ABOUT US

At Hasan Khan IT LTD, we're more than a software firm. We're your committed technology partner, passionate about client satisfaction, and redefining possibilities in the digital landscape.

We assist companies in improving their efficiency through the use of specialized software, which includes manpower and heavy lifting.

GOALS AND OBJECTIVES

Market Leadership

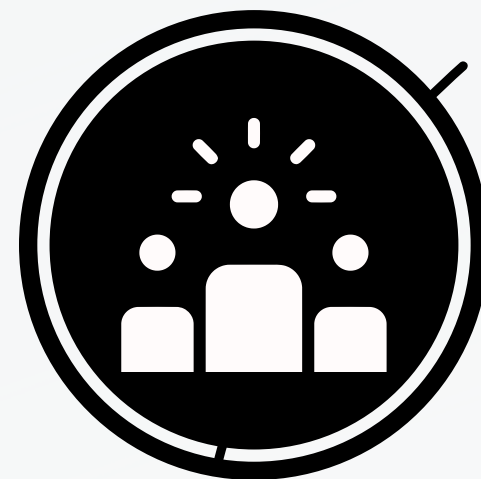

In two years, the objective is to increase market share by 20% in order to take the lead in the local and regional market for web development, software development, mobile application development, and graphic design services.

Innovation

By keeping up with developing technologies, investing in staff training, and producing at least two creative solutions a year, the firm hopes to be known as a creative and technologically advanced organization.

Client Satisfaction

By putting in place a system for collecting client feedback, attending to problems, and consistently raising the bar on service quality, the objective is to attain a 90% or greater client satisfaction rate.

VALUES

Mission

- Deliver innovative solutions for businesses to thrive in the digital age.
- Committed to providing cutting-edge technology services and products.
- Aims to drive efficiency, enhance productivity, and create competitive advantage.

- Leading global provider of innovative IT solutions.
- Recognized for exceptional expertise and customer satisfaction.
- Aims to be trusted advisor, guiding businesses through digital complexities.
- Enables strategic objectives achievement.

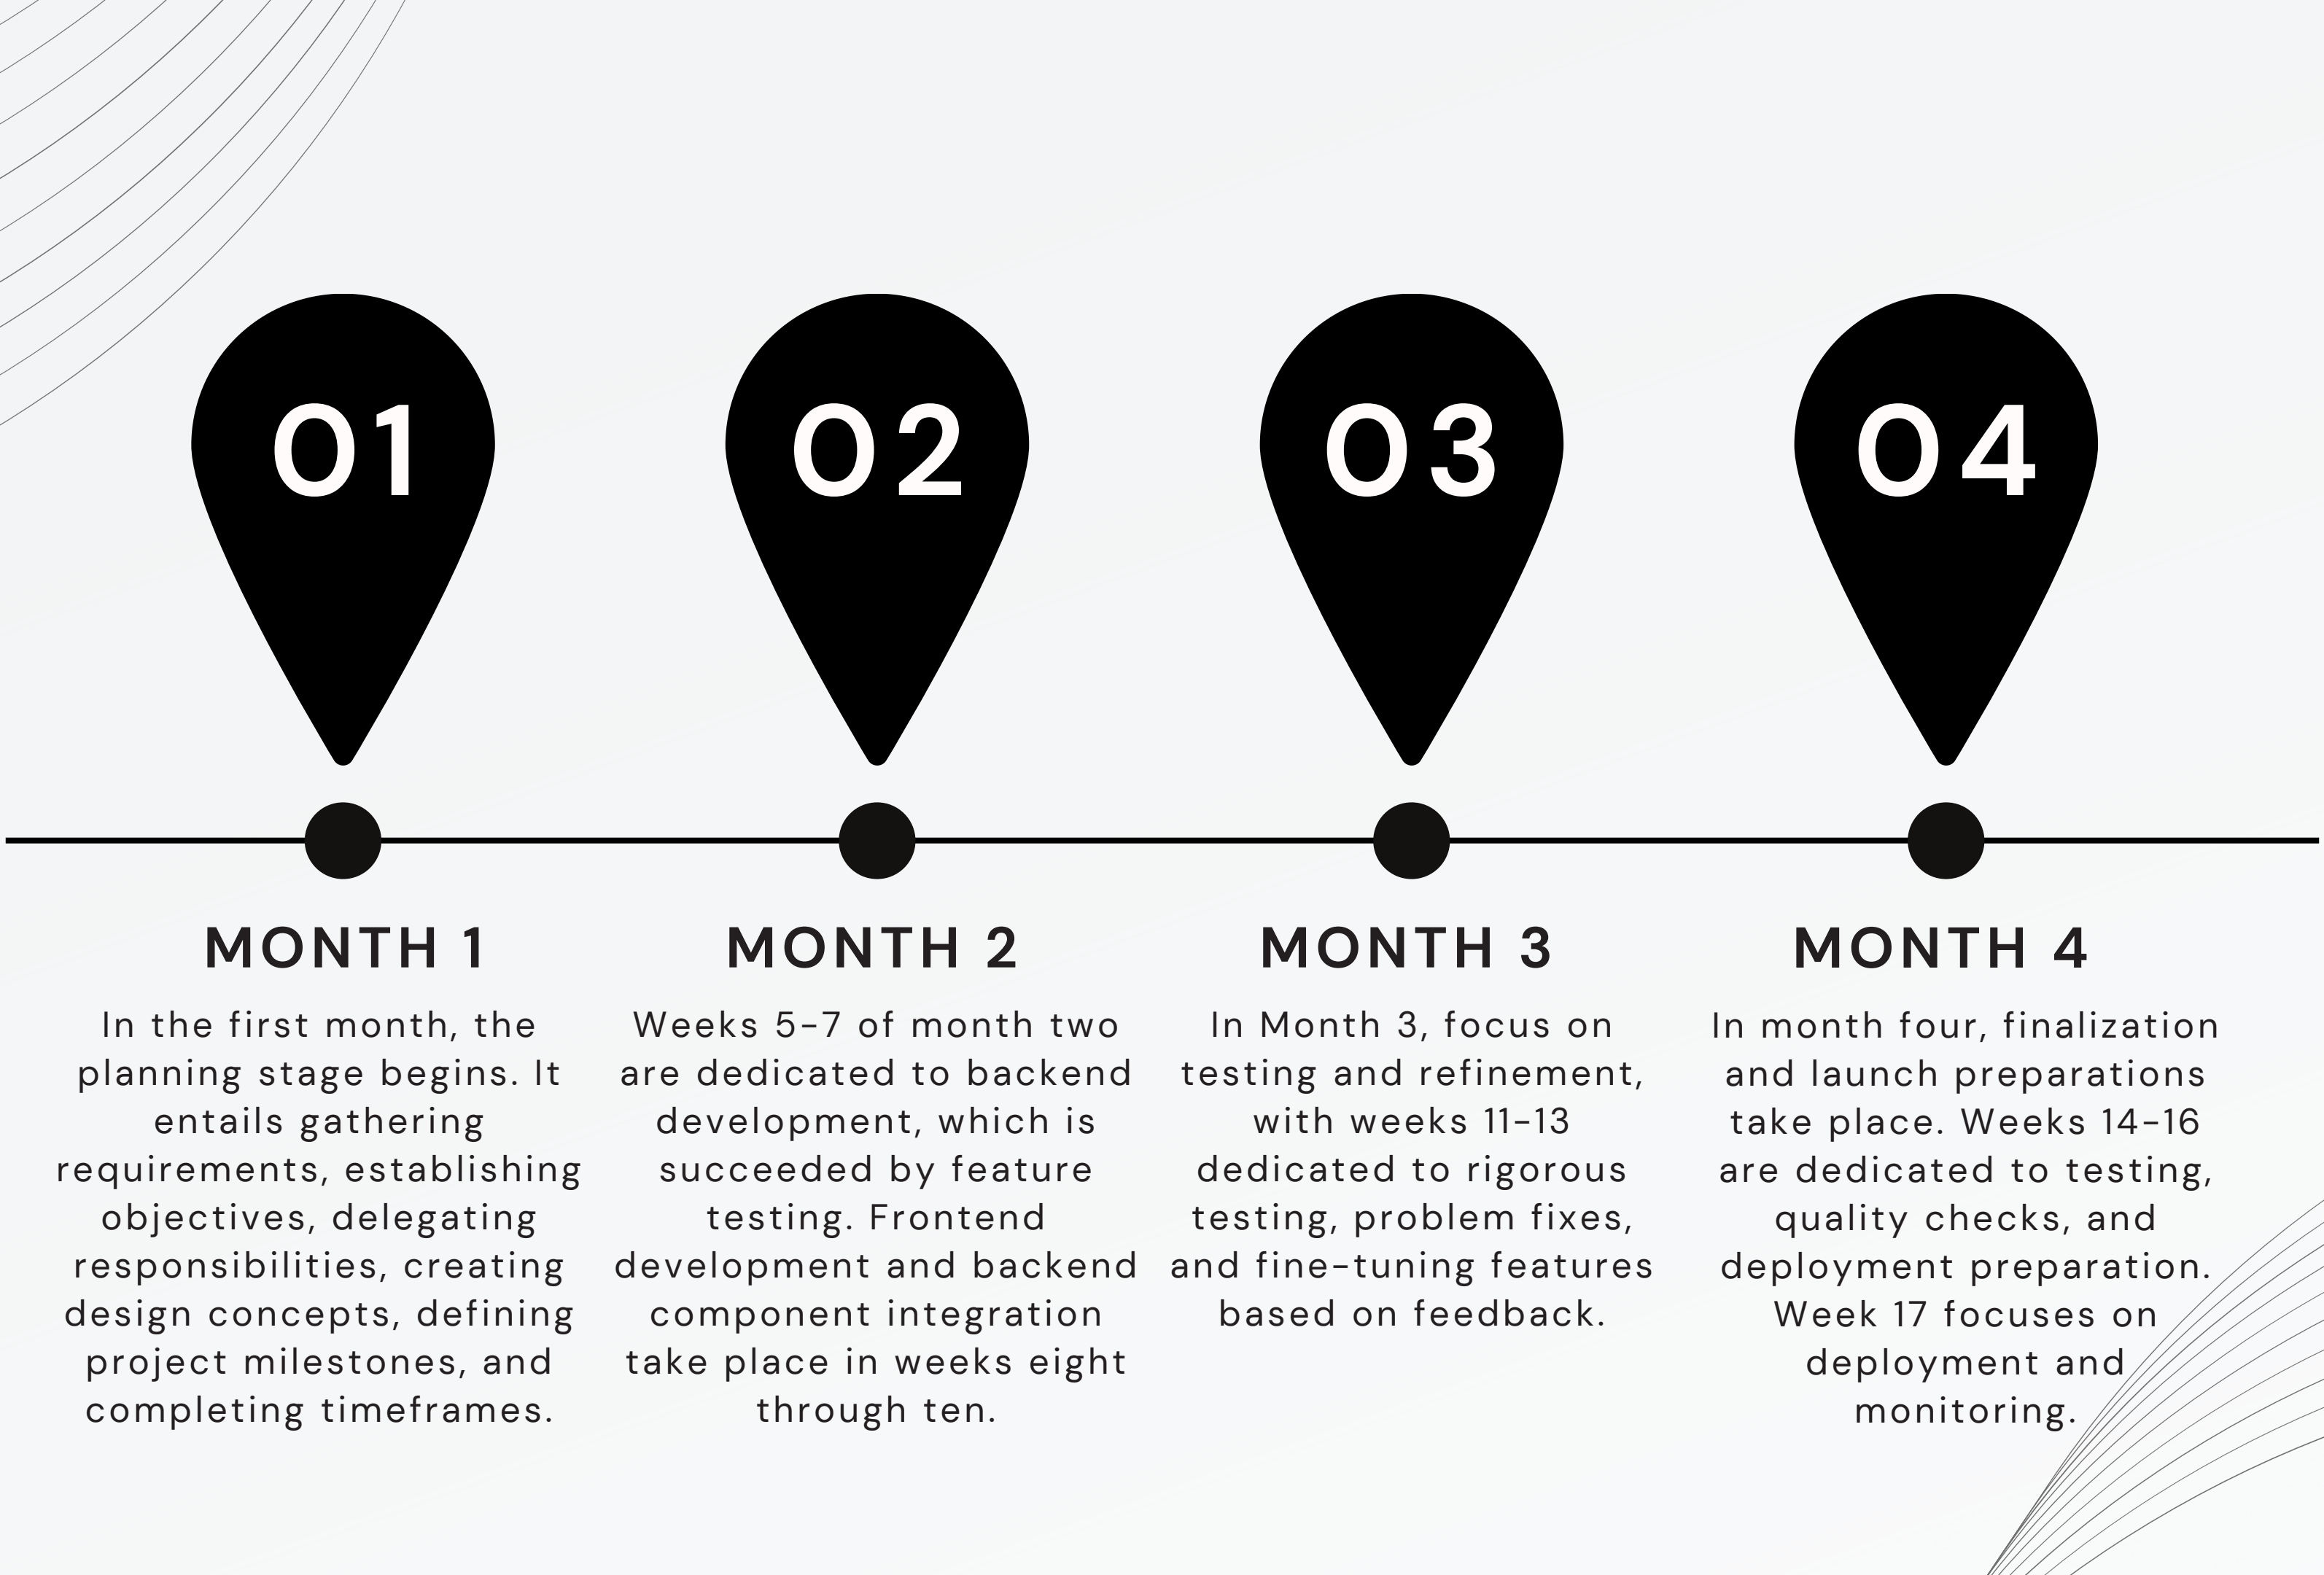

Vision

PROJECT TIMELINE

To guarantee project success, we take a methodical strategy that includes gathering requirements, talking about expectations, and establishing a project plan. We undertake front-end and back-end development with continuous testing and quality control, and we fine-tune the design direction during the design and prototype phases. Testing is done to identify and address important issues. To keep the project up to date and secure, we provide post-launch support and maintenance. The success of the project depends on the group's flexibility and problem-solving skills.

A horizontal timeline with four black circular markers. Above each marker is a black teardrop shape containing a white number (01, 02, 03, 04). Below each marker is a bold month label (MONTH 1, MONTH 2, MONTH 3, MONTH 4) and a paragraph of text. The timeline is decorated with thin, curved grey lines in the top-left and bottom-right corners.

01

MONTH 1

In the first month, the planning stage begins. It entails gathering requirements, establishing objectives, delegating responsibilities, creating design concepts, defining project milestones, and completing timeframes.

02

MONTH 2

Weeks 5-7 of month two are dedicated to backend development, which is succeeded by feature testing. Frontend development and backend component integration take place in weeks eight through ten.

03

MONTH 3

In Month 3, focus on testing and refinement, with weeks 11-13 dedicated to rigorous testing, problem fixes, and fine-tuning features based on feedback.

04

MONTH 4

In month four, finalization and launch preparations take place. Weeks 14-16 are dedicated to testing, quality checks, and deployment preparation. Week 17 focuses on deployment and monitoring.

CONCEPT IN BUSINESS

Hasan Khan IT LTD introduces Trips24, an innovative platform that simplifies commuting and logistics management. It offers ride-sharing for individuals and truck booking for businesses, allowing them to schedule, manage, and optimize their supply chain, while providing a convenient and cost-effective travel experience.

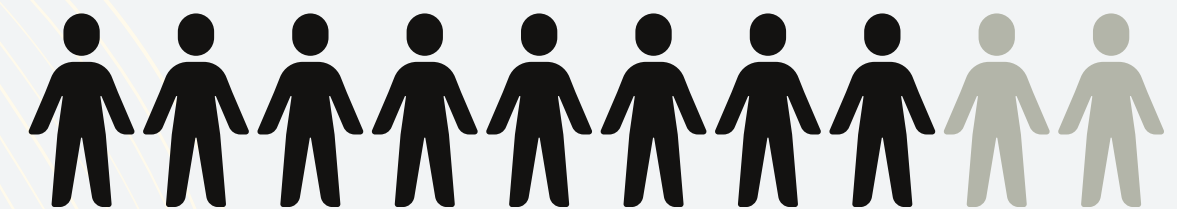

Hasan Khan IT LTD introduces the "Inventory POS System," a SaaS solution for streamlined business management. It offers efficient inventory tracking, automated alerts, user-friendly POS interface, multiple payment methods, customizable receipts, and advanced analytics tools for strategic decision-making.

STATISTICS

Trips24, a ride-sharing and truck booking platform, is navigating the global ride-sharing market and evolving logistics and trucking industry. The company must analyze market leaders and stay informed about regulatory landscapes to ensure growth and compliance with local regulations.

80%

NEXT PROJECT

With the goal of completely changing how people engage with technology, Hasan Khan IT LTD is introducing cutting-edge initiatives that put a strong emphasis on user-centric design and state-of-the-art technology.

FirstNeed24 revolutionizes shopping with personalized recommendations, easy ordering, and express delivery for essential products.

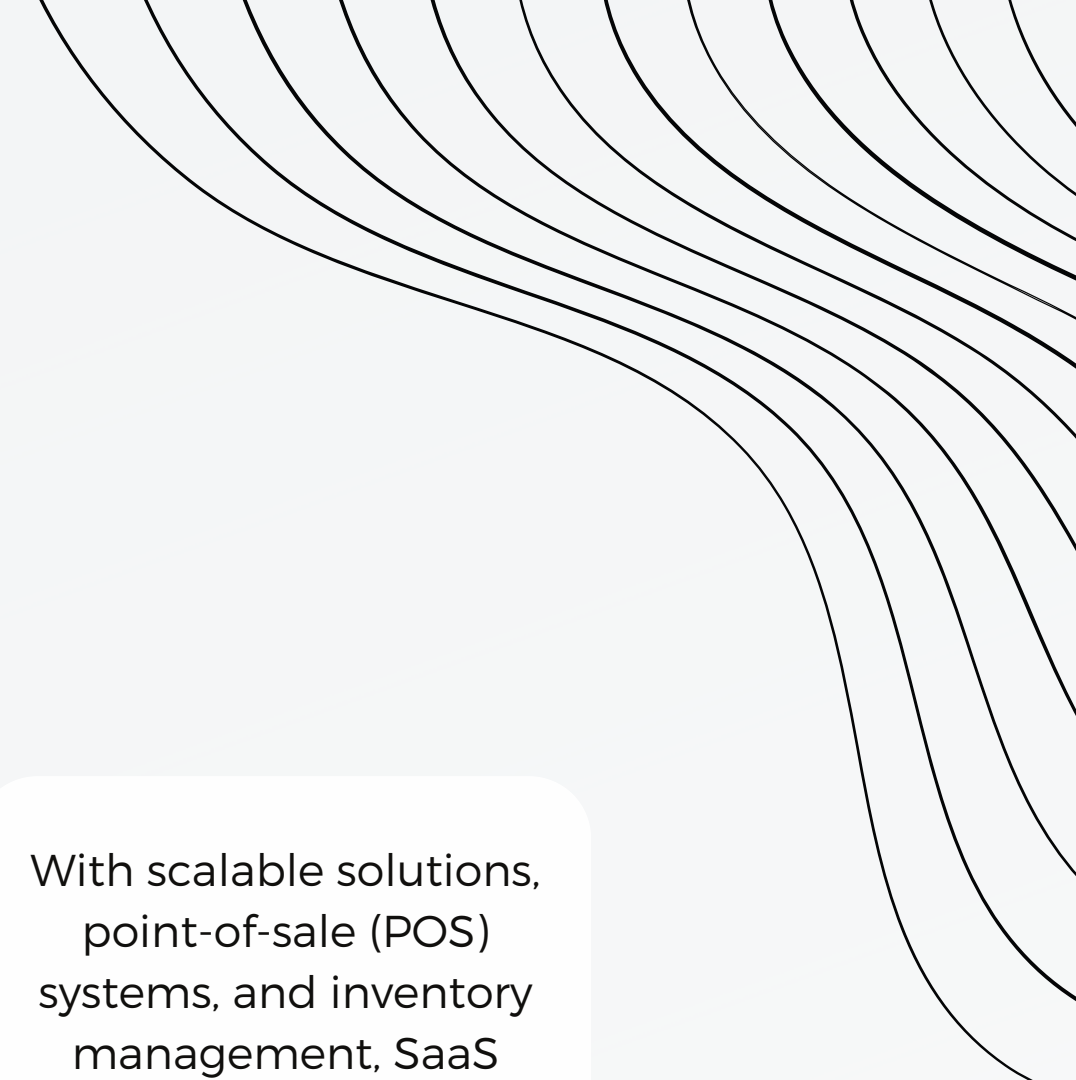

PROJECT 1

Doctors24 is telemedicine software with smart health records, AI-driven diagnostics, and integrated pharmacy services.

PROJECT 2

With scalable solutions, point-of-sale (POS) systems, and inventory management, SaaS simplifies business operations.

PROJECT 3

STRATEGIES

Working with tech partners, staff training, R&D, and ongoing learning are all part of the company's innovation and technology adoption strategy.

INNOVATION

Diversification strategy means identifying IT trends, introducing new services, enhancing existing ones, and exploring partnerships for expansion.

STRATEGY N°2

To succeed, perform market research, study rivals, implement focused marketing strategies, and prioritize long-term client satisfaction and retention.
