To Whom It May Concern

This is to certify that **PADAKHEP ICT**, S. Tower, House 28/01, West Tejguri Bazar, Tejgaon, Dhaka-1215, Bangladesh completed the Network Infrastructure Development work for ARANI Advertising Ltd. Kawranbazar office (7th floor) successfully on **31st October 2024**. The notification award was **bdt 7,86,000 (taka seven lac Eighty-Six thousand only)** against work order, date: **23rd August 2024**.

Their service is organized, timely, of high quality and adheres to all standard requirements. We wish to take this opportunity to convey our best wishes for the company's continued success in the future and to encourage them to uphold this high standard. We acknowledge PADAKHEP ICT as an exceptional and dependable supplier.

We wish great success of the company.

On behalf of ARANI Advertising Ltd,

Sheikh Sakib Ahsan

DEED OF RENTAL AGREEMENT

This deed of Rental agreement is made on this 1st day of January, 2024 (two thousand twenty four) of Christian Era.

BETWEEN

Padakhep Manabik Unnayn kendra, Address- S Tower, 28/1. West Tejturi Bazar, Tejgaon, Dhaka-1215. represented by its joint Director (HR & Admin) Mr. Md. Sayedul Islam (Which expression, unless repugnant to the context shall mean and include their heirs, executors, administrators, legal representatives, successors and assigns).

-----First Party/Owner.

AND

Padakhep ICT, Address- S Tower, 28/1. West Tejturi Bazar, Tejgaon, Dhaka-1215, represented by Mr. Md. Saleh Bin Sums. (Which expression, unless repugnant to the context shall mean and include their heirs, executors, administrators, legal representatives, successors and assigns)

---Second Party/Tenant.

WHEREAS THE 1st Party is the rightful owner of the Ground floor & 4th floor, Flat size total 1010 sft. (Including common space such as lift, lobby, corridor, car parking etc.) building situated at S Tower, 28/1. West Tejturi Bazar, Tejgaon, Dhaka-1215. and the 2nd Party has agreed to take on rent the aforesaid flat with gas, water, and electric connection.

AND whereas both the 1st Party and the 2nd Party consider it necessary to put down in writing the terms and conditions of this Rent agreement and to abide by the same during the whole tenancy period of this Rent agreement of the said premises it is hereby agreed upon by the 1st Party and the 2nd Party here to as follows.

1. That the rent shall commence from 01st day of January, 2024 and shall continue for a period of 5 (Five) years ending 31st December 2028, rent agreement is renewable with mutual consent of both the parties and subject to new terms and conditions including enhancement of rent as may be mutually agreed upon.

“দেশপ্রেমের শপথ নিন, দনীতিকে বিদায় দিন”

খস

৯৫৫৪৪০০

2. That the premises including the fixtures and fittings existing thereon and the Tenant shall, upon the expiry of this rent period or/and subject to other provisions therein after-mentioned, hand over the premises including the fixtures and fittings in such a condition as was at the time of taking over possession.
3. That the parties hereto have mutually agreed to fix the monthly rate and service charge etc. with effect from 1st day of January 2024 as per the following:
 - a. The rent of the Floor for the initial year (1 year) shall be taka= 85,850 /- (Eighty-five thousand eight hundred fifty taka) per month which will be payable by account payee cheque in favour of the Owner for the following month of 10 days.
 - b. The tenant must pay TK.1,71,700/- (One lac seventy one thousand seven hundred) as advance as security money during the signing of the agreement. This security money will be adjusted with last two months rent.
 - c. All utility charges such as water, gas, electricity, sewerage, lift etc. based on actual consumption (per month) as per the actual Metering system shall be paid by the 2nd Party and apart from this, any bill applicable for using the building common service will also be paid/ shared as consumption (per month).
 - d. The rent agreement should be of 5 (Five) years.
 - e. The rent will be increased after every 1 (One) year @ 5% (Five percent) of the monthly rent determined as above. In case of increase in rent after 1 year, the rent will be increased by adding the subsequent rent to the original rent.
4. The Tenant should use the floor for Official purposes only.
5. That the Tenant shall not store/keep any offensive, dangerous, explosive or highly inflammable articles in the said premises and shall not use the same for any unlawful activities or anti-state activities. In such case, immediate eviction without notice and

“দেশব্রহ্মের ন্যায় নিন্দ, দুর্নীতিকে বিদায় দিন”

Sum

advance security deposit will be forfeited and will be liable to pay necessary compensation.

6. That the Tenant must abide by the customs and norms for maintaining a healthy atmosphere of peaceful living. The Tenant will be fully responsible for inside security or his rented floor. The Owner will not be responsible for loss of any item/items from inside this flat during the period.
7. That the Tenant takes care and not damage/breakage tiles, glass, windows, pan, commodes, electrical fittings, water taps, basin, wall and door locks such as important fittings, etc. Any damaged occurred the Tenant shall repair at his own cost and fit the damaged used same. The said things will be serviced on time at Tenant's responsibility. The Tenant will leave the flat in the condition it was in when the floor was rented.
8. That the Tenant shall pay all utility charges like gas, electricity, water & sewerage, lift etc. bill including monthly service charges payable for security and other purpose. Tenant shall also keep all up-to-date documents relating to the payment of gas, electricity, and water & sewerage bills and keep the Owner informed every month. Tenant will hand over these documents to the Owner on monthly basis immediately after payment is made.
9. That the premises shall not be used for any purpose other than the purpose for which it has been rented out. The premises shall not be sub-let. The Tenant has no right or power to sub-let or art with a certain portion or part of the flat to any person.
10. The Tenant shall during the said terms of rent keep the interior of the rented-out floor in good and tenantable condition and will also maintain and keep in proper order the exterior installations and all the fittings and fixtures in the said premises. In case of any damages done to the fixture, fittings the Tenant shall make good of the loss with own cost or by repair.
11. The Tenant shall not do anything, which may cause annoyance or inconvenience of any kind to other Tenants/occupiers of apartments in the Complex. On the event of social gathering of parties arranged by the Tenant loin an accommodation, any kind of excess in any terms of over beating of music or any audio/video instruments shall be avoided so as not to cause irritation to the adjoining apartments.
12. The Tenant shall not stock or display any materials in the corridors or in any place intended for common use of the owners or occupiers of other apartments in the complex.
13. The Tenant shall not cause any structural or other damage to the floor.
14. The Tenant shall not use or permit the use of the accommodation in manner in a which might diminish the value of utility of the pipes, water lifting motors, lift/s and pumps and the like common facilities and amenities provided in the site of the complex.

-  
15. The Tenant shall not display any business signboard advertisement board in the building.
 16. Guests/Clients parking is not allowed inside the complex.
 17. That the tenant must abide by the rules and regulations of the Floor Owner.
 18. The following shall constitute a Tenant Default under this rent :(a) if Tenant fail to pay the Rent and /or any additional rent, expense or charge under this rent period within 10 (Ten) days after receipt by Tenant of written notice that they are due; or (b) if Tenant shall neglect or fail to perform or observe, in any material respect, any other covenants, terms, provisions or conditions to be performed or observed by Tenant under this rent agreement within 30 (Thirty) days after written notice of said default is given by the Owner. In this case the rent will be adjusted with the security money of the tenant and the tenant will be obliged to vacate the floor and in case of any damage, the tenant will be obliged to pay proper compensation.
 19. The Owner deserves the right to evict the Tenant without the intervention of the court in case of violation of any terms of the rent agreement, which shall not be objected by the Tenant. All matters pertaining to this agreement (Including its interpretation, application, validity, performance and breach) in whatever jurisdiction action may be brought, shall be governed by, construed and enforced in accordance with the laws of Bangladesh. The parties will attempt to resolve the dispute in good faith through arbitration (as per Arbitration Act 2001 of the people's Republic of Bangladesh) and/or Alternative Dispute Resolution (ADR) procedures.
 20. This document is not valid for any bank loan and or any financial transaction with any other party what so ever.
 21. Both parties are liable for two months prior notice to vacate the floor as usual. In case the Tenant vacates the flat before that, the advance money will not be refunded and the floor will be returned in the condition in which the floor was rented. Otherwise, the tenant will be obliged to pay appropriate compensation.

That the 1st Party and the 2nd Party accept the terms and conditions of this rent agreement as just and fair.

In witness whereof, this rent deed signed and executed by both the 1st Party and the 2nd Party on this 01/01/2024 herein contained.

Working Details of Network Infrastructure Development for ARANI Advertising Ltd.

Padakhep ICT

Network Cabling

- Cable Tray setup for Network cabling.
- 4,880 Meter network cabling for 96 point including CCTV, Internet, IP Phone, Door Lock, Access Point, and printer.
- Connecting RJ45 connector to both ends of this 96 Points.
- Modular & Face Plate Setup.
- Switch Rack Setup & Cable Arrangement.

Switch setup & Configure

- Network Switch setup on 9U Rack.
- Connection establish from Server Room Core Switch.
- Basic configuration & VLAN create.
- Bandwidth management from Mikrotik Router.

CCTV Installation

- Decide on the location and prepare the Installation.
- Mount and install the cameras.
- NVR setup.
- CCTV camera device adjustment, focusing and renaming by location.
- Added to software.

IP Phone Setup

- Purchase IP Phone and Server.
- IP Phone Server Setup.
- Configure IP Phone.
- Test IP Phone.
- Setup Additional Features.

Support and Services

Give continuous support and services to ARANI advertising Ltd.

Employments and work experience

Senior Manager

Feb 2024 –

Present

- Project: OnePadakhep (Backend)

Results-driven IT professional specializing in backend development, API design, and role-based access control (RBAC) implementation. Leveraging Django, Django REST Framework (DRF), and OAuth Toolkit, developed robust client authentication and token generation systems to secure API access. Demonstrated expertise in designing and implementing a custom RBAC system, ensuring precise, role-based permissions across diverse modules, including Human Resource Management (HRM), User Management, Organization Management, Vehicle Management, and Tour Management.

Experienced in collaborating directly with stakeholders to translate complex business logic into scalable backend solutions. Built modular components for seamless management of users, vehicles, and tours, aligning backend functionality with organizational goals. Skilled in developing RESTful APIs with robust security practices, efficient data handling, and high performance.

Key Skills and Achievements:

- **Backend Architecture and Development:** Architected and developed a scalable backend, ensuring efficient data flow and secure API endpoints across multiple modules.

- **Authentication and Authorization:** Utilized OAuth Toolkit for client authentication and token management, enhancing API security and access control.
 - **Role-Based Access Control (RBAC):** Implemented a custom RBAC system to manage user permissions dynamically across the application.
 - **Database Management:** Designed and optimized database schemas, managed migrations, and implemented caching strategies to improve data efficiency and scalability.
 - **Performance Optimization:** Enhanced API response times, optimized server load, and ensured high performance through efficient code practices.
 - **Testing and Quality Assurance:** Developed and maintained unit tests and integration tests to ensure code quality and reliability, supporting a smooth CI/CD pipeline.
 - **Error Handling and Logging:** Implemented structured error handling and logging mechanisms to facilitate efficient debugging and monitoring.
 - **Documentation and Knowledge Transfer:** Created technical documentation for backend processes and provided knowledge transfer sessions for team members and stakeholders.
- **DevOps Role:**
Experienced in Agile-driven DevOps practices, managing local, staging, and production environments to support iterative development, continuous integration, and deployment cycles. Proficient in Ansible for Infrastructure as Code (IaC), automating and standardizing configurations across all environments to ensure consistency and scalability. Developed and maintained CI/CD pipelines with Jenkins, enabling rapid deployments for Django backend and Laravel frontend components, aligning with Agile sprints and feedback cycles.

Configured Nginx as the primary web server, optimizing it for high performance, load balancing, and secure API routing. Used Git and GitHub for source control, enhancing collaboration and code traceability across Agile sprints. Managed MySQL master-slave replication in production, ensuring data reliability and availability. Collaborated closely with cross-functional teams in Agile ceremonies, supporting iterative releases, sprint planning, and timely updates based on stakeholder feedback.

Key Skills and Achievements:

- **Infrastructure Automation:** Utilized Ansible for IaC, ensuring consistent deployment across local, staging, and production environments.
 - **CI/CD Pipeline Development:** Built Jenkins pipelines supporting automated testing and deployments for Agile delivery.
 - **Web Server Optimization:** Configured and tuned Nginx for efficient load balancing, API management, and security across applications.
 - **Database Reliability:** Set up MySQL master-slave replication to ensure data redundancy and reliability in production.
 - **Agile Collaboration:** Engaged in Agile ceremonies, coordinating with development, QA, and operations for continuous improvement and adaptation based on feedback.
- Results-oriented IT professional with expertise in API development and end-to-end infrastructure management using Laravel and AWS. Successfully integrated Microzen (Micro-Credit Software) with bKash and Nagad through XML and JSON APIs, enabling secure, seamless online transactions. Skilled in analyzing API documentation, planning, and designing efficient request-response flows for optimal transaction performance.

Organization: Padakhep ICT

Senior Network Engineer

Nov 2023 – Feb

2024

- Results-driven IT professional with expertise in configuring, installing, and troubleshooting diverse systems, applications, servers, storages, routers, and network devices. Proficient in performing critical tasks in Data Center (DC), Near Data Center (NDC) and Disaster Recovery (DR) such as storage and server data backup, migration, and disaster recovery operations. Demonstrated skills in system administration, managing Windows and Linux systems and applications. Configuring and managing Virtualization Platforms (e.g., VMware, Hyper-V) and maintaining monitoring tools for network health. Ensuring network security through appropriate measures and protocols, including data connectivity over Data Center (DC), Disaster Recovery (DR), and 40 branch offices with GRE and Site-to-Site VPN. Proactively supporting vulnerability assessments, applying regular OS patches and upgrades, and generating reports for Windows servers. Collaborating effectively with cross-functional teams for the planning and implementation of network and server-related projects. Adept at pursuing audit and regulatory recommendations, settling observations, and preparing comprehensive documentation and work instructions. Committed to staying updated with the latest networking, server, and storage technologies, trends, and best practices.

Organization: IDLC Finance PLC

Bay's Galleria (1st Floor), 57 Gulshan Avenue, Dhaka-1212, Bangladesh

Senior Manager

July 2022 – Oct

2023

Results-oriented IT professional specializing in API development, infrastructure deployment, and secure communication for financial transactions. Demonstrated expertise in integrating Microzen (Micro-Credit Software) with bKash and Nagad through XML and JSON APIs using the Laravel Framework. Skilled in API analysis, planning, and designing robust Request/Response flows to support seamless online transactions.

Adept at AWS-based application deployment, utilizing Nginx for UAT/Staging and Production environments, and overseeing MySQL server installation, configuration, and backup management on AWS. Developed secure communication channels via Site-to-Site VPN tunnels with partners like bKash and Nagad. Responsible for planning IT infrastructure for an office relocation, including Network Design, Active Directory, IP Telephony, and Small Data Center setup with virtualization.

- **Key Responsibilities:**
 - API development for online transactions between Microzen and bKash, Nagad using XML and JSON formats with the Laravel Framework.
 - Analyzing API documentation to design and implement structured Request/Response flows.
 - Deploying applications on AWS, managing UAT/Staging and Production environments with Nginx.
 - Installing, configuring, and backing up MySQL servers on AWS.
 - Establishing secure communication channels through Site-to-Site VPN tunnels.
 - Planning and designing IT infrastructure for new office setup, including Active Directory, IP Telephony, and a Data Center with virtualization capabilities.

Continued Responsibilities from Previous Position

Manager

Aug 2017 – June

2022

Experienced IT professional with expertise in hybrid email infrastructure management, cloud solutions,

and on-premises server support. Specialized in managing Office 365 and Zimbra hybrid email environments, including backup, monitoring, performance optimization, and policy management. Skilled in maintaining Office 365 and Azure user administration, as well as AWS, Azure, and GCP server management, ensuring secure and efficient cloud infrastructure.

Proficient in configuring and maintaining both MikroTik routers and Cisco switches, overseeing network traffic management and ensuring robust connectivity for headquarters, zone, area, and branch offices. Experienced in Cisco switch configuration for VLAN implementation, VTP, and port security, creating a secure and organized network environment. Also skilled in DNS management for SPF, DKIM, and DMARC updates to enhance email security and deliverability, along with implementing network security across various platforms.

- **Key Responsibilities:**

- Managing hybrid email systems with Office 365 and Zimbra, including backup, monitoring, and performance optimization.
- Updating SPF, DKIM, and DMARC records in public DNS as required.
- Configuring AWS, Azure, and GCP resources, including IAM, VPCs, and security policies.
- Configuring on-premises Windows Server with FSRM services for file storage management.
- Providing Office 365 and network support to headquarters, zone, area, and branch office users.
- Configuring MikroTik routers, managing VLANs Cisco S/W, DHCP, access points, and securing networks.
- Managing CCTV systems for headquarters, ensuring consistent online access.
- Coordinating with vendors to implement new technology solutions.

Organization: Padakhep Manabik Unnayan Kendra

S Tower, House # 28/1, West Tejturi Bazar, Tejgaon, Dhaka-1215, Bangladesh

Executive IT

Jul 2016 – Mar 2017

- Seasoned IT professional excelling in the management of diverse IT operations, specializing in MikroTik router configuration, network design, and comprehensive infrastructure support. Proven track record in bandwidth management, network security, and technology integration. From MikroTik router optimization to WordPress development and vendor collaboration, adept at providing end-to-end solutions for a seamless and secure IT environment.

Organization: Promixco Group

34 Topkhana Road, Dhaka-1000, Bangladesh

Skills

Research and Technical Skills

- Language & Framework:
C, C+, HTML, CSS, Bootstrap, Python, Django, PHP & Laravel
- Database:
MySQL, PostgreSQL, Microsoft SQL Server.
- Cloud:
AWS, Azure, GCP & Office 365
- DevOps:
Git & GitHub, Jenkins, Docker, Kubernetes (very basic), Ansible, Nagios, Nginx, Scripting.
- Virtualization:
ESXi, vCenter, Hyper-V, VMWare Workstation.

- Networking:
DHCP, IP Subnetting, IP summarization, VLAN, VTP, Port Security, Routing (RIP, IGRP, EIGRP, OSPF, BGP), NAT, PAT, ACL, Remote Access and Site-to-Site VPN, Failover, Link Aggregation etc.
- System:
DNS server, Mail server (Zimbra, Sendmail, Webmail, Postfix), DHCP server, Proxy server, Web server, NFS, iSCSI, print server, Samba file server, FTP Server, RAID 0/1/5,6,10, etc.
Windows Server (DNS, DHCP, ADDS, FSRM, iSCSI, NFS)
- Operating System:
Windows (Desktop & Server), Red Hat, CentOS, Ubuntu, Kali Linux, MacOS
- Device:
Server, Router, Wireless Router, Access Point (AP), Switch, IP PBX, Modem, IP Surveillance System etc.

Language Skills

- English: IELTS Band Score 5.5
- Hindi: Limited working proficiency
