Who are we!, We have a powerful portfolio of the country's most distinctive and selective developments, with an excellent reputation in the real estate market and enviable relationships that give our clients exclusive access to the ultimate luxury apartments and exquisite commercial spaces, all in prime locations of Dhaka city. Our promise remains to develop a portfolio of luxury spaces and offer investors as well as buyers an unparalleled quality of service, inimitable by competitors. It is the commitment to both impeccably high standards and attention to detail that drives us to our success. Besides building beyond expectations, Eurosia Group also sets standards for itself, for you, and for others, which is why we proudly declare our driving philosophy to be "Setting Standards".

OUR LOGO

The concept for our logo is derived from the shape of human hands; the shape they make when held with the palms facing each other. Usually, when we hold an object in our palms, it is something we care about, something valuable to us. When a gust of air attempts to put off a candle that gives us light, we protect it with our palms. When a tiny bird falls from its nest, we hold it up and protect it in our palms. When a sculptor sculpts a masterpiece, he shapes it using his fingers and palms. Hence, our logo depicts the amount of care and emotion we put into each and every creation. Moreover, it is a symbol that inspires us on a daily basis to be kind towards our clients and protect their interests by providing an uncompromising level of service and superior products.

Eurosia Group We began the journey with a small renovation in Matikata, Cantonment in 2016 and since then, have flourished into creating large scale real estate, the latest technologies, restaurants, travel & tourism, and organic farming endeavors. Through its existence, Eurosia Group has been steadfast in its commitment to quality and dependability. Our relationship with the customer doesn't end at the date of handover but is a lifelong arrangement. Each of our estates has been built by keeping the life that will be led in that home in mind. We are a family, and we invite you to join us on our journey to make our lives and our homes full of love and success.

Mohi Uddin Liton

Managing Director

Eurosia Group We continuously strive for excellence in all our businesses and through our professional teams and strategic partners. Our main goal is to satisfy our customers by providing high-quality services and project execution at its best. We provide training to our employees in the US and abroad so that they should always have an updated knowledge of the latest technology. We do not do business which we do not understand or know well. Our business is not that big, but whatever we do, we do professionally. Finally, but not least, we wish a friendly global business relationship in the days to come.

Nasir Uddin Shipon

Deputy Managing Director, UK

From the sweeper to the security officer, from the messenger to the manager, everyone doing well at his post is a leader. "The organization becomes a leading one when it's made up of people leading in their roles."

"A successful man is one who can lay a firm foundation with the bricks others have thrown at him."

"It doesn't make sense to hire smart people and tell them what to do. We hire smart people so they can tell us what to do."

Md Shoukot Alam Shopon

Director (ADV), UK

A successful man is one who can lay a firm foundation with the bricks others have thrown at him. Brinkley, David. Running your own business is a lot of work. One of the secrets to success for all entrepreneurs is to plan for and embrace failure. You are going to run into lots of challenges. Many people will try to take advantage of you when you are down. The greatest delight in my career has been to rise from the ashes and prove others wrong.

Sujon Uddin

Director (Business Management), UK

Small business owners frequently struggle with trusting others to run the company and delegating decision-making authority. But there's a big difference between micromanagement and leadership. Steve's quote is a reminder to trust in the skills and opinions of our top employees. It's also something I remind my own manager of. The quote helps everyone spend less time managing and more time getting stuff done.
