MANAGING **DIRECTOR'S MESSAGE**

The Founder and Managing Director of TechnoMarine Solution Limited Mr. Farhaduzzaman Sarkar was born in 1981. He graduated from Asian University of Bangladesh in 2004 from the department of B.sc in Computer Science and Engineering. He started his career as a job holder in the field of Telecommunication in 2005. In 2006 he joined as a system admin and support engineer in CKR International Inc. (USA based telecom company). In 2007 he joined NPN Technology (Canada based telecom company). He joined Prasad group of companies as an IT manager and corporate coordinator in 2007. Later on he joined Eeastern Resource Management Service Limited (Singapore & Bangladesh joint venture company) in 2009 and he served there for 1 year. He joined as an Executive Director in Express Cards Limited in 2010. In 2019 he joined as General Manager in Sediatic Company Limited (Japanese company). In April 2020, Mr Farhad joined as a Head of Business Development and it Auditor in ConfirmityPlus. Mr Fahad is a very visionary entrepreneur. He accumulated his knowledge and started his own company Northern Motors Limited. He always endeavor to create new spheres which are very demanding for the New Era. He believes that quality always stand first and for ensuring the quality, experience is the most expensive instrument. To cope up with the first growing modern world vastly knowledge of IT is priceless. He is the man of focus and the man of mission. He served for many companies as an IT expert and his aim at creating a sustainable IT infrastructure in Bangladesh.

A Brief Story About The Company

ABOUT US

TechnoMarine Solution Limited is an advanced science and engineering company that provides innovative solutions — from scientific discovery through production. TechnoMarine Solution Limited smart systems include active and passive sensors, real-time processing, software, and complex algorithms that operate from seafloor, provides rapid, creative, end-to-end development capability to address challenging problems.

SERVICES

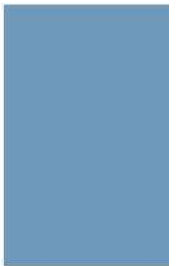

Ship Communication

TechnoMarine Solution Limited provides navigation and communications to the maritime industry, including the supply of communication, navigation and entertainment equipment and systems. SeaTec is also an official dealer for many of the leading manufacturers. We provide full support packages including the provision of spares and project management services for vessel upgrades and refits.

Together with a full installation service in all ports around the world, as well as shipyards for the installation of equipment on new builds, our skilled engineers cover the management and handling of onboard airtime services such as VSAT, Inmarsat and Iridium, as well as the required operating licenses.

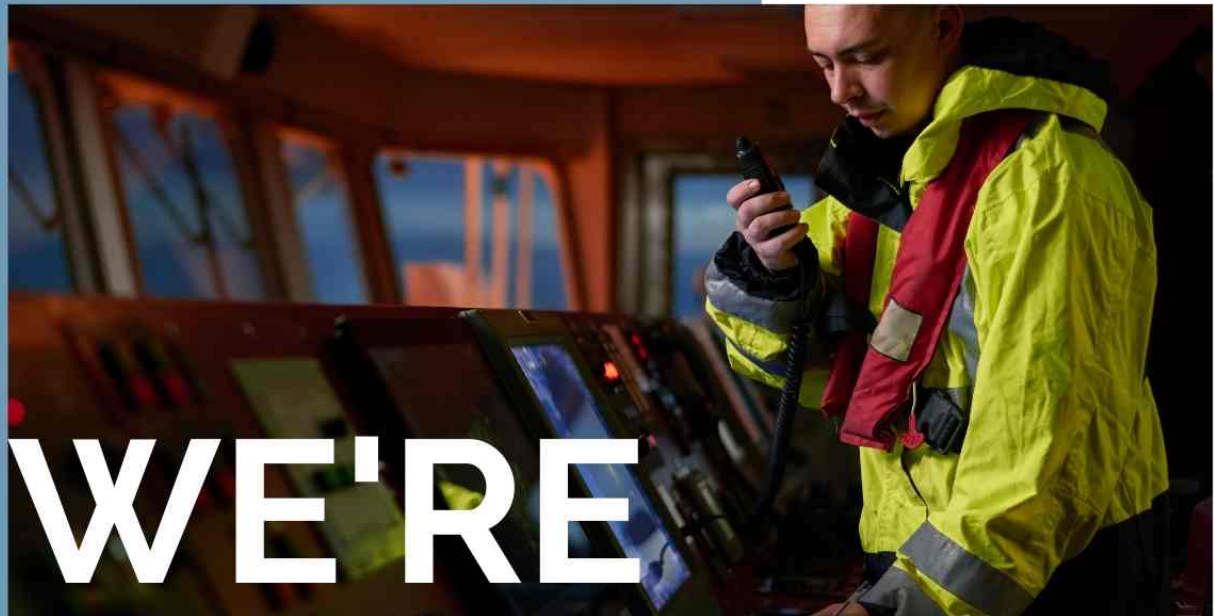

- ***User stations***
- ***Telephone and fax systems***
- ***Alarms and public address systems, including loudspeakers, headsets and microphones***
- ***Helicopter or aircraft communication systems***
- ***Wireless handset systems***

BEST SERVICES FOR YOU

Marine Software and Marine IT

Gathering oceanographic data from our autonomous vehicles over extended periods of time now needs new, innovative battery technologies that are small, durable against the elements, and are able to store vast amounts of energy. Mission control centre, Electronics systems enabling long-term observations are important, as well as the software used to operate vehicles and process the data recorded. Autonomous vehicles, moorings and instruments can transmit their collected data back to scientists via communications links using Iridium or via satellites

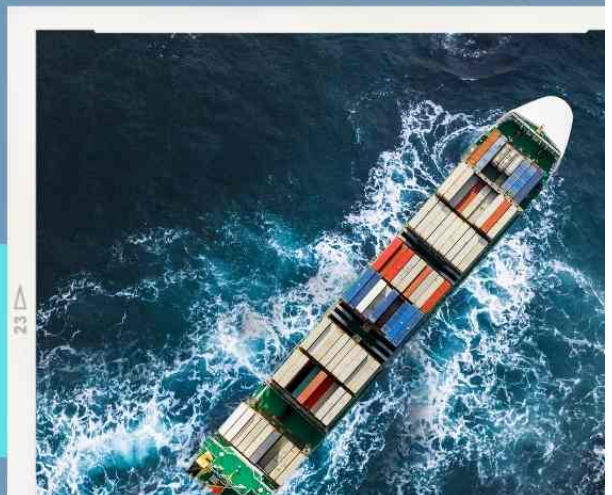

WE'RE

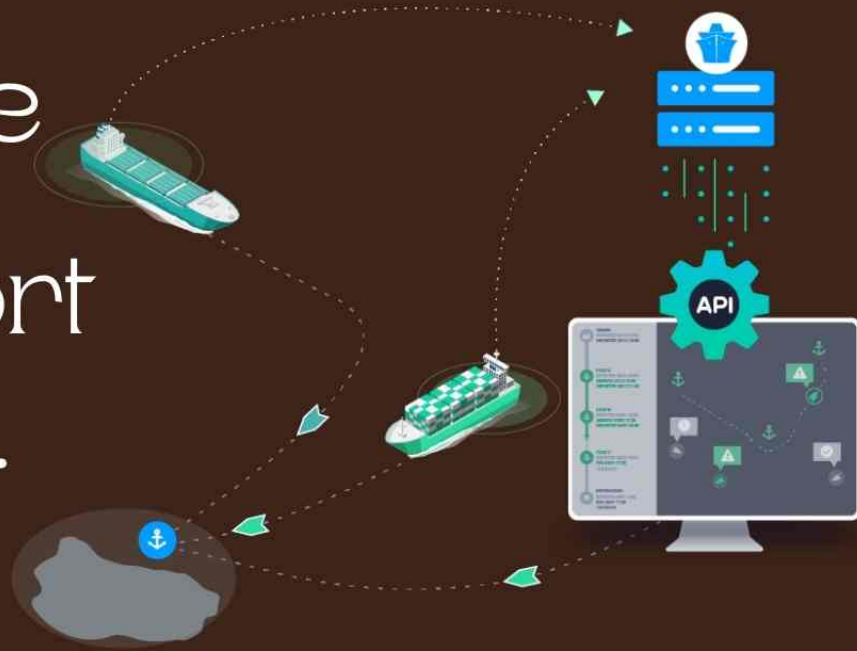

ADVANCED

Global Maritime Sattelite Communication

- 24/7/365 customer support and Halo Support Centre
- Software for data management, usage alerting and control
- Billing and reporting tools showing real-time usage
- Messaging and web-based solutions
- Pre-paid solutions
- Managed IT Services
- Engineering and Installation Services
- Robust network infrastructure
- Cyber Security Tools

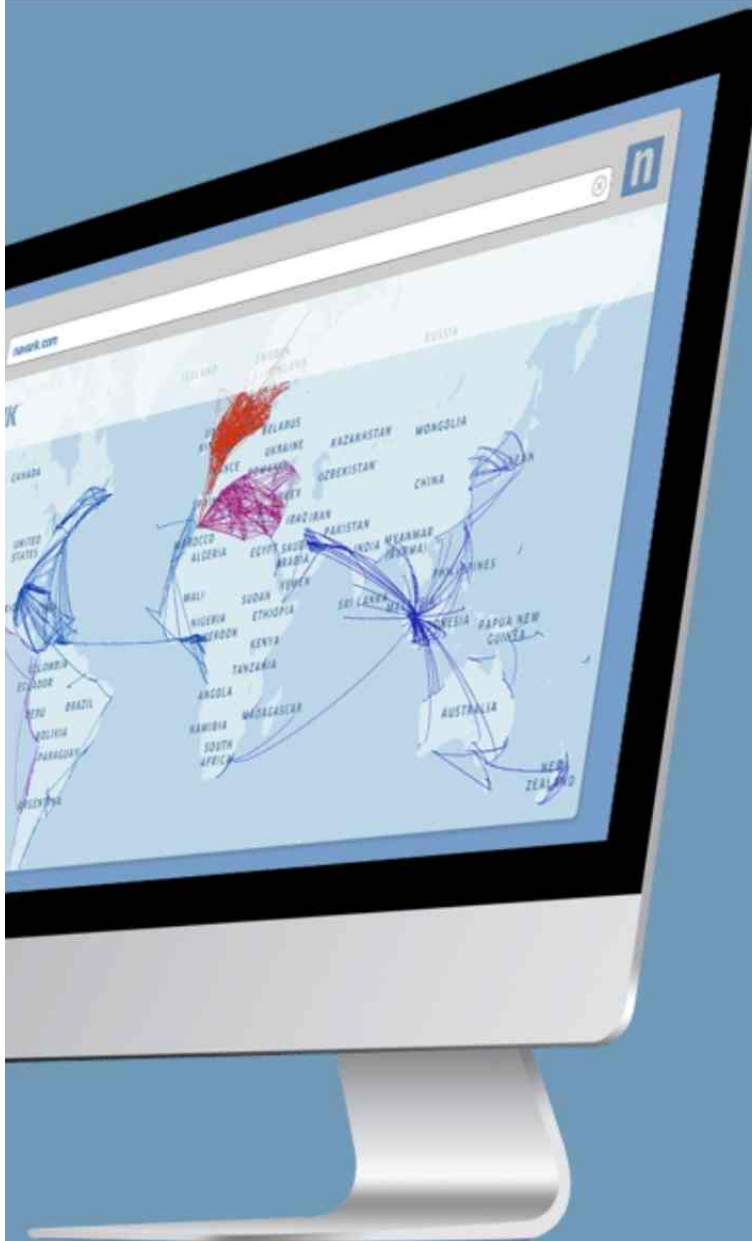

Create your comfort zone.

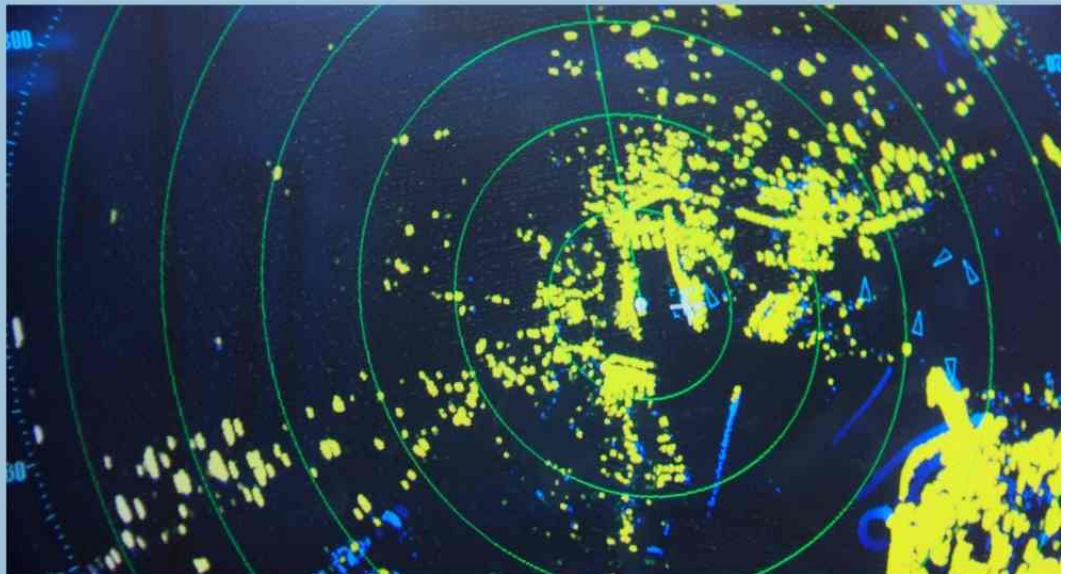

Smooth Vessels Operation

Gathering, storing, and retrieving information is time consuming, especially when you're working with limited data and are unable to track industry trends.

Navarik Vessel Experience Factor eliminates those struggles, giving you greater data accuracy and providing you with visibility on each vessel's historical ship and shore volume measurements.

THE Future Leader in marine IT

experience

THE COMPLETE PACKAGE FOR YOUR MARITIME IT SOLUTIONS

TechnoMarine Solution Limited is your VSAT network operator and maritime IT service provider. We value your business and we understand what's at stake. Therefore, we offer the complete package for your marine IT solutions; always customized to your wishes. From the advice and design of the maritime IT infrastructure to continuous maintenance of the network - you and your crew can count on us, wherever you are at sea.
