SERVICES

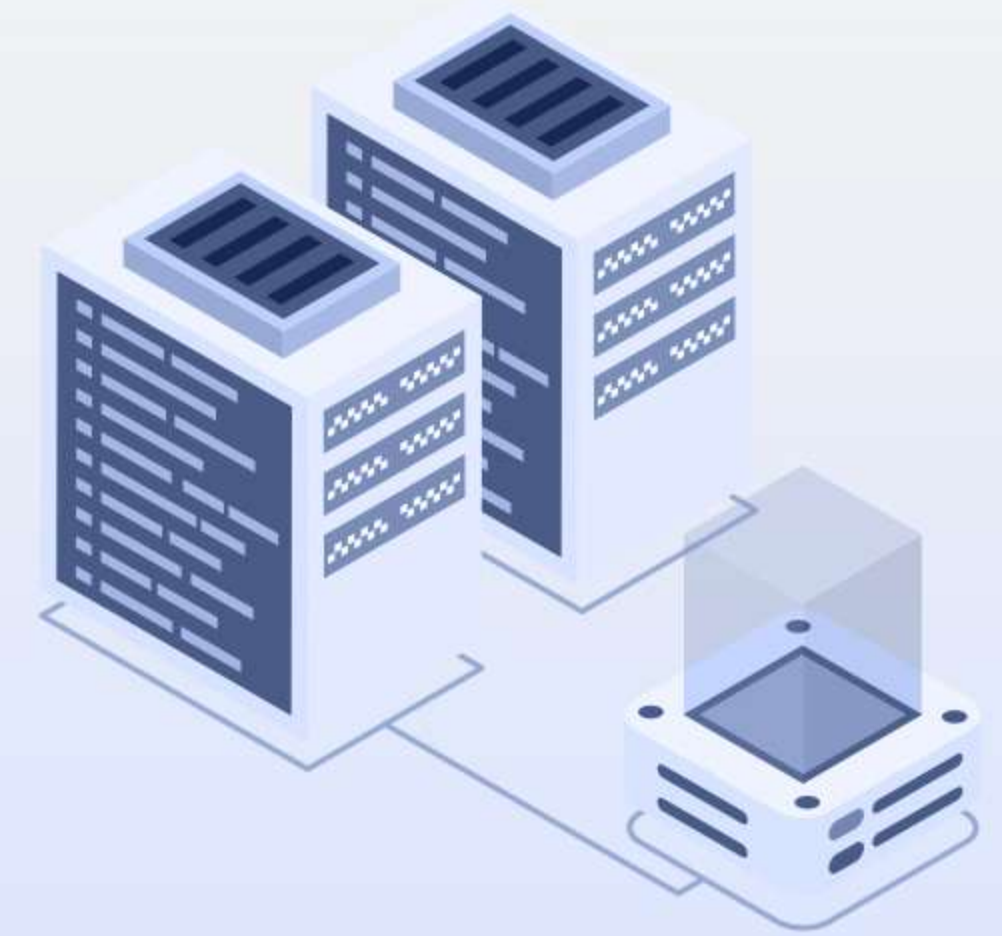

WI-FI SOLUTION

Providing reliable and high-performance Wi-Fi solutions to meet your connectivity needs

DATA CENTER

Offering secure and scalable data center services to support your business infrastructure

IP PA SYSTEM

Implementing advanced IP-based public address systems for efficient communication.

NETWORK SWITCHES AND ROUTERS

Delivering cutting-edge network equipment to ensure seamless connectivity.

SERVICES

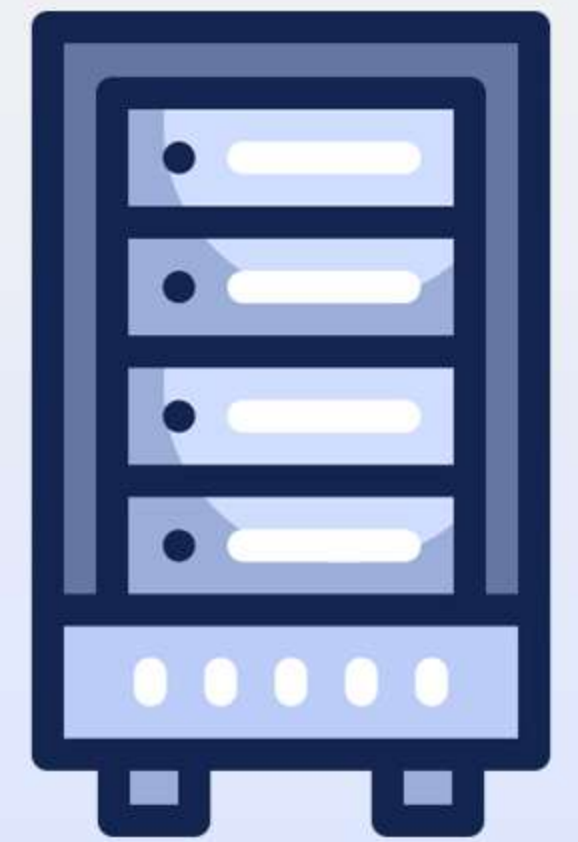

IOT SOLUTIONS

Integrating the latest Internet of Things (IoT) technologies to enhance your business operations.

NETWORK AND SERVER RACKS & PDU

Providing reliable and organized infrastructure for your IT

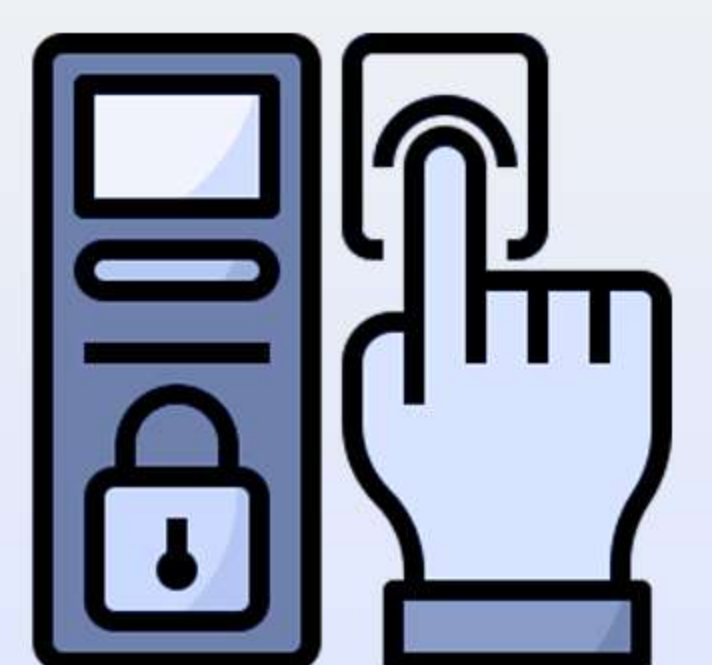

CYBERSECURITY SERVICE

Safeguard your organization against cyber threats with our cutting-edge solutions, ensuring comprehensive security at every level.

ACCESS CONTROL & EMS

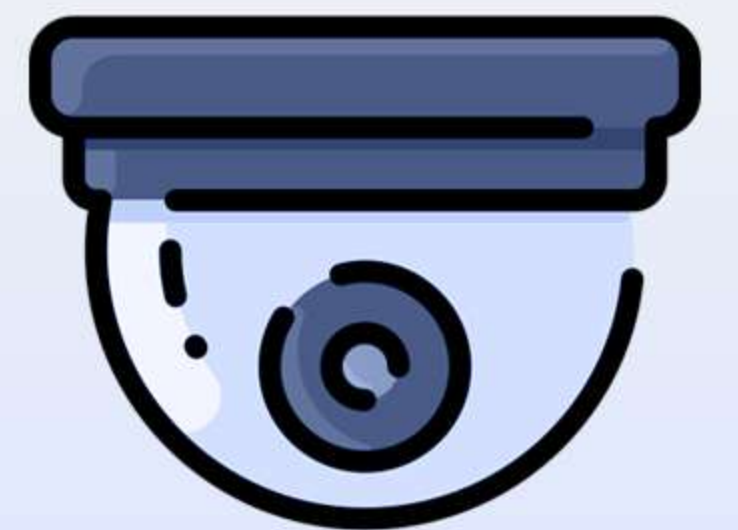

Implementing comprehensive access control and energy management systems for enhanced security and efficiency.

SERVICES

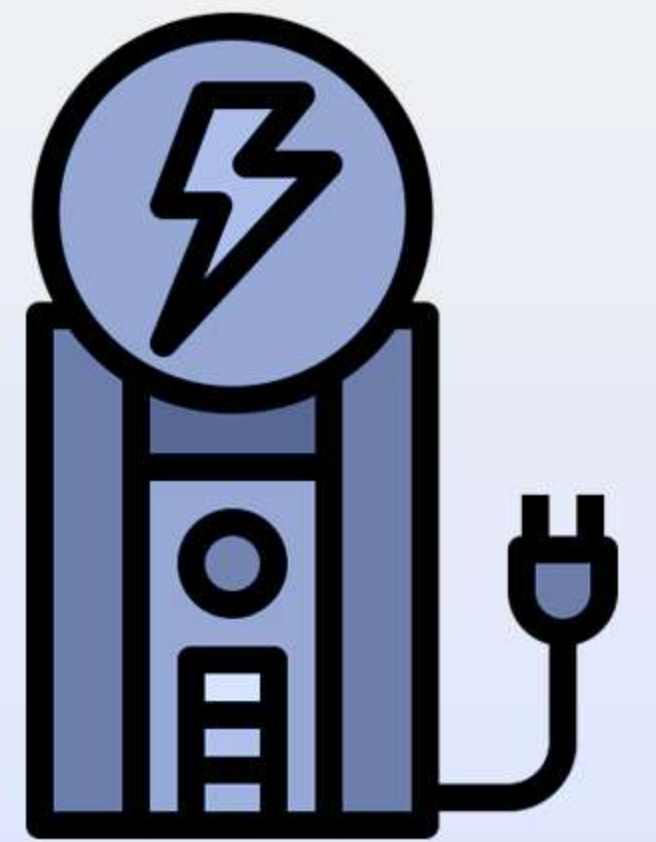

IP/CCTV SURVEILLANCE AND AUTOMATION

Deploying cutting-edge IP-based CCTV solutions for comprehensive surveillance and monitoring.

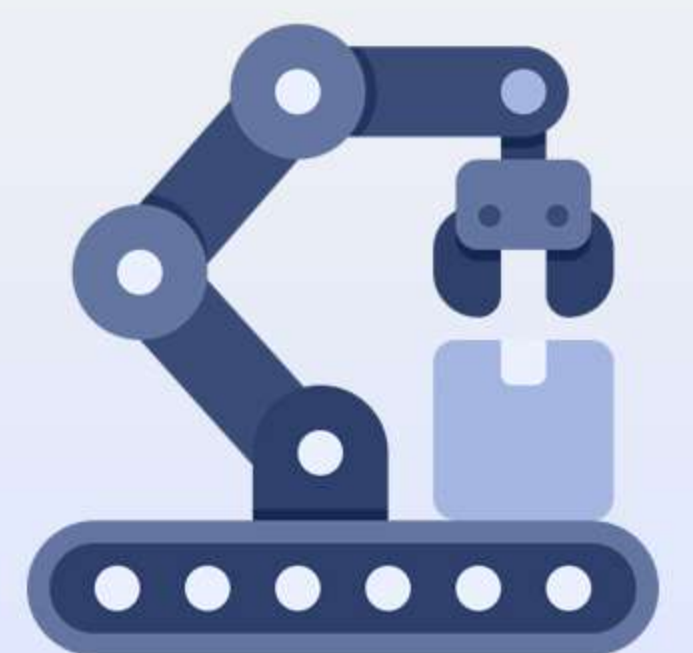

AVR, UPS & POWER CABLING SYSTEM

Delivering reliable power management solutions and high-quality cabling infrastructure.

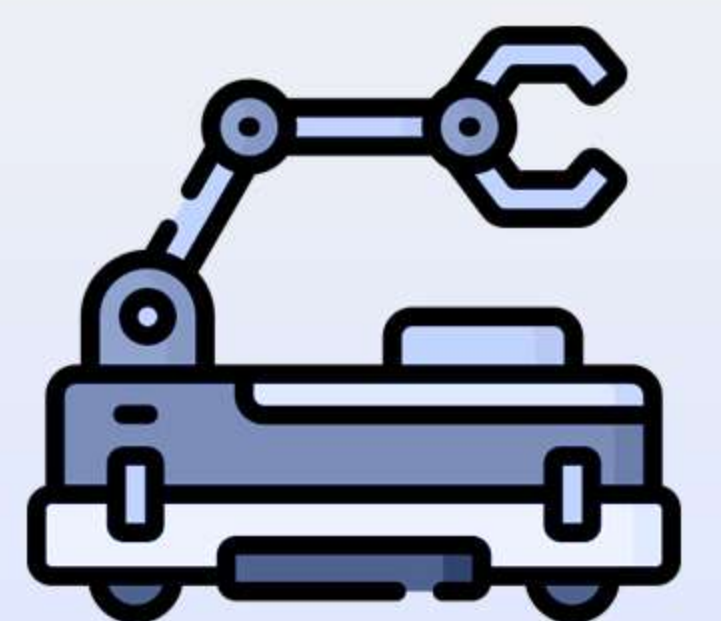

AUTONOMOUS MOBILE ROBOT (AMR)

Mobile robots in industry automate tasks like transport, inspection, and assembly, boosting efficiency, reducing costs, and enhancing safety in factories and warehouses.

AUTOMATED GUIDED VEHICLE (AGV)

Mobile robots in industry automate tasks like transport, inspection, and assembly, boosting efficiency, reducing costs, and enhancing safety in factories and warehouses.

SERVICES

ERP & POS

ERP integrates business processes for efficiency, while POS manages sales transactions and customer interactions. Together, they streamline operations and improve business performance.

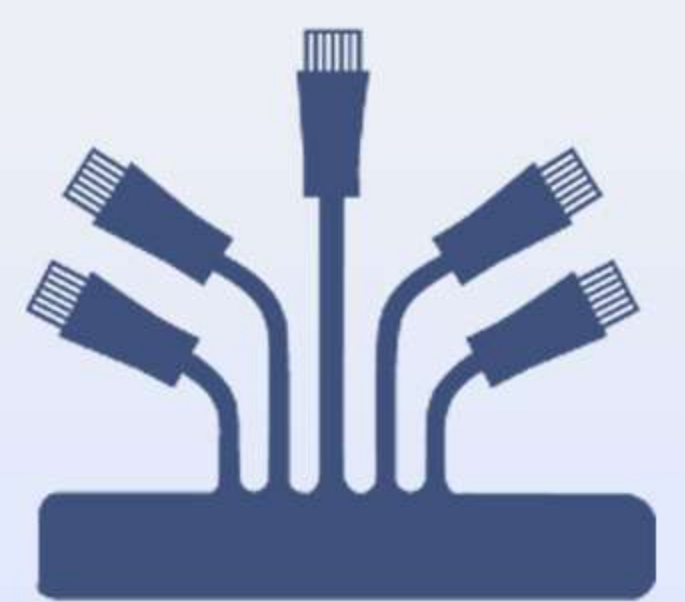

SMART DISPLAY & DIGITAL SIGNAGE

Smart displays are interactive screens that engage, while digital signage delivers information and advertisements on electronic displays. Together, they enhance communication and engagement in retail, corporate, and public spaces.

STRUCTURED CABLING

Designing and installing professional-grade structured cabling systems for optimal network performance.

IP TELEPHONY

Transform your organization's communication landscape with our advanced IP telephony solutions, fostering seamless collaboration and productivity among your teams

SERVICES

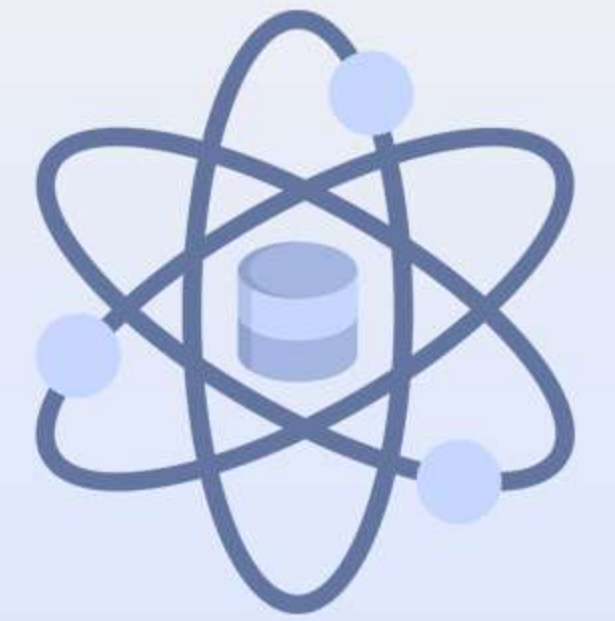

DATA ENGINEERING

From siloed to streamlined we help you to unlock hidden opportunities in your data to make faster, smarter decisions.

DATA SCIENCE

Data science unifies statistics, data analysis, machine learning, AI, and related methods to help you understand and analyze real-world phenomena through data.

DATA STRATEGY AND ARCHITECTURE CONSULTING

Utilize data strategy and architecture consulting services to streamline your data management and access, backed by a strategic plan and infrastructure designed to deliver faster, data-driven insights.

DECISION INTELLIGENCE AND ANALYTICS

We help you access daily updated reports for VPs and decision-makers, featuring professional dashboards filled with analytical KPIs.

SERVICES

BIG DATA ANALYTICS

Unlock actionable insights and drive profitability with SINO SSC big data analytics services.

ENTERPRISE SOLUTIONS

With the enormous growth in upper-layer services and data, networks require additional nodes to be deployed.

BUSINESS INTELLIGENCE

With the enormous growth in upper-layer services and data, networks require additional nodes to be deployed.

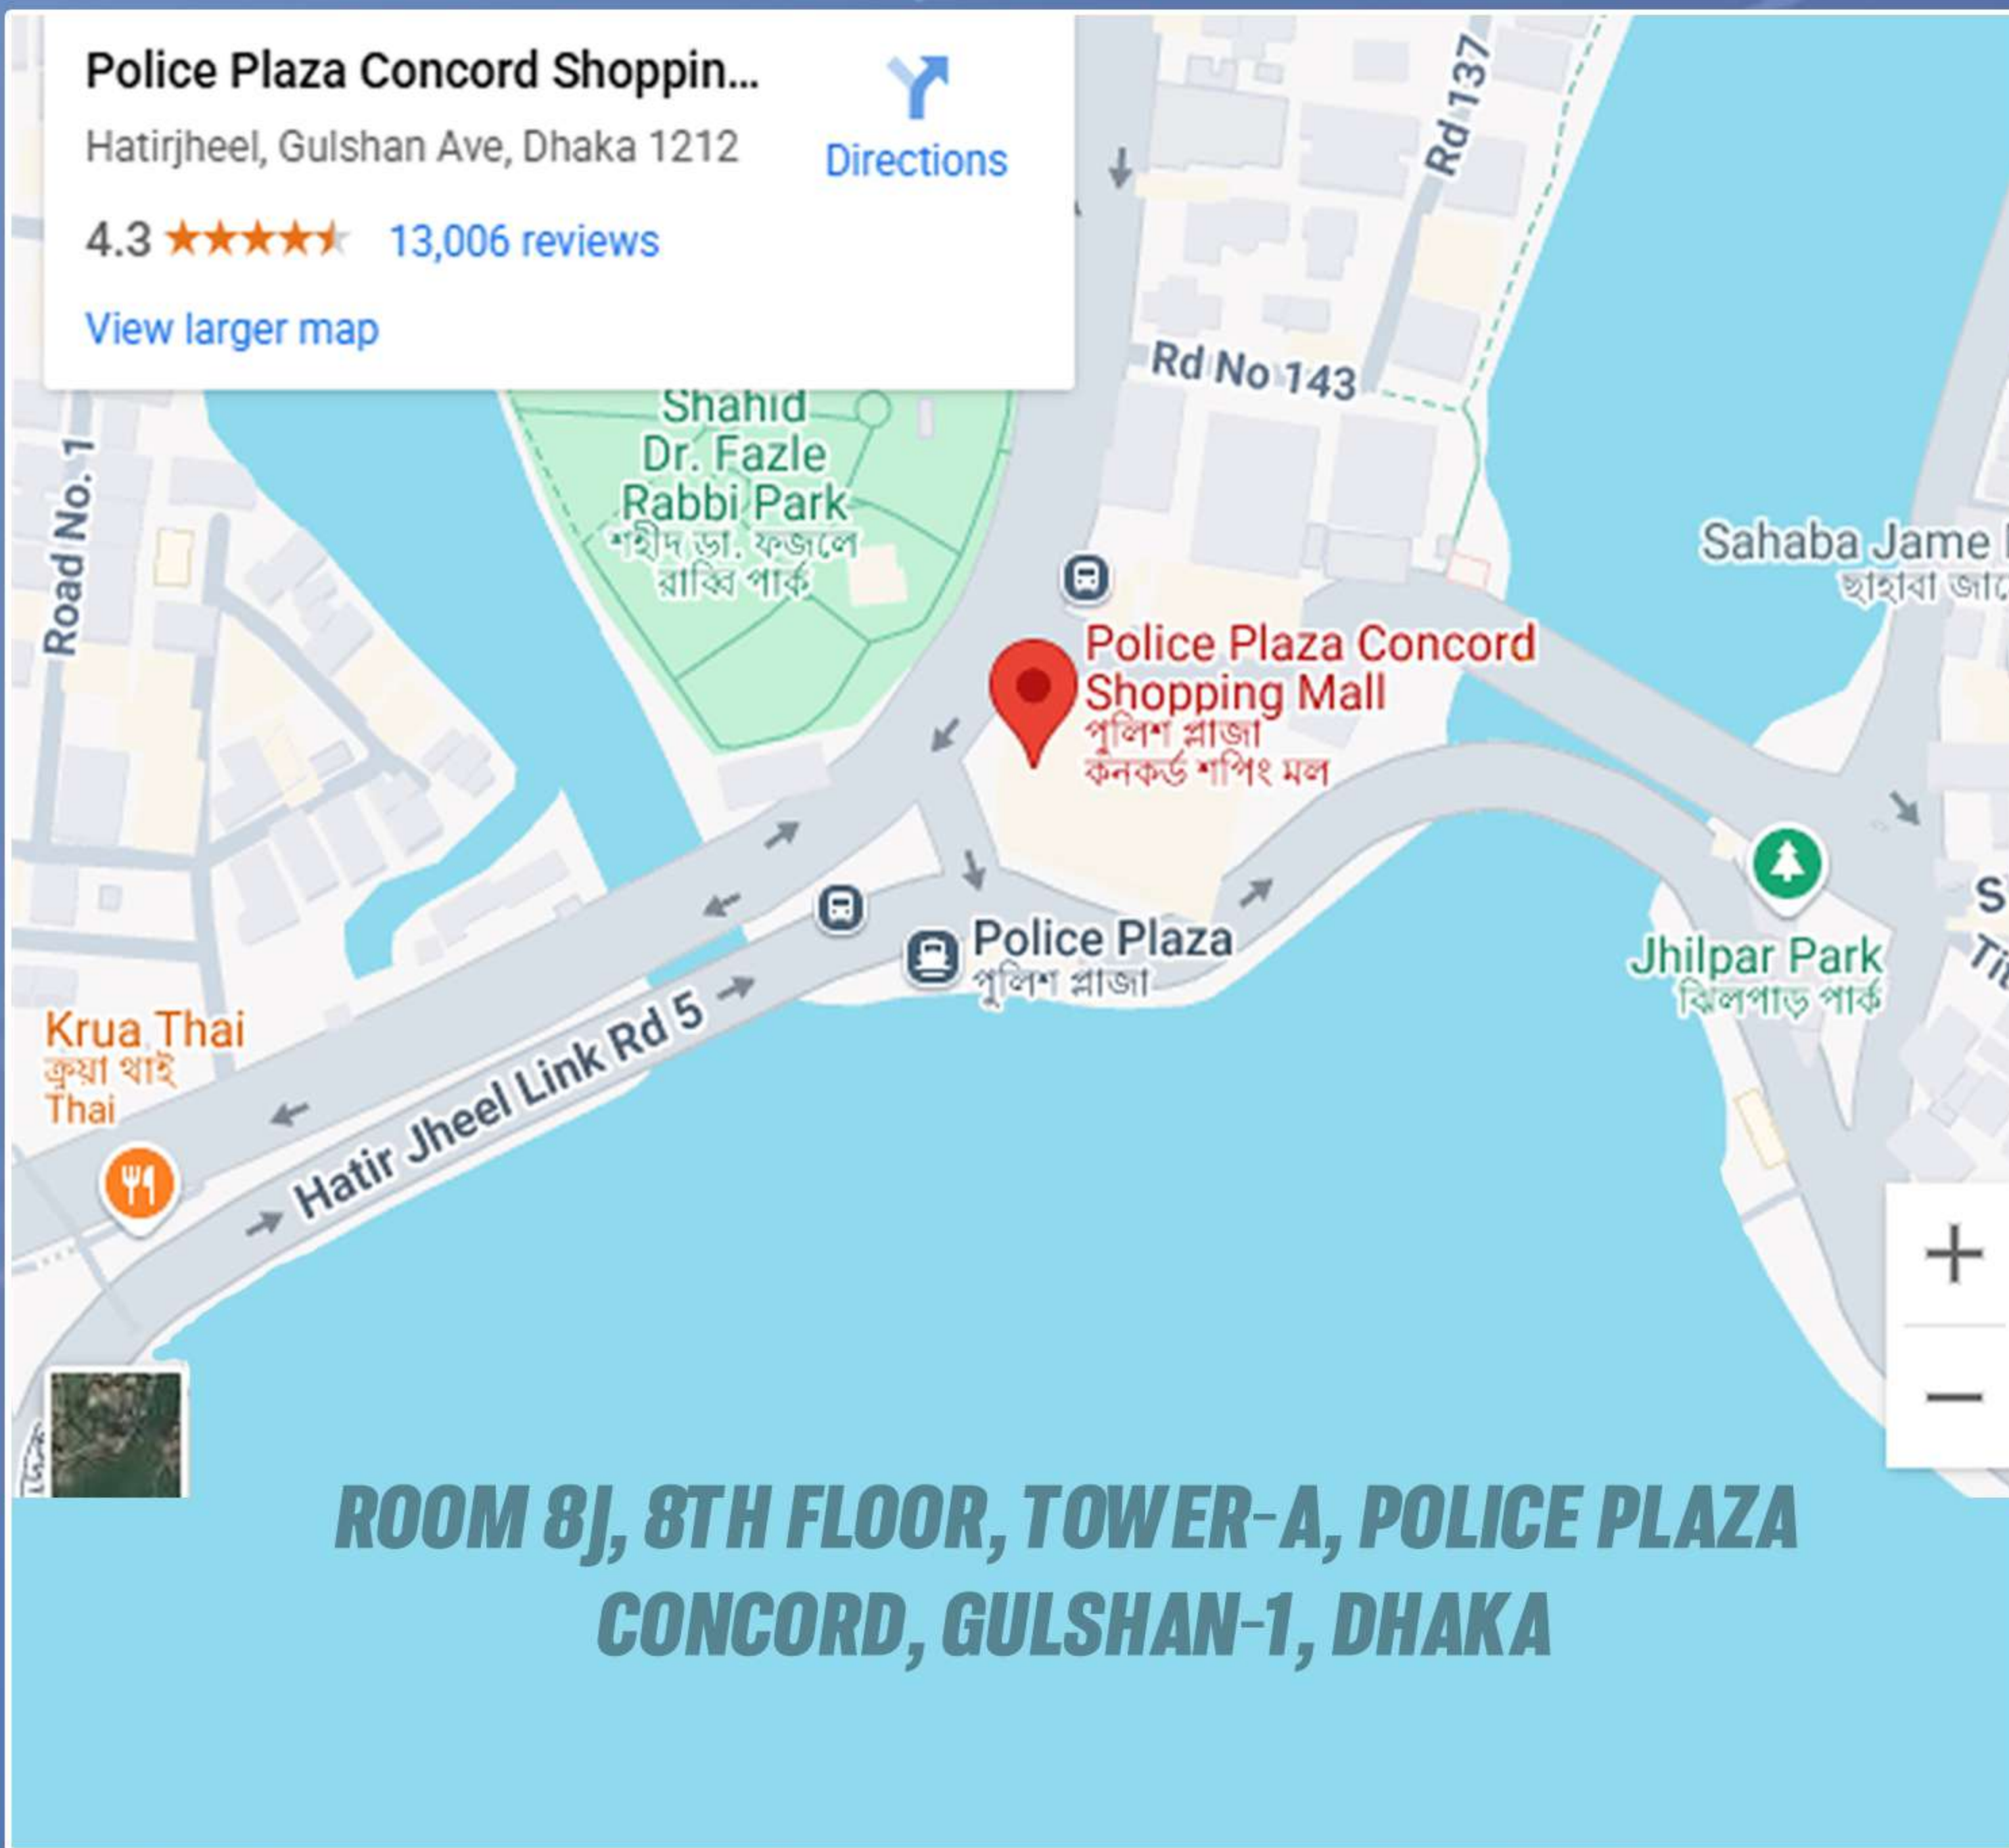

INDUSTRY REVOLUTIONS 4.0

With the enormous growth in upper-layer services and data, networks require additional nodes to be deployed.
