

Details of Ongoing or Completed Projects of haveAsoft

We specialize in developing game templates and selling them on various portals such as CodeCanyon. You can explore our portfolio through the following link: <https://codecanyon.net/user/haveasoft/portfolio>.

We specialize in developing high-quality game templates that are sold on various platforms such as CodeCanyon. Below is a detailed list of our recent game projects and their features:

1. **Jump Tarzan** (Released on December 25, 2024):
A fun and engaging game where players control Tarzan as he jumps across various obstacles. This game is designed to provide an adventurous experience.
2. **Emoji Blush** (Updated on December 23, 2024):
A vibrant game centered around emojis, offering a colorful and dynamic puzzle-solving experience.
3. **Christmas Tic Tac Toe** (Updated on December 19, 2024):
A holiday-themed twist on the classic Tic Tac Toe game, featuring festive graphics and a user-friendly interface.
4. **Survival Pumpkin** (Updated on December 19, 2024):
A Halloween-inspired survival game where players navigate through challenges in a spooky setting.
5. **Find the Ball Game** (Updated on December 16, 2024):
A casual game focused on testing the player's observation skills by tracking a hidden ball.
6. **Santa's Gift Haul** (Updated on December 16, 2024):
A Christmas-themed game where players help Santa collect gifts, providing a festive and enjoyable gaming experience.
7. **Christmas Gift Unlock** (Updated on December 13, 2024):
A puzzle game where players solve challenges to unlock Christmas gifts.
8. **Christmas Gift Match** (Updated on December 13, 2024):
A matching game that combines holiday-themed elements with entertaining gameplay.
9. **Christmas Gift Jump** (Updated on December 13, 2024):
A fun and engaging game where players help Santa jump over obstacles to deliver gifts.
10. **Shape of Shadow** (Updated on November 28, 2024):
A visually appealing game that tests players' ability to match shapes and shadows.

In addition to our global presence, we have provided services to local companies such as Magic Image. Specifically, we have assisted them in promoting five of their games on the Google Play Store. This demonstrates our ability to deliver end-to-end game development and publishing services tailored to diverse client needs.
