Leadership:

- **Tariqul I. Tariq, Founder & CTO:** A top-rated freelancer from Bangladesh who has worked for the global market. His expertise includes fintech, tax automation, and cloud-based PBX systems for businesses. He has developed many SaaS products from scratch and has worked for clients based in Europe, Australia, and America.
- **Abu Sufian, Head of Engineering:** Abu has a strong track record of developing large-scale systems from scratch for startups and scaling early-stage products for a growing customer base.

Focus Areas for Abu:

- **Upay:** উপায় (upay) is the digital financial service brand of UCB Fintech Company Limited, a subsidiary of the United Commercial Bank. Developed the first version back in 2017 from scratch and worked on it for 3 years as a vendor's employee at HashKloud PTY Limited, during which the customer base increased to 1 million.
- **Momos:** Singapore-based company, Momos is the AI-powered CXM platform for multi-location brands. Your favorite global brands such as Shake Shack, Baskin Robbins, and Wendy's use Momos to automate their entire customer stack, securing \$6.5 million in seed funds.

About Us: RoBenDevs is a fast-growing company based in Bangladesh, dedicated to developing innovative solutions that meet the needs of today's ever-changing technological landscape.
