

Axentec PLC, the newly formed subsidiary of Robi Axiata Limited, has officially commenced its operation from the very first day of 2024. The company aims to provide high-tech digital solutions and services like cloud services, data center services, Artificial Intelligence (AI), data analytics, blockchain, cyber security solution and services, ERP solutions, modern workplace solutions, IoT, etc. both for Bangladesh and global market.

The goal of Axentec is to establish itself as a leading one-stop IT solutions and services provider for corporate and Small and Medium-sized Enterprises (SME) entities. Axentec plans to utilize Robi's connectivity business to create ready-made and customized ICT-based business solutions. The company is committed to seeking collaboration opportunities with multiple partners to enhance the richness of its service offerings. Under the dynamic leadership of its CEO and Managing Director (MD), Adil Hossain Noble, Axentec is poised to drive the next wave of value innovation, ensuring businesses are prepared for the challenges of tomorrow.

Commenting on the occasion, Axentec PLC's CEO and MD, Adil Hossain Noble said, "Axentec positions itself as a catalyst for business agility and future readiness, particularly for Corporate and SME clients. The company's core ambition revolves around creating flawless connectivity through innovation. Data Center solutions plays a pivotal role in fostering this connectivity and innovation-emphasizing on reliability, security, and scalability to ensure seamless operations for Corporate and SME clients. By embracing a comprehensive approach, Axentec endeavors to explore unlimited possibilities in the realms of technology and business evolution.

Tailored solutions for seamless operations:

Axentec's suite of solutions encompasses services and applications meticulously designed to streamline business operations, boost productivity, and enhance communication through mobile devices. This includes mobile apps for project management, customer relationship management (CRM) software, mobile payment systems, enterprise resource planning (ERP) platforms, and customized cybersecurity applications. These solutions epitomize flexibility, efficiency, and accessibility for businesses on the move.

Transforming Connectivity into Cloud Business:

As the enterprise market undergoes a paradigm shift from connectivity to cloud business, Axentec introduces ROBI Cloud services. This innovative cloud infrastructure is not only flexible and accessible but also allows remote access to data and applications from anywhere. Operating on a cost-effective pay-as-you-go model, Axentec's cloud services offer robust security measures, backup, disaster recovery options, and real-time collaboration capabilities.

About Axentec

Axentec, a Robi Axiata company, is a provider of innovative solutions, designed to transform business operations and enhance productivity. With a vision to create a smarter and digitally inclusive future, Axentec offers a comprehensive suite of services, including cloud solutions, mobile applications, and cybersecurity applications.
