- ✓ Retail, Trading & Distribution
- ✓ Footwear, Garments, and SME Businesses

Our solutions are designed with flexibility so they can be adapted across multiple industries without compromising performance or compliance.

6. Technology & Expertise

We use modern and reliable technology stacks aligned with current industry standards. Our team emphasizes clean architecture, data security, and scalability. Continuous learning and improvement are embedded in our development process to ensure our solutions remain future-ready.

Key strengths include:

- Modular software architecture
- Secure data handling practices
- User-friendly interface design
- Scalable systems for business growth

7. Management & Team

The company is led by professionals with experience in software development, business analysis, and enterprise solution design. Our team consists of developers, analysts, and support professionals who work collaboratively to understand client requirements and deliver effective solutions.

We believe that strong teamwork, ethical practice, and continuous improvement are the foundation of sustainable growth.

8. Quality & Commitment

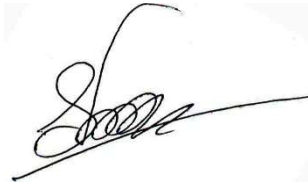

iTech Velocity is committed to maintaining high standards of quality, professionalism, and service delivery. Every project is handled with structured planning, documentation, testing, and post-deployment support to ensure long-term reliability.

9. Future Growth Plan

The company aims to expand its product portfolio, strengthen research and development, and explore emerging technologies such as AI-assisted automation, data analytics, and cloud-native systems. We also plan to collaborate with industry bodies, partners, and associations like BASIS to contribute to the international IT ecosystem.

10. Declaration

We hereby declare that the information provided in this company profile is true and accurate to the best of our knowledge. This profile is prepared exclusively for BASIS membership purposes and reflects the original work and business identity of the company.
