Company Overview:

About Everest IT:

As a strategic business partner, we provide IT Training, Diversified IT solutions and services that support attainment of our clients' business objectives.

At Everest IT we're dedicated to providing our customers with the most reliable service in the industry. You can choose us for IT related training, Custom Software Development, Complete Ecommerce Solutions, Domain Registrations, Web hosting with BEST Features on the Market, SSL Certificates (https), Bulk SMS, Customized Billing Software and Accounting Software.

Through years of experience working with different industries, we truly understand the current companies' training needs. Companies no longer needed a theory-based training but a practical training with applicable knowledge.

We believe that training does not stop in front of a whiteboard. We listen to understand your issues and business objectives. We work together with you to equip your people with necessary skills, providing them with the right tools to achieve important skills to have the competitive edge.

We are providing quality website & software as client requirement and we try to provide the domain & host such as dedicated host, shared host & cloud host. Beside we have provided training for Diploma & BSc in CSE student in different college in Bangladesh.

Everest-IT feel proud for serving the student & get interest for keeping a little contribution of improving IT sector in Bangladesh.

Mission :

Boost the competitiveness and sustainability of organizations through innovative software solutions for excellence and enterprise compliance.

Vision :

Be recognized worldwide as a provider of leading solutions in enterprise excellence and compliance.

Why Everest-IT?

Everest-IT has been a long-term trusted partner for clients in the Bangladesh area and beyond since 2012, working closely with our clients allows us to act in their best interest over the long term. Our 25 dedicated staff (excluding the cats) have a combined experience of over about 6 years.

Our Clients Benefit From:

- A proven client service model: locally owned and operated
- Considerable range of combined technical knowledge and experience
- Timely response to any issues
- Cost efficient services
- Fixed costs for easier budgeting

Client And Future Focused:

We have recently appointed a Customer Service Manager to assist the technical team with enhancing client management and to provide a better level of service to our clients. Lloyd brings a wealth of operations and management experience to the company. We are committed to ensuring that our often very busy technical team is resourced appropriately for the ultimate benefit of our clients.

Company Profile:

Everest-IT is an Information Technology company located in Bangladesh, servicing clients nationwide. Everest-IT is the leading provider of business & education I.T. solutions in the Dhaka. Partnering with the best of breed technologies such as Hewlett Packard, D-Link and Microsoft, we employ best practices developed over thirty years of service. We are extremely committed to delivering quality advice, sales and support to assist our clients to achieve the maximum from their I.T. investment.

Legal Status & Registration of the Organization:

Serial No.	Registration Authority	Registration Number	Date of Registration
1.	Dhaka North City Corporation	288731	14 th October, 2012

HUMAN RESOURCE OF EVEREST-IT:

Sl. No	Category	Quantity

- Professional & Industrial Attachment Training
- Cloud Based & Desktop based Software Development
- Website Design & Development
- Network setup/Server Installation
- Outsourcing & Freelancing
- IT Consultancy
- Email & SMS Marketing
- Domain & Hosting
- SEO (Search Engine Optimization)
- Data Entry

Training:

Everest IT is one of the fastest growing IT training organizations located in 888/ 1, 3rd floor, hazi ashraf ali market, East shewrapara, Dhaka-1216, Bangladesh. Our main expertise and area of focus is in the field of training. We provide IT professional training, mainly in Cisco certification courses of Cisco, like CCNA, CCNP, Web design & Development, Programming, Graphic Design, Outsourcing, Freelancing training and more.

Everest IT has the affordable, high quality, and comprehensive network training that you have been looking for. We have training tailored to your exact needs, whether you are new to networking, working towards next certification, or renewing your current certification.

We are staffed with experienced and certified professionals who are well qualified to lead the individual for a shining and bright career in the networking field, software & website development field, design field and more. We have the experience and expertise to design, implement and support most effective network solutions necessary for corporate needs today, while planning for the future.

Architecture:

Since its inception, Everest-IT has been a technological innovator, constantly improving products through new practices, design principles and technologies with focus on customers' real needs and simplifying problems. Everest-IT Excellence Suite provides increased productivity for teamwork, based on an efficient control mechanism called "Team Workflow". This mechanism automatically sends e-mail notifications of pending tasks to users and supplies the necessary tools for quick and effective solutions. Results assure simple and effective control for achieving objectives and priorities throughout company departments, optimizing the meeting of deadlines and conformity to previously planned quality results. Everest-IT Excellence Suite furnishes diverse options for search view screens, data, charts, and report generation to display detailed or summarized data on vital management system elements thus ensuring a clear evaluation of the effectiveness achieved through the management system, adding top-notch quality, and guaranteed strategic decisions for your company.

Services

Standard Support:

Provides an essential, high quality remote technical support to your organization. The Standard modality allows you to obtain assistance from Everest-IT for suspected defects and product-specific, task-oriented questions regarding the installation of product updates. This level of support is indicated for those organizations that use Everest-IT applications in non-critical processes, restricted to a single department and a reduced number of users.

Gold Support:

Provides both additional and specialized support on Everest-IT products. Gold Support offerings focus on the vertical depth of support, and feature a personalized relationship with our technical experts and knowledge transfers. Gold support is the best choice for those organizations that use Everest-IT applications in processes with a medium degree of criticality and that run across several departments.

Platinum Support:

In addition to the Gold level, this offers a priority remote service and the mobilization of professionals with different specialties. Additionally, new customer requirements detected during the continuous use of the application receive an advisory service and priority service in the evolutionary product roadmap. This level is recommended for companies that use Everest-IT products in a corporate manner for critical processes that require high availability, reliability and operating efficiency.

Advanced Support:

In addition to the Platinum level, this offers a remote service and solution (workaround). This contract provides for contract the maximum time for solution (workaround) the problem, based on their criticality. This level is recommended for companies that use Everest-IT products in a corporate manner for critical processes requiring high availability, reliability and operating efficiency, where the infrastructure available for Everest-IT products complies with the strict requirements foreseen by the manufacturer Everest-IT.

Industries:

Regardless of the company size or market sector, Everest-IT provides the most complete integrated web-based solution to simplify and streamline implementation, execution, control and monitoring of multiple business application demands, including: Business Process Management [BPM], Corporate Performance Management [CPM], Enterprise Asset Management [EAM], Enterprise Content Management [ECM], Enterprise Quality Management [EQM], Enterprise Risk Management [ERM], Environment, Health and Safety Management [EHSM], Governance, Risk and Compliance Management [GRC], Human Development Management [HDM], IT Service Management [ITSM], Product Lifecycle Management [PLM], Project and Portfolio Management [PPM].

Team:

Everest-IT people are the main secret of the company's success. When selecting professionals to join the team, Everest-IT respects the diversities in culture and opinions. The company offers satisfying rewards and a wide range of benefits

Skills:

Everest-IT's corporate governance and success lies in the skill and experience of the company board and its key corporate management. This team is responsible for making final decisions in the best interests of

the company on matters such as international presence, competitive position, technological direction, ethics and good relationship with customers.

Environment:

Everest-IT Management is based on the principles of social responsibility and the practice of company values, continuous improvement to Quality and the Environment by minimum use of natural resources, promotion of recycling through an internal program, as well as encouraging safety and occupational health practices.

Our Product List:

- Pharmaceuticals ERP
- Small Manufacturing ERP
- HR & Payroll Management

HR & Payroll Management System:

Major Module For Human Resource Management System

- ♣ Recruitment Information
- ♣ Personal Information
- ♣ Attendance Information
- ♣ Leave Management System
- ♣ Salary Management System
- ♣ Provident Fund Management System
- ♣ Pension Management System

- Appointment letter/Joining letter

Le ave Management System	
Attendance	
• Working shift information • Overtime policies • Attendance policies • Integration with multiple attendance devices • Manual attendance entry (in/out) • Generate attendance related different reports dynamically • Conveyance information • Generate conveyance report	• Generate different HR reports dynamically • Weekend/holidays information • Leave encashment facility (bM`xKiY) • Online/offline leave application through system or mobile • Online/offline leave adjustment application through system or mobile • Online/offline leave approval through system • Generates different leave reports dynamically
Salary Management System	Provident Fund Management System
• Salary head declaration • Grouping of salary heads • Salary structure • Bonus type • Bank account information • Gratuity Rule (eKkxm) • Monthly salary process • Bonus/Festival allowance process • Overtime information • Vehicle deduction bill • Salary statement information • Salaries pay slip generation & Salary pay sheet	• PF membership information • PF membership approval • PF opening balance • PF loan/advance • PF loan approval • PF investment information • Investment accrual • PF Withdrawn • PF profit distribution • PF final settlement • My PF loan status • My PF balance information

Pension Management System

- Pension policy information
- Pension rate information
- Pension currency multiplication policy information
- Pension calculation information
- Other earnings for pensioners' information
- Pensioners/nominees bank account information
- List of monthly pension payment statement
- Bank statement for monthly pension payment
- Report generation tools/query analyzer for each module

School/Education Management System:

Course, Fees & Accounting Management Software for Schools

Institute Management

- Easily manage your single school.
- Manage multiple schools on cloud.
- Manage your academic, administrative & financial activities.
- Completely secure with Access rights.

Course Management

- Define school year and course.
- Define Classrooms, sections & section capacity.
- Assign subjects to different courses.
- Define your lab subjects.

Student Management

- Add your student's details quickly with Excel upload.
- Add student's picture.
- Print their ID cards, Progress Card, Admit Card, Tabulation Sheet, TC, .
- Add student's qualifications / Parent details.

Fee Management

- Define fee structure.
- Accept Fee in installments.
- Give last minute discounts while collecting fees.
- Accept Fees in cash, credit card, NEFT, Cheque.

Fee Receipt

- Get your Fee receipt done in the design you like.
- Add personal touch in your receipt, add your logo.
- Print it on your pre-printed stationary.
- Email Fee receipts to parents, save paper, go green.

Email/SMS

- Send Emails / SMS to parents at time of student Registration.
- Send SMS / Email while receiving Fees.
- Send SMS / Email alerts for pending fees.
- Communicate with Parents / school staff easily by SMS / Email.

Analytical Reports

- Get reports on your daily Fee collection.
- Course wise Fee collection.
- Pending Fees report.
- Class wise student Details.
- We can make custom Reports as per your Business needs.

Financial Accounting

- Maintain your Account books.
- Payment Invoice
- Auto generated accounts to maintain Fees.
- Maintain your Petty cash.
- Class wise student Details.
- Get your Profit & Loss, Balance sheet reports.
- Income Accounts
- Expensive Accounts
- Bank Accounts

Human Resource

- Holiday Setup
- Shift Setup
- Setup Attendance Type
- Leave Type
- Salary Sheet
- Notice Board

Library Management

- Book Entry
- Book List

Manage Purchase & Supplier

- Generate Purchase orders
- Manage Supplier details.

- Receive items from supplier.
- Manage financial accounting.

Bus or Transport/Schedule

This section shows the list of buses available, their routes with maps & bus schedules. A GPRS enabled school-bus tracking system can also be added to this system for real-time tracking of the school-bus (students/children).

** will be available in future, needs GPRS devices to be installed on the bus.*

Message Board

A full-featured message-board/forum is there in the system which enables students, teachers, principal & parents to create an online community & discuss their views, thoughts & ideas on various topics. These forums are monitored by the admin. An abusive language filter is installed which restricts the use of abusive content on the forums.

Leave Application

Students can file leave application online from home or anyplace. These applications get visible at the time of taking attendance.

Students/Teachers/Principal Profiles

Students, teachers & principal can view & update their profiles, photographs, contact numbers, password; so that most current information are available in school database.

POS (Point of Sales):

Everest-IT POS Software Features

Here is a list of some of the features in Version 8.2. If you don't see something you need or want, call or e-mail us and find out how Everest-IT will work for you or download the demo.

Sales Features

- Works with touch screens/systems and non-touch screen based systems
- Time Based Discount Rules (Buy X Get Y for Z%, Mix and Match, etc.)
- Recurring billing with card on file (great for club management and service businesses)
- Wish List/Gift Registry
- Age Verification
- VAT for countries that support a Value Added Tax
- Support fractional cents. Great for businesses price large quantity discounts or sell items at fractional cents like gas
- Promotion Code Tracking
- Open Orders/Deposit Tracking
- ☐ **Gift Cards** built **right** into the program (no additional fees)
- Multi-Level Sales Jurisdiction Tax Tracking -Sales tax jurisdictions based on base rate and 2-tiered tax rates (GST/PST) and 2-tiered tax rates with department and class exceptions.
- Line item clerk sales tracking
- Gift receipts
- Open multiple sales screens
- Line item consolidation
- Consolidated item listing
- Serial number tracking
- Layaways

- ☐ **Credit card processing** options. Use one of our integrated processors to get the lowest rates. Or use your own.
- Split payment media. Handle all those Visa gift cards being used for payment.

- ☐ **Sales Manager**. Allows you to view, reprint receipts, change, copy and void sales. View saved sales, open orders (deposits), layaways, gift certificates and daily sales totals.

Customer Features

- Customer Cards
- Store Credit
- House Accounts and Invoicing
- Birthday and Interest Tracking
- Activity Manager to track customer contact histories and ToDos
- Customer E-Mailing
- Price Level Discounting Rules
- Time Based Discounting Rules. Tuesday is "Locals Day" promotions.

- **Customer Manager.** Provides customer sales and item history for all locations through the Customer Manager. Customer centric operations to make you more efficient and better able to serve and sell to your customers.

Inventory Features

- Barcode-based Pricing Labels
- Receiving Histories
- Purchase Orders auto-generated by Minimums and Maximums or Sales
- Department Stock Number to allow you to setup and sell faster
- Matrix-based Sizing
- Scales and Variable Weight Barcodes (Deli Scale Barcodes)
- Age Verification
- 250 character descriptions and 50-character stock numbers for more flexibility
- 5 price fields - Allows you to set up customers for price level discounting.
- Separate Vendor and Manufacturer Part Number Fields
- Seasonal Minimum and Maximum Field Tracking
- Physical Inventory Collection System for Inventory and Sales, Purchase Order and Transfer

Order generation

- Serial Number Tracking
- Packages for Case Lot Tracking and Splitting
- Add-ons
- Aliases
- Case Lot Tracking and Splitting
- Alternate Code Lookups including 2 UPC/EAN fields
- Supports up to 250 character descriptions and 50-character stock numbers for greater flexibility.
- 5 price fields - Allows you to set up customers for price level discounting.
- Manufacturer Part Number Field
- Class Tracking
- Location Tracking
- Transfers and Transfer Order Creation for Multi-location environments
- Minimum and Maximum Field Tracking - Supports four different minimums and maximums to allow for differences in seasonal reordering requirements.
- Auto purchase order generation based on sales and minimums
- Instant Sales and Quantity Information for all locations through the **Inventory Manager**

Reports

- Hundreds of preconfigured reports with many filters to better enable you to get the information out of Everest-IT you need to reorder, sell and manage your customers.
- Reports can be exported to PDF, Excel, or text file formats.
- Filter and memorize the ones you use all the time.
- Statements, invoices and purchase orders can be quickly printed and then e-mailed to your customer or vendor.

Client Server Architecture

- The client/server software architecture is a versatile architecture that improves flexibility and scalability. A client is defined as a requester of services and a server is defined as the provider of services. A single machine can be both a client and a server depending on the software configuration.
- This means that Everest-IT will be extremely stable and will maintain data integrity across wireless networks and the Internet.

Inventory & Accounts Software:

Manufacturing INVENTORY & ACCOUNTS Module View

- ☐ Purchase Management
- ☐ Bill of Material Management
- ☐ Stores Management
- ☐ Production Management
- ☐ Finance Resource Management

Real State Management System:

- **Integrated Sales CRM, Contact & Property Database**
Manage prospecting activity, property listings, selling, communication, buyers, vendor relationships and reporting more effectively using a powerful integrated Sales CRM, marketing, contact & property database.
- **Intuitive, Easy to Use Software**
Real Estate Manager Sales CRM is feature rich but is one of the most intuitive, easy to use systems on the market; ensuring there is no steep learning curve to get your sales department up and running.
- **Calendar, Activity & Task Management**
Develop deeper relationships with prospects, buyers and vendors with Real Estate Managers' automated activity plans, workflows and triggers to follow up on calls, appraisals, OFIs, appointments, milestones or planned sales campaign activity.
- ☐ **[Integrated Campaign Management & Web Marketing](#)**
Engage and communicate with potential vendors, buyers and investors more effectively using Real Estate Managers' integrated marketing suite; email marketing, templates, property listing management, SMS, print brochures, and buyer matching functionality.
- **End-to-End Sales Management**
Manage the sales process and ongoing buyer/vendor communication from listing through to contract and settlement. Monitor and track advertising, deposit payments, inspections, disbursements and commissions.
- **Sales Performance Analysis**
Measure, review your prospecting activity, appraisals, listings and ongoing sales performance

against monthly, quarterly or annual sales targets using Real Estate Manager's powerful reporting module.

Anywhere, Anytime System Access

As a 'Smart Client' windows based solution, sales professionals can access Real Estate Manager Sales CRM system and feature rich software functionality from any location; in the office, conducting appraisals, inspections or working remotely.

Training Projects:

Everest-IT have completed some government project such as LICT, ICT & Others departmental project & already some project are running. For details information I have given a chart as bellow, which is, included our completed project or running project list.

Project Name	Duration	Venue	Couse List
Kaliakoir Hi tech park	3 Months	Sherpur	- Basic English & Computing
Sheikh kamal hi tech park & Incubation center	6 Months	Chittagong	- 2D, 3D animation
Sheikh kamal hi tech park & Incubation center	6 Months	Magura	- Web design & Development
Kaliakoir Hi tech park project	8 Months	Dhaka	- Android & IOS apps development
LICT project	3 Months	Dhaka	- Java Programming - C# programming - PHP programming - Web design & development
Skill development for mobile game and application	5 Months	Dhaka Chittagong Cox's bazar	- IOS mobile apps development - Android mobile apps development
Data Entry Project	6 Months	Dhaka	- USA based telecom project
Industrial Training	Running	Dhaka	- Signed MoU with 25 polytechnic institute in Bangladesh and over 2000 students trained from our institute

1. Technology Hardware and Software

Items	Specification	Installed Software
Course: Architectural and Civil CAD (ACAD)		
Computer Fundamentals	CPU/Processor: Intel core i5 3 GHz or higher	Microsoft Office 2016 (OS: Windows 10 Professional)
Designing, Modelling & Drafting with AutoCAD	RAM: 8 GB of free system RAM have remained available for use	Autodesk AutoCAD
3D Modelling & Animation with Autodesk 3DS Max	Video sub-system: 2 GB (or higher) Video Memory on external Video Adapter	Autodesk 3DS Max
Engineering, Modelling and Drafting with Revit Architecture	Monitor: 19" minimum Hard Disk: One (1) TB DVD-ROM: DVD-ROM in all PCs	- Autodesk Revit - Architecture
Enhancing CAD Drawings with Adobe Photoshop	Networking/Adapter: 10/100 Mbps network card connected to LAN	- Adobe Photoshop CC - MS Project
Implementing Project Management Principles and Practices with Microsoft Project	Instructional Display: Multimedia Projector	All of the above
Practical Project & Portfolio Development	Power Conditioning: Full UPS and generator support for all PCs and servers (including monitors & projector)	
Course: Graphics, Animation and Video Editing (GAVE)		
Computer Fundamentals	CPU/Processor: Intel core i5, 3 GHz or higher	Microsoft Office 2016 (OS: Windows 10 Professional)
Drawing & Illustration	RAM: 8 GB of free system RAM should remain available for use (after sharing with the video subsystem, if sharing is at all used)	- Adobe Illustrator CC - Adobe Photoshop CC
Photo Editing and Texturing	Video sub-system: 2 GB (or higher) Video Memory on the Video Adapter (Separate Graphics Card).	Adobe Animate CC
Fundamentals of 2D Animation & Interactivity	Monitor: 19" minimum Hard Disk: One (1) TB	Adobe Premiere Pro
Digital Video Editing	CD-ROM / DVD-ROM: In all PCs	- Autodesk 3DS Max - Adobe After Effects
3D Modelling, Texturing and Animation	Speaker Headset: In all PCs	All of the above
Post Production & Composition	Networking/Adapter: 10/100 Mbps network card connected to LAN	

Practical Project & Portfolio Development		
Course: Enterprise Systems Analysis & Design with C#.NET (ESAD-C#.NET)		
Computer Fundamentals	Lab Workstations: 16 PC, Core i5 (6th generation), 3 GHz or higher, 4 MB L2/L3 cache or higher, or equivalent, 8GB of free RAM, DVD-ROM, 200 GB or more of free OS partition, 18.5" Monitor and 128 MB video Memory, Microsoft DirectX 9 graphics device with WDDM driver should be capable of displaying at least 1366 x 768 pixel resolution, Mother Board Must be supported Client Hyper-V in 32 bit colour Servers: At least Core i5 (6th generation), 3.4 GHz, 4 MB L2/L3 cache or higher, or equivalent, 8GB of free RAM, DVD-ROM, 200 GB or more of free OS partition, 19" Monitor and 128 MB video Memory, Microsoft DirectX 9 graphics device with WDDM driver should be capable of displaying at least 1366 x 768 pixel resolution, Mother Board Must be supported Client Hyper-V in 32 bit colour Power Conditioning: Full UPS and generator support for all PCs and servers (including monitors & projector) is a critical requirement; Power Conditioning: Full UPS and generator support for all PCs and servers (including monitors & projector) is a critical requirement;	Windows 10 Pro, SQL Server 2016 Enterprise Edition, Visual Studio 2017 Professional, Microsoft Visio 2016 Professional, MS Office 2016 Professional, SQL Server Management Studio 2016 Enterprise, Internet Explorer 11.0 or above, IIS 10 or above
Design and implement databases with MS SQL Server 2016 EE		
Programming with C# and .Net 4.6.1		
OOSAD with UML using MS Visio and MS Visual Studio		
Programming in HTML5 with JavaScript & CSS3		
Introduction to XML & Reporting		
Web Application Development with ASP.NET Web Form		
Developing ASP.NET MVC 5 and ASP.NET Core Web Applications		
Developing Web APIs, Windows Azure and Web Services		
Advanced Web Application Development with AngularJS and SignalR		
Course: Database Design and Development (DDD)		
Computer Fundamentals	Lab Workstations: 16 PC, Core i5 (6th generation), 3 GHz or higher, 8 GB of free RAM, DVDROM, 50 GB or more of free hard-disk space in one partition, 18.5" Monitor and 128 MB video Memory should be capable of displaying at least 1024x768 resolution in 32-bit colour Servers: Same as above configuration Power Conditioning: Full UPS and generator support for all PCs, monitors and servers (including projector) is a critical requirement; Power Conditioning: Full UPS and generator support for all PCs, monitors and servers (including projector) is a critical requirement; Network & Internet: All PCs should be connected in a network environment	MS Office 2016, Windows 10 Pro, Oracle 11g Database Server Rel 2 Enterprise Edition, Oracle 11g Developer Suite, Enterprise Edition, Oracle Application Express 5.0 Deployment Note: The Oracle DB server should run from a suitably configured server PC
Programming Practices & Techniques with Database Fundamentals		
Oracle Database 11g: SQL		
Oracle 11g: Program with PL/SQL		
Oracle Forms Developer: Build Internet Applications		

Oracle Report Developer: Build Reports	(LAN) with the required servers, Internet access (5 Mbps) in all PCs in the lab; Instructional Display: Multimedia Projector	
Oracle Database 11g: DBA		
Oracle Application Express		
Course: Enterprise Systems Analysis and Design with JEE (ESAD-JEE)		
Computer Fundamentals	Lab Workstations: 16 PC, Core i5 (6th generation), 3 GHz or higher, 8 GB of free RAM, DVD-ROM, 50 GB or more of free hard-disk space in one partition, 18.5" Monitor and 128 MB video Memory should be capable of displaying at least 1024x768 resolution in 32-bit colour Servers: Same as above configuration Power Conditioning: Full UPS and generator support for all PCs, monitors and servers (including projector) is a critical requirement; Network & Internet: All PCs should be connected in a network environment (LAN) with the required servers, Internet access (5 Mbps) in all PCs in the lab; Instructional Display: Multimedia Projector.	Windows 10 Pro, MS Office 2016, Dreamweaver CS3, Oracle 10g Enterprise Ed. JAVA 8 (JDK), Servlet API, Servlet and JSP Documentation, Java Web Services Developer, NetBeans IDE 8.1 or above, Apache Tomcat Webserver for Servlet & JSP, Microsoft Office Visio 2010 and Android Studio
Web Publishing		
Database Development using Oracle 11g		
Object Oriented Programming using JAVA		
Software Development using JAVA and XML		
O-O System Analysis and Design using UML		
Server-side Programming using Servlets, JSP, JSTL, Hibernate, Prime Faces, Angular JS		
Spring, Jasper Reports		
Mobile Application Development with Android		
Course: Networking Technologies (NT)		
Computer Fundamentals	PCs with a minimum configuration of Core i5 (6 th generation) or higher (64-bit compatible, Hyper-V Supported) or Equivalent with 3 GHz or higher along with the following components: 16 GB or higher RAM, 100 GB System Partition, NIC cards, RJ45 connectors, UTP/STP cables, HUB/Switch, at least 5 wireless NIC card, crimping tool, cable tester. Monitor: 18.5 " minimum; Power Conditioning: Full UPS and generator support for all PCs, monitors and servers (including projector) is a critical requirement; Network & Internet: All PCs should be connected in a network environment (LAN) with the required servers, Internet access (5 Mbps) in all	MS-Office 2016, Windows 10 Professional, Windows Server 2012 Release 2, Microsoft Exchange 2013, Red Hat Enterprise Linux 7
Hardware Fundamentals		
Data Communication Systems		
Administering and Configuring Microsoft Windows 10		
Installing and Configuring Windows Server 2012		
Administering and Managing Windows Server 2012		
Configuring Advanced Windows Server 2012 Services		
Installing & Configuring Microsoft Exchange Server 2013
