Managed IT Has Never Been Simpler

If your business is looking for Managed IT & Support Services, Wheelhouse Solutions has a staff of experienced professionals to deliver outstanding results. We provide cost-efficient Managed IT Services, backed by a professional IT Staff, with experience in multiple disciplines. Whether you're looking to augment your existing IT staff, or if your business wants to outsource all of your IT services, we have a flexible solution to meet your needs.

Wheelhouse stands out uniquely with our managed IT clients because of our commitment to not only provide proactive management and support, but also to manage Security and Compliance requirements for our client's IT infrastructure. Our team stays up-to-date on the latest technologies, the management of security around

the latest technologies, as well as how that's affected by the compliance requirements of our client's industry.

Businesses like yours, throughout the St. Louis area, trust Wheelhouse Solutions to manage their IT services, so that they can run their businesses. Wheelhouse Solutions can structure your IT, support your employees and protect your valuable data, all at a lower cost than hiring a full-time IT staff.

Wheelhouse Solutions Provides:

Local Technicians

Wheelhouse Solutions' local technicians are our "boots on the ground", and faces you'll see in the office. Our technicians are not only skilled in various aspects of IT, but also understand the importance of communication to ensure our clients understand what's going on when they're on site.

NOC Team

Wheelhouse Solutions' NOC team consists of certified experts in Windows, Linux, MS SQL, MySQL, Oracle, networking, virtualization and security. Our NOC team communicates directly with our Help Desk and on-site technicians to ensure a team-based approach to managing your network.

Help Desk Team

Wheelhouse Solutions' Help Desk team is North-American-based and all user support technicians are native English speakers. As well, 80% of incidents are resolved on the first call, to get you back to work, fast. As with our NOC, our Help Desk team communicates directly with our on-site technicians to ensure complete continuity of problem resolution.

Support Staff

Our support staff consists of local technicians, operations, and accounting team members that provide back-end business support to ensure our senior technicians are able to stay focused on managing your network.

Our Potential Clients :

Our target businesses include mid-sized companies in the readymade garment industry, process and discrete manufacturing, retail, healthcare and government in Bangladesh.

We also aim the international clients by delivering consulting and services in the area of cloud migration, offshore development, training, supply of human resources and testing.

Intellier Company Overview:

Intellier partners with its clients becoming part of their support team. We work beside you to ensure you have a strategy that allows you to transform your Information infrastructure to keep up with the needs of your organization and your users. We have developed proprietary tools and strategies that have enabled us to lower cost and increase the quality of service to our client base, especially to state agencies, municipalities and school districts, where cost is a deciding factor in everyday decision making.

Our mission is simple – to take full ownership for all that we do, to protect those who trust in us, and to make lifelong clients from every customer contact.

Intellier offers a wide variety of IT solutions:

- Infrastructure Assessments and Deployments
- Server and End User Virtualization
- Strategic Information Technology Planning – organizational and infrastructure
- Server and Storage planning, installation and migration
- Cloud readiness planning
- Network design, implementation, staging and rollout – wired and wireless
- Enterprise Security services, including end-to-end Security Posture, Penetration Testing
- Asset management, prior to or during a hardware refresh cycle
- 24x7 HUBCare and Helpdesk support with the ability to place a service call around the

Our People are the Differentiator

Led by our highly skilled management team and staffed by a certified and trained sales and technical team, We provides IT support services for projects large and small, ongoing maintenance, or to supplement your staff. Our team of trained and certified engineers and technicians hold decades of experience in the technology industry, and we create an environment where education and training are paramount for our engineering and sales teams. They are available 24X7 for remedial support to ensure that you can support your users around the clock.
