COMPANY PROFILE

Data State Ltd.

OVERVIEW Data State Ltd. is a newly incorporated, forward-thinking technology company based in Bangladesh. Our primary goal is to provide cutting-edge IT solutions and engineering services. Strategically positioned to foster digital transformation, the company is committed to delivering high-end software innovation, robust telecommunication infrastructure, and quality hardware manufacturing to meet both local and global demands.

CORE BUSINESS ACTIVITIES

- **Software Development & Export:** Focusing on custom application development, enterprise software solutions, and high-quality software export services.
- **Hardware Manufacturing:** Equipped with plans for manufacturing and assembling computers, laptops, mobile devices, and related technological components.
- **IT Enabled Services (ITES):** Our service roadmap includes Business Process Outsourcing (BPO), Graphic Design, Data Entry, and high-quality Media Services.
- **Telecommunications & Infrastructure:** Specialized focus on establishing VSAT systems, satellite communication networks, and modern telecommunication towers.
- **Digital Media & Content:** Operating digital news portals, e-publications, and production of films, dramas, and commercial advertisements.

TECHNICAL EXPERTISE & INNOVATION

- **System Integration:** Expertise in IT consultancy and integrating complex information systems for businesses.
- **Research & Development (R&D):** We maintain a dedicated focus on scientific research and publishing journals to stay at the forefront of technological advancements.
- **Engineering Solutions:** Providing CAD/GIS mapping, 2D/3D animation, and sustainable green technology solutions.

VISION & MISSION

- **Vision:** To become a global leader in integrated technology solutions by pioneering innovations in software and hardware manufacturing, contributing to a smarter, connected digital world.
- **Mission:**
 - To build international standard software and hardware products.
 - To establish state-of-the-art telecommunication networks across the region.
 - To deliver top-tier IT-enabled services by leveraging the latest technology.
 - To foster an environment of continuous R&D to drive the ICT sector's growth in Bangladesh.

MANAGING DIRECTOR'S MESSAGE As a new venture, Data State Ltd. is dedicated to utilizing our technical expertise to provide excellence to our clients. Our enrollment with BASIS signifies our commitment to the highest professional standards in the Bangladeshi ICT industry.

Mohammed Mannsif Siddiqui
Managing Director
Data State Ltd.
