

CYBER SECURITY SOLUTIONS

INTELLEX LIMITED

Trusted Cybersecurity Solutions For Businesses

The management of all facets of our business operations, from project management and quality control to team member training and development, is carried out by a group of seasoned cybersecurity experts. Our flat organizational structure fosters innovation, cooperation, and a commitment to providing outcomes for our clients.

We have teams at Intellex Limited that are focused on various aspects of cybersecurity, such as penetration testing, web Pretesting, Vulnerability assessment, Red Teaming, and cyber security training. Our teams are managed by seasoned experts with industry-recognized certifications, including OSCP, OSEP, OSWE, OSED, OSCE3, Pentest+, CNVP, and Security+. Please see below for more about him.

Experience

With a strong foundation in cybersecurity, Intellex Limited has been delivering exceptional services since 2010 by our associate company RedNode Service Ltd. Over the years, our team has honed its expertise, combining years of experience with cutting-edge equipment and methodologies. While we have been providing cybersecurity services globally since 2010, With the aim to secure Bangladesh's IT Infrastructure, our official presence in Bangladesh as a dedicated platform began in 2022.

Our extensive experience encompasses various areas of cybersecurity, including Penetration Testing, Vulnerability Assessment, Red Teaming, and compliance. We have successfully served clients across diverse sectors, including technology, e-commerce, healthcare, and finance.

We at Intellex ltd are dedicated to staying on the cutting edge of the market by constantly absorbing and using the most recent advancements in cybersecurity trends and technology. We take pleasure in providing state-of-the-art and efficient solutions and are dedicated to assisting our clients in achieving their security goals.

Because we are flexible and adaptable, we can quickly adjust to the shifting needs and demands of our clients. We have created specialized solutions to assist startups and small businesses in protecting their digital assets and reducing risks since we are aware of the special issues that they confront when it comes to cybersecurity.

Intellex Limited is thrilled to be a part of the cybersecurity sector and looks forward to providing our clients with great services, developing lasting partnerships, and assisting them in realizing their business goals.

Expertise & Services

We at Intellex Limited are experts in offering a wide variety of cybersecurity services. We are dedicated to providing our clients with the finest caliber services, and our team of professionals has vast experience in these fields. Our expertise and services are:

Penetration testing:

Our team members are adept at carrying out thorough penetration testing to find potential weaknesses in the networks, applications, and systems of our clients. In order to replicate actual threats, we combine manual and automated testing methodologies. We then present our clients with relevant insights and remedial Suggestions.

Web Application Testing:

With the aid of our Web pentesting services, our clients are able to locate and fix vulnerabilities in their web applications. Our team members do a complete assessment of the program using both manual and automated techniques, including finding typical web application vulnerabilities like Cross-Site Scripting (XSS), SQL injection, and File Inclusion issues.

Vulnerabilities Assessment:

Our vulnerability assessment services allow our clients to detect and rank the vulnerabilities in their systems and applications. To complete a thorough evaluation, give our clients a prioritized list of vulnerabilities, and recommend repairs, our team members combine scanning tools and manual testing methods.

Red Teaming:

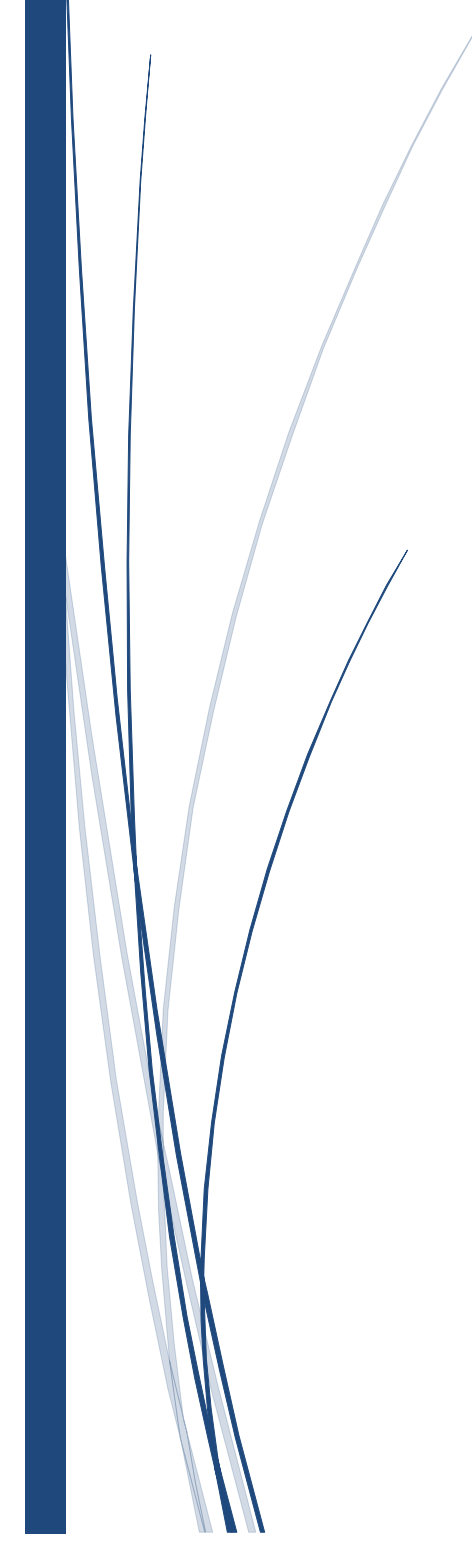

Our skilled professionals excel at conducting Red Team exercises to simulate real-world cyber threats and attacks. By mimicking the tactics, techniques, and procedures of potential adversaries, we help our clients identify potential vulnerabilities in their defenses. Through this adversarial approach, we provide valuable insights and recommendations to enhance their overall security posture.

Internal Security Testing:

We understand the significance of internal security, which is why we offer specialized testing services to evaluate our client's internal systems and infrastructure. Our team conducts meticulous assessments using manual and automated techniques to identify potential security weaknesses within the organization. This enables our clients to fortify their internal security measures and prevent insider threats.

Training: In order to assist our clients in strengthening their internal capabilities and ensuring that their staff is knowledgeable about the most recent cybersecurity risks and best practices, we also offer cybersecurity training to them. Our training courses include a variety of subjects, such as cybersecurity awareness, incident response, and secure coding standards, and are specifically designed to meet the needs of our clients.

Through our proficiency in penetration testing, web pentesting, vulnerability assessment, and cybersecurity training, Intellex Limited is dedicated to providing our clients with outstanding value. We are committed to keeping on the cutting edge of the market and always enhancing our offerings to satisfy the changing demands of our customers.

Certifications

We at Intellex Limited are proud of the knowledge and credentials of our workforce. Our staff members are certified in a range of fields, including:

Team Leader : <https://jobyer.me/>

OSCE3: Offensive Security grants the OSCE3 (Offensive Security Certified Expert) certification, which is considered the highest level final certification from Offensive Security and earned only after successfully passing 3 hard exams (OSEP, OSEP, OSWE) and regarded as one of the most difficult in the business. We are proud to mention that our team leader is the first OSCE3 from Bangladesh.

OSCP: The OSCP (Offensive Security Certified Professional) certification, which is given out by Offensive Security, attests to the holder's capacity to find and use various tools and techniques to attack vulnerabilities in target systems.

OSEP: The OSEP (Offensive Security Experienced Pentester) certification, which Offensive Security also gives out, evaluates a person's aptitude for performing sophisticated advanced penetration testing, exploit creation, AV/EDR Bypassing, Active Directory Exploitation, etc. **OSWE:** The OSWE (Offensive Security Web Expert) certification is given by Offensive Security and is intended to verify the holder's capacity to recognize and take advantage of web application vulnerabilities.

OSED: The OSED (Offensive Security Exploit Developer) certification is given by Offensive Security and is intended to verify the holder's capacity to recognize and take advantage of memory corruption vulnerabilities, reverse engineering for bugs, and developing custom shellcodes in assembly language.

Pentest+: This CompTIA certification is given to individuals who demonstrate proficiency in conducting penetration tests and vulnerability assessments.

CNVP: This CompTIA certification is given to individuals who demonstrate proficiency in conducting penetration tests and vulnerability assessments.

Security+: A CompTIA certification that measures a candidate's understanding of cybersecurity principles and best practices.

At Intellex Limited, we support our team members' continued professional growth since it helps us stay abreast of market trends and technological advancements.

Our Approach

We at Intellex Limited approach cybersecurity from a client-centric perspective. We believe in collaborating closely with our clients to fully grasp their distinct wants, goals, and difficulties before customizing our services to suit those demands. Our strategy is grounded in four major ideas:

Collaboration: Effective cybersecurity requires cooperation. We collaborate closely with our clients to comprehend their company goals and create solutions that are uniquely suited to their particular cybersecurity requirements.

Proactivity: We address cybersecurity in a proactive manner, keeping abreast of new threats and weaknesses. To lessen the vulnerability of our clients to cyber attacks, our team members regularly analyze the threat landscape, identify potential hazards, and design mitigation methods.

Transparency: We value open communication and openness with our customers. We give our clients regular updates on the progress of their projects and thorough reports on risks, vulnerabilities, and suggested corrective actions.

Constant Improvement: We are dedicated to enhancing the quality of our services and the knowledge and abilities of every team member. We frequently review our processes and practices to identify areas for improvement, and we spend money on our team members' ongoing training and development.

Our strategy is supported by an in-depth knowledge of the cybersecurity sector and the newest trends and technologies. In order to find vulnerabilities and give our clients meaningful insights and remedial suggestions, we combine manual and automated testing approaches.

Commitment to Quality

We at Intellex Limited are dedicated to offering our customers the best cybersecurity services possible. We are committed to upholding the highest standards of excellence in everything we do because we think quality is the cornerstone of our success.

We have put in place a strict quality assurance procedure that encompasses every facet of our business operations in order to guarantee the caliber of our services. Our procedure entails the following:

Quality Control:

We have specialized staff inspecting and approving each team member's work. This guarantees that our work satisfies the highest standards of quality and complies with the demands of our clients.

We frequently evaluate our processes, practices, and tools to find areas for development since we are dedicated to constant progress. To keep our team members abreast of the most recent developments in technology and industry trends, we also make regular investments in their training and development.

Feedback from clients is important to us, and we constantly work to make our services better. We actively solicit client input, which we then use to pinpoint areas for development and confirm that we are fulfilling their demands.

We at Intellex Limited are committed to providing our customers with the best services possible. Our dedication to excellence is evident in everything we do, and we are pleased with the reputation we have built for providing cutting-edge, efficient, and dependable cybersecurity solutions.

Company growth

OUR MISSION

Revolutionizing Business Intelligence for Strategic Success

At Intellex Ltd., our mission is to empower businesses of all sizes to harness the full potential of their data. Through our comprehensive suite of analytics tools, consulting services, and educational resources, we strive to democratize access to business intelligence, enabling our clients to make informed decisions with confidence.

Data Empowerment

Innovative Solutions

Strategic Enablement

OUR SERVICES

Data Archiving Solutions Safeguarding Your Data Assets

At Intellex Ltd., we understand the importance of preserving your organization's valuable data assets. Our data archiving solutions offer a secure and efficient way to manage and protect your data, ensuring compliance with regulatory requirements while optimizing storage resources.

SERVICE HIGHLIGHTS

Tailored Strategies

Customized archiving strategies aligned with your business objectives and compliance needs.

Smart Data Assessment

Identification and classification of critical data assets based on value and sensitivity.

Seamless Implementation

Deployment of robust archiving platforms for smooth integration and data migration.

Compliance Support

Expert guidance on regulatory compliance, data privacy, and legal requirements.

Efficient Lifecycle Management

Automated tools for data ingestion, storage, retrieval, and disposal.

Robust Security Measures

Encryption, authentication, and access controls to safeguard your archived data.

OUR SERVICES

Fortify Your Defenses Cybersecurity Solutions by Intellex

In today's digital landscape, protecting your organization from cyber threats is paramount. At Intellex Ltd., we offer comprehensive cybersecurity solutions to safeguard your business against evolving threats and vulnerabilities.

SERVICE HIGHLIGHTS

Tailored Security Strategies

customized cybersecurity strategies to address your unique risks and challenges.

Secure Network Architecture

Design and implementation of robust network architectures with built-in security features.

Employee Training and Awareness

Training programs to educate employees on cybersecurity best practices and promote a culture of security awareness.

Incident Response Planning

Preparation and implementation of incident response plans to minimize the impact of cyber incidents.

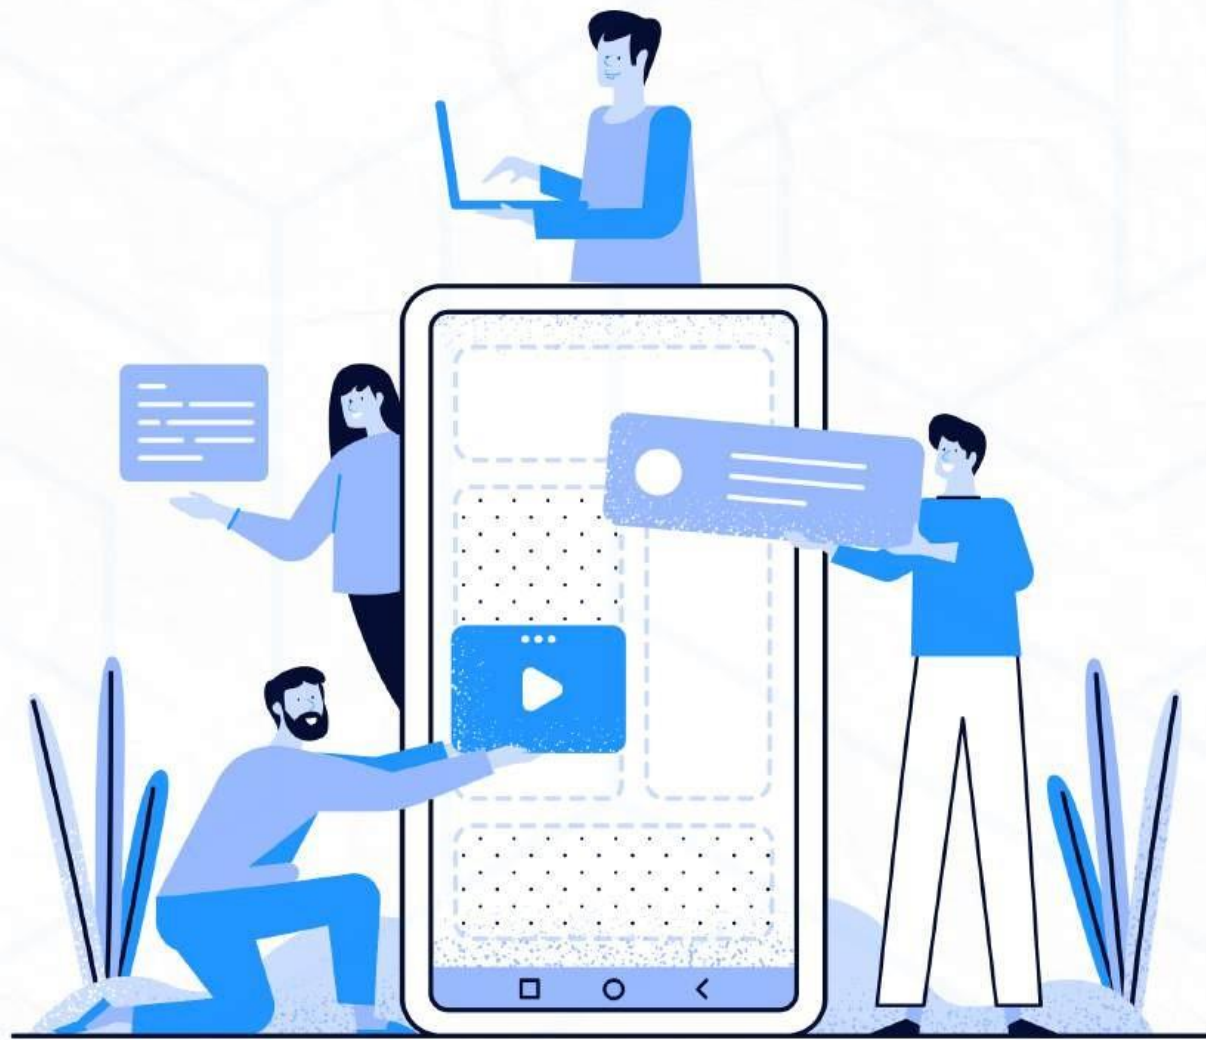

Proactive Threat Detection

Advanced tools and techniques for early detection and mitigation of cyber threats.

Continuous Monitoring and Compliance

Ongoing monitoring of network activity and compliance with industry standards and regulations.

OUR SERVICES

Elevate Your Digital Presence Web and Software Development

In the digital age, a strong online presence is essential for success. At Intellex Ltd., we specialize in crafting tailored website and software solutions to help businesses thrive in the digital landscape.

SERVICE HIGHLIGHTS

Custom Website Development

Design and development of bespoke websites tailored to your brand identity and business goals.

E-commerce Solutions

Creation of secure and user-friendly e-commerce platforms to drive online sales and revenue.

Mobile App Development

Development of intuitive and feature-rich mobile applications to engage customers and enhance user experiences.

Software Development

Custom software solutions to streamline business processes, improve efficiency, and drive innovation.

Content Management Systems (CMS)

Implementation of scalable and easy-to-manage CMS platforms for seamless content updates and publishing.

User Experience (UX) Design

Focus on intuitive user interfaces and user experiences to enhance customer satisfaction and engagement.

OUR APPROACH

Data-Driven Excellence

INTELLEX CLIENT CENTRIC APPROACH

At Intellex Ltd., our commitment to data analytics is rooted in a holistic, client-centric approach. We prioritize strategic alignment, agile methodology, and continuous improvement to ensure tailored solutions that drive long-term success.

01

Strategic Alignment

We prioritize understanding our clients' business objectives to ensure our solutions align with their strategic priorities.

02

Agile Methodology

We utilize agile principles, enabling us to deliver solutions iteratively and adaptively in response to evolving business needs.

03

Continuous Improvement

Through ongoing collaboration and feedback, we refine our solutions to maximize value for our clients.
