About Green CyberSec Ltd.

Green CyberSec Ltd., founded in May 2024 with offices in both Bangladesh and the UK, is a forward-thinking cybersecurity company dedicated to safeguarding digital ecosystems. Specializing in a wide range of services including cybersecurity, IT audits, cloud security, DevSecOps, vulnerability assessments, blockchain technology, Web3, and digital forensics, Green CyberSec delivers cutting-edge solutions to address the complex security challenges of modern businesses. With a focus on innovation, trust, and resilience, the company empowers organizations to stay secure in an increasingly digital world, offering advanced protection for critical infrastructure, data privacy, and threat mitigation. Our expert team is committed to ensuring comprehensive security through customized services, risk assessments, and proactive defense strategies.

Mission, Vision, and Values

Mission: To provide innovative, end-to-end cybersecurity services that empower businesses to secure their digital operations and protect critical data using state-of-the-art technologies.

Vision: To become a global leader in cybersecurity, setting new standards for digital trust, privacy, and resilience, and contributing to a safer digital ecosystem.

Values:

- **Integrity:** Upholding transparency and ethics in all operations.
- **Innovation:** Continually adopting cutting-edge technologies to stay ahead of cyber threats.
- **Excellence:** Delivering high-quality, precise solutions that exceed client expectations.
- **Collaboration:** Working closely with clients and partners to achieve shared success.
- **Client-Centric Approach:** Personalizing solutions to address each client's unique security needs.
- **Continuous Learning:** Ensuring our team stays ahead with certifications and skills.
- **Resilience:** Designing solutions that enable rapid recovery and robust defenses.
- **Adaptability:** Evolving our strategies to meet the ever-changing cyber threat landscape.

- **Trust & Confidentiality:** Safeguarding client data with the highest level of confidentiality.

Comprehensive Service Domains

Cybersecurity Audits, Risk & Compliance

- Cybersecurity Audits
- Information Audits
- Compliance Audits (e.g., ISO 27001, NIST, GDPR, HIPAA, PCI-DSS)
- Third-Party Risk Management
- Cyber Risk Assessment
- Data Privacy & Data Loss Prevention
- Regulatory Compliance (GDPR, HIPAA, PCI-DSS, etc.)
- Risk Management Frameworks

Governance, Risk, and Compliance (GRC)

- Governance Frameworks & Policy Development
- Risk Management & Assessment
- Governance Risk and Compliance Audits
- Third-Party Vendor Risk Assessment
- Regulatory Change Monitoring & Advisory Services

Cloud Security & Governance

- Cloud Security Assessments
- Cloud Compliance (e.g., Cloud Security Alliance (CSA) framework)
- Cloud Migration Security Assessments
- Cloud Governance & Strategy
- Secure Cloud Architecture Design

Identity and Access Management (IAM)

- Identity Management & Authentication Audits
- Role-Based Access Control (RBAC) & Privileged Access Management (PAM)
- Zero Trust Architecture Design & Implementation
- Multi-Factor Authentication (MFA) Solutions

Threat Detection & Response

- Vulnerability Assessments & Penetration Testing
- DDoS Protection & Mitigation
- Security Operations Center (SOC) Services
- Threat Detection, Monitoring, & Incident Response
- Security Automation & Orchestration

Secure Software Development & DevSecOps

- Secure Software Development Life Cycle (SDLC)
- DevSecOps Implementation
- Application Security & Code Reviews
- Continuous Integration/Continuous Deployment (CI/CD) Pipeline Security
- API Security

Data Protection & Privacy

- Data Governance & Data Security Strategies
- Encryption & Tokenization Services
- Data Masking & Privacy Enhancing Technologies
- Data Loss Prevention (DLP) Solutions

Blockchain & Web3 Security

- Blockchain Security Audits
- Smart Contract Audits
- Decentralized Finance (DeFi) Security & Governance
- Web3 Security Solutions
- Distributed Ledger Technology (DLT) Security

Incident Response & Digital Forensics

- Incident Response Planning & Execution
- Forensic Investigations & Data Breach Analysis
- Disaster Recovery & Business Continuity Planning
- Post-Incident Remediation & Reporting

Network & Endpoint Security

- Network Security Audits & Penetration Testing
- Endpoint Security Management
- Secure Network Architecture Design
- Mobile Application Penetration Testing & Analysis

Managed Security Services

- Managed Detection and Response (MDR)
- Continuous Threat Monitoring & Management
- Security Operations Center (SOC) & 24/7 Threat Response
- Managed Cloud Security Services
- Patch Management & Vulnerability Remediation

Company History

Green CyberSec Ltd. was established in May 2024 to address the growing demand for specialized cybersecurity services across multiple sectors. With an expert team of audit, ethical hacker, cloud, cloud security and Kubernetes-certified professionals, we provide tailored security solutions to meet the diverse needs of businesses. Since its inception, the company has rapidly grown and expanded its service offerings, providing advanced security strategies for both private and public sectors.

Industry and Market Focus

We serve various industries, including telecommunications, finance, healthcare, government institutions, and e-commerce. Our clients rely on our expertise to strengthen their security posture, protect sensitive data, and ensure compliance with global standards.

Achievements and Milestones

- Established operations in both Bangladesh and the UK in 2024.
- Gained certifications in cloud security and Kubernetes.
- Successfully conducted cybersecurity audits and vulnerability assessments for major clients in the finance, telecommunications and healthcare sectors.

Team and Leadership

Our leadership team brings over 40 years of combined experience in cloud architecture, platform architecture, enterprise architecture, data architecture, cloud engineering, data engineering, BigData, AI/ML, software development, DevSecOps, Orchestration, Observability, SRE, telecommunication, InfoSec and IT Audit. Our certified professionals are leaders in their fields, providing top-tier services across cloud security, compliance, and emerging technologies like blockchain, web3 etc.

Client Portfolio

Green CyberSec Ltd. has worked with a diverse portfolio of clients, delivering exceptional cybersecurity solutions that drive measurable results. Our clients include leading organizations in finance, telecommunications, health and government sectors.

Location and Contact Information

- **Bangladesh Office:** Level-4, House# 30, Road# 11, Uttar Badda, Gulshan, Dhaka-1212.
- **Phone:** +8801712265047, +8801955000082, +44 20 8638 8732
- **Email:** contact@greencybersec.net
- **Website:** www.greencybersec.net

Corporate Social Responsibility (CSR)

Green CyberSec Ltd. is committed to promoting cybersecurity awareness and education within the community. Through collaborations with educational institutions and participation in industry forums, we aim to create a safer digital environment for future generations.

Strategic Goals

Looking forward, Green CyberSec Ltd. aims to expand its international footprint, leveraging AI-driven cybersecurity solutions and deepening its expertise in blockchain and Web3 security. We plan to build long-term partnerships with clients, providing them with scalable solutions that meet the cybersecurity challenges of tomorrow.
