. There are so many companies with great products and services, but if your company is buried in search results to the point that consumers can't find you online, you essentially don't exist. Agile-Bytes is here to solve that problem through Search Engine Optimization.

■ **NETWORK & INFRASTRUCTURE SERVICES**

Growth in the Solution Integration (SI) services market is fueled by the need for seamless business processes across an organization's complete value chain of customers, partners, suppliers, and employees. Agile-Bytes's services enable clients to identify, develop, and implement the best-fit solutions which are equipped to meet their changing business requirements.

Agile-Bytes's Solution Integration services offer to:

- Leverage IT investments
- Minimize risks
- Maximize compatibility
- Maximize interoperability

Agile-Bytes provides total project management, right from architectural design, integration, system and interface development to migration backed by world-class methodologies, well-defined solution frameworks and extensive integration experience with tier-1 service providers.

ARCHITECTURAL SERVICES

We design and develop 3D models, 3D videos, Pre-Design/ Planning, Construction Documents and others. we are a combination of artists and tacticians, imagining, coordinating and creating some of the world's most iconic places.
