

Company Profile

We create things, that works.

About Us

ITLogiko is an professional IT company providing website, software, web application, mobile application, value added services and professional trainings that endeavor on high proficiency, on-time delivery and cost effectiveness.

We are highly experienced IT and Telco professionals offering software development, integrated mobile technologies and content development for onshore and offshore.

Our efforts focus on concept, design, development and re-engineering of digital businesses.

ITLogiko Fundamentals

Collaboration

We collaborate with engaging partnering companies to offer our clients and customers the best user experience.

Trust

Trust is the foundation of all our values. We prioritize it over everything. We first give trust in order to earn trust.

Teamwork

We love working in teams and get more satisfaction out of winning together than we do from individual success.

Respectful

We lead compassionately. We have strong opinions, but We treat people with respect.

Customer Centric

We exist because of our customers and clients. We obsess about customer satisfaction.

What We Are Good At

Web Solution

We design & develop web sites & applications that engages your users, captivates your clients, and generates real results for your business.

Mobile Solution

We bring the greatest experience to your users by continuous engaging with your stable and scalable Android, iOS or Native apps.

Value Added Solution

We are one of the unique content aggregator, integrator and solution provider. We are continuously striving to enhance the mobiletainment experience through value added interactive media services such as SMS, WAP, IVR, etc.

Professional Training

We provide expert-led IT trainings in software development, cyber security, data science, and more. Enhance your skills and stay ahead with our industry-relevant courses designed for real-world application.
