VISION & VALUES

[Scan for detail]

Our vision is to be a one-stop ICT service provider to solve problems in business, administration, day-to-day life and ensure social benefits. Focusing on the latest technologies and continuous innovation, we are achieving success by providing world-class solutions to our valued clients globally and being recognized as one of the promising ICT service providers for innovation and quality services.

CONFIDENCE

We use only cutting-edge technologies to develop best-in-class solutions for our customers. Build long term relationship with happy customers by quality services in a profitable way.

RESPONSIBILITY

Driven by the passion our software developers deliver the enormous volume of code, yet producing it of the highest quality and on time.

COST-EFFECTIVE

We neither overestimate nor underestimate our skills and experience, our customers always get quality-proven software development services valued for the money they invested.

OUR PRODUCTS

SystechiHR - Powering Digital Transformation of HR

SystechiHR is a renowned HRIS Software in Bangladesh. Our On-premise & Cloud platform engages and empowers employees across the entire lifecycle from recruitment to retirement. This of-the-self product is bundled with a cross-platform mobile application.

SystechiMMS - Membership Management System

Bring your community together with a simple and intuitive membership database software that automates your tasks and scales with you as you grow. Membership Management software automates the management of membership within associations, communities, clubs, and other member-based organizations. This of-the-self product is bundled with a cross-platform mobile application.

SystechiTRACK - Lab Test Process Automation System

Our Testing Lab Process Automation Software System is an IOT-enabled advanced system for testing equipment data collection and complete management of statistics, traceability, database access, and much more. Easy to manage and fast access to your test results for a single machine, multiple machines, or even multiple sites. Graphical displays and process control give you an ever-greater means of putting your performance to the test.

SystechProRun - Production Tracking System

Smart Factory Solution for RMG Industry. Systech ProRun is an IoT-enabled smart solution for manufacturing floor operations. The solution focused on automatic data acquisition and forecasting for production processes, quality, line layout, material availability, machine maintenance, and production tracking anytime, anywhere. It is optimized to improve productivity and decrease wastage.

SystechiERP - Enterprise Resource Planning

Our cutting-edge cloud-based ERP solution seamlessly integrates CRM, HRM, Inventory, Accounting, Warehouse, POS, and more, optimizing your operations, enhancing efficiency, and delivering real-time insights for smooth business decisions across all functions. Designed to grow with your business, ensuring scalability and future success.
