

Nextera Software

Company Profile

Premium Software and ITES exporter from Bangladesh, serving U.S. SMBs and enterprise teams.

Core strengths: Frontend/Backend, DevOps-to-deployment, AI/Chatbots, Voice, Blockchain/Solidity, Trading APIs, CRM automations.

Company Overview

Who we are and what we do

Nextera Software is a Bangladesh-based software, ITES provider focused on high-reliability build-and-operate engagements. We specialize in AI voice chat automation, modern web backends, real-time communications, CRM pipelines, and cloud deployments. We deliver measurable ROI with an export-compliant, audit-ready process.
